

Aberdeen Global Opportunities Fund

Fund objective

Aims for long-term total return from an internationally diversified portfolio of securities through investing all, or substantially all, of its assets in the Aberdeen Global - World Equity Fund* (the "underlying fund"), a sub-fund of Luxembourg-registered Aberdeen Global, which will invest at least two-thirds of its assets in equities or equity-related securities.

Aberdeen Global Opportunities Fund

Fund manager's report

- Global equities rebounded sharply in October, with emerging markets outperforming other asset classes. An apparent breakthrough in European leaders' discussions boosted confidence the debt crisis could be contained while good US growth and China's monetary policy easing also lifted sentiment.
- The European Central Bank, the Bank of England and the Bank of Japan left interest rates unchanged. The Reserve Bank of India raised the benchmark lending rate; separately, it will de-regulate savings deposit rates. The ECB extended its policy of providing unlimited liquidity to Eurozone banks, while the BoE raised its bond-purchasing programme by £75 billion to boost the economy.
- September inflation quickened in the UK, Germany and Japan.
- China's third-quarter GDP expanded at its slowest pace in more than two years to 9.1%, weighed down by credit tightening and weaker external demand.
- Japan's core machinery orders rose significantly in August, driven by demand for electrical products. The government will spend an additional ¥12.1 trillion to fund disaster-hit zones.
- In October, we added to Italian steel pipemaker Tenaris on the back of price weakness.

Important information

The CPF interest rate for the Ordinary Account ("OA") is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the CPF Act, the Board pays a minimum interest of 2.5% per annum when this interest formula yields a lower rate. In addition, from 1 January 2008, the CPF Board will pay an extra interest rate of 1% per annum on the first \$60,000 of a CPF member's combined balances, including up to \$20,000 in the OA. From 1 April 2008, the first \$20,000 in the OA will not be allowed to be invested under the CPF Investment Scheme.
