

Aberdeen Global Opportunities Fund

Fund objective

Aims for long-term total return from an internationally diversified portfolio of securities through investing all, or substantially all, of its assets in the Aberdeen Global - World Equity Fund* (the "underlying fund"), a sub-fund of Luxembourg-registered Aberdeen Global, which will invest at least two-thirds of its assets in equities or equity-related securities.

Aberdeen Global Opportunities Fund

Fund manager's report

- World markets rose in March on upbeat economic and earnings data. The US Federal Reserve's move to hold interest rates also buoyed sentiment, as did the Eurozone's rescue package for Greece.
- Economic data bolstered confidence that the global recovery was on track: confidence in the Eurozone reached a 22-month high, US consumer spending rose for the fifth month in February, and China's industrial and export figures remained robust.
- As part of its exit strategy, the US will end its purchases of mortgage-backed securities. Asian central banks, including those in Australia, India and Malaysia, hiked interest rates amid rising inflation.
- During the month, we topped up Novartis and QBE Insurance, as valuations appeared attractive. Against this, we pared Petrobras, in anticipation of its capital raising, Intesa Sanpaolo, on concerns over its growth outlook, as well as Nordea Bank and Procter & Gamble.
- It is uncertain if the global recovery is sustainable, as governments grapple with huge budget deficits and high unemployment. Nonetheless, we remain invested in transparent and well-run companies that are likely to reward investors with steady returns.

Important information

The CPF interest rate for the Ordinary Account (OA) is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the CPF Act, the Board pays a minimum interest of 2.5% per annum when this interest formula yields a lower rate. In addition, from 1 January 2008, the CPF Board will pay an extra interest rate of 1% per annum on the first \$60,000 of a CPF member's combined balances, including up to \$20,000 in the OA. From 1 April 2008, the first \$20,000 in the OA will not be allowed to be invested under the CPF Investment Scheme.
