### Manager's comment

- Asian markets pulled back in November as investors became more concerned about Europe.
- Asian currencies were also under pressure, in particular the Indian rupee as capital flowed out of the region.
- Consumer staples and telecom stocks outperformed, while cyclical sectors such as property and commodities lagged.
- By country, Thailand was the strongest performer among the major investment grade countries returning 0.71% while India was the poorest, decreasing by 3.03%.
- By investment grade sector, sovereigns were the strongest performers while corporates were the worst.
- New Asian dollar bond issuance remained subdued in November with around \$2.9 billion of deals written.

## DISCLAIMER

Except for the benchmark index, performance stated for relevant indices are quoted in the respective local currency unless otherwise specified.

Note: The above asset allocation pertains to the underlying fund. This report is prepared by First State Investments (Singapore) and is provided for information purposes only. Investors should read the Prospectus before deciding whether to subscribe for or purchase units in the Fund. The prospectus is available and copies may be obtained from the Manager and Distributors. The value of the units in the Fund and the income from them may rise as well as fall. Past performance figures are not necessarily a guide to future performance. Neither is any forecast made necessarily indicative of the future or likely performance of the Fund. Where information is provided on top holdings, such information does not constitute a recommendation to buy these securities. Units are not available to U.S. persons.

The CPF interest rate for the Ordinary Account (OA) is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the CPF Act, the CPF Board pays a minimum interest of 2.5% per annum when this interest formula yields a lower rate. The interest rate for the Special and Medisave Accounts (SMA) is pegged to the 12-month average yield of 10-year Singapore Government Securities (10YSGS) plus 1%. The interest rate to be credited to the Retirement Account (RA) will be the weighted average interest of the entire portfolio of Special Government Securities (SSGS) which the RA savings are invested in, which earn a fixed coupon equal to the 12-month average yield of the 10YSGS plus 1% at the point of issuance. For 2011, the minimum interest rate for the SMA and RA is 4% per annum. After 31 December 2011, the minimum interest rate of 2.5% per annum, as prescribed by the CPF Act, will apply to the SMA and RA. In addition, the CPF Board will pay an extra interest rate of 1% per annum on the first S\$60,000 of a CPF member's combined balances, including up to S\$20,000 in the OA. The first S\$20,000 in the OA and the first S\$40,000 in the Special Account will not be allowed to be invested under the CPFIS.
