KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an investment company organised under Luxembourg law as a *société anonyme* qualifying as a *société d'investissement à capital variable* that aims to achieve a long term capital growth.

Refer to the “The Company” and “Investment Objective, Focus and Approach” sections of the Singapore Prospectus for further information on features of the product.

¹ The Prospectus is available for collection from 12 Marina View, #18-02, Asia Square Tower 2, Singapore 018961 during normal Singapore business hours or accessible at www.nikkoam.com.sg.

² The information presented is historical information and past performance of the Sub-Fund is not indicative of its future performance.

Investment Strategy	
<ul style="list-style-type: none"> • The Sub-Fund will invest, under normal market conditions, primarily in global equity securities of companies that are relevant to the Sub-Fund's investment theme of disruptive innovation. • The Investment Manager defines "disruptive innovation" as the introduction of a technologically enabled new product or service that potentially changes the way the world works. The Investment Manager believes that companies relevant to this theme are those that rely on or benefit from the development of new products or services, technological improvements and advancements in scientific research relating to the areas of: (i) genomics, which the Investment Manager defines as the study of genes and their functions and related techniques; (ii) industrial innovation in energy, automation and manufacturing; (iii) the increased use of shared technology, infrastructure and services; and (iv) technologies that make financial services more efficient. • Under normal circumstances, substantially all of the Sub-Fund's assets will be invested in equity securities. The Sub-Fund may use ADRs, EDRs and GDRs when purchasing foreign securities. • The Sub-Fund may invest a proportion of its assets in depositary receipts, (including sponsored ADRs, sponsored EDRs and sponsored GDRs), rights, warrants, preferred securities and convertible securities. • Under normal circumstances, the Sub-Fund aims to achieve a target average gross return of 10% to 15% per annum over a rolling five year period but such target gross return may be subject to review and change. • The Sub-Fund may take a temporary defensive position (investments in cash or cash equivalents) in response to adverse market, economic, political or other conditions. • Subject to the relevant provisions of the Luxembourg Prospectus, the Sub-Fund may use financial derivative instruments for the purposes of investment, hedging and efficient portfolio management. The Sub-Fund is also authorised to invest in financial derivatives for the purpose of efficient management of its investments and may, as a consequence thereof, invest to a limited extent for speculative purposes. 	<p>Refer to the "Important Information" and "Investment Objective, Focus and Approach" sections of the Singapore Prospectus for further information on the investment strategy.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Sub-Fund is a sub-fund of Nikko AM Global Umbrella Fund (the "Company"). • The Management Company is Nikko Asset Management Luxembourg S.A.. • The Investment Manager is Nikko Asset Management Americas, Inc.. • The Depositary is Brown Brothers Harriman (Luxembourg) S.C.A.. 	<p>Refer to the "The Company", "Management" and "Other Parties" sections of the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk.</p>	<p>Refer to the "Risk Factors" and "Suspension Of Dealings" sections of the Singapore Prospectus for further information on risks of the product.</p>

Market and Credit Risks	
<ul style="list-style-type: none"> • Price risk – The Shares, as well as the securities acquired by the Sub-Fund, are subject - as are any securities - to price risk. The risk of a decrease in the value of Shares, as well as the potential for an increase in their value, is usually greater in the case of an equity fund than in the case of a bond fund. • Equity risk – Companies issue common shares and other kinds of equity-related securities to help pay for their operations and financial necessity. Equity securities can go down in price for many reasons. They are affected by general economic and market conditions, interest rates, political developments, confidence of investors and changes within the companies that issue the securities. • Exchange rate risks – the Shareholders are subject to this risk due to the different currencies which may be involved, that is the currency with which Shareholders have purchased Shares, the reference currency of the Sub-Fund or Class concerned and the currency of the securities in which the Sub-Fund invests. If the rate of exchange of the currency of subscription for the relevant reference currency of investments increases, an exchange loss may be incurred by such Shareholders in the case of a redemption of Shares. On the other hand, a fall in the value of the currency of subscription may increase the redemption proceeds. • Counterparty risk – in entering into transactions which involve counterparties, there is a risk that a counterparty will wholly or partially fail to honour its contractual obligations. In the event of a default, bankruptcy or insolvency of a counterparty, the Sub-Fund could experience delays in liquidating the position and significant losses, including declines in the value of the investment during the period in which the Depositary seeks to enforce its rights, an inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. The Sub-Fund may only be able to achieve limited or possibly no recovery in such circumstances. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The Sub-Fund is not listed and you can redeem only on Valuation Days. <ul style="list-style-type: none"> ○ There is no secondary market for the Sub-Fund. All redemption requests should be made to the Transfer Agent through the Singapore distributor through whom the Shares were purchased. ○ If redemption requests are received in respect of any single Valuation Day for redemptions beyond a certain limit, the Company may delay the calculation of the redemption price and payment may be made, with the approval of the Shareholders concerned, in specie. • In addition, you may not redeem your Shares during any period where redemption is suspended. 	
Product-Specific Risks	
<ul style="list-style-type: none"> • Disruptive Innovation Risk – companies that the Investment Manager believes are capitalising on disruptive innovation and developing technologies to displace older technologies or create new markets may not in fact do so. These companies may also be exposed to risks applicable to sectors other than the disruptive innovation theme for which they are chosen, and the securities issued by these companies may underperform the securities of other companies that are primarily focused on a particular theme. The Sub-Fund may invest in a company that does not currently derive any revenue from disruptive innovations or technologies. The success of a disruptive innovation or technology may not affect the value of the equity securities issued by the company.

VALUATIONS AND EXITING FROM THIS INVESTMENT													
<p>HOW OFTEN ARE VALUATIONS AVAILABLE? The issue and redemption prices of Class B SGD and Class B USD in respect of each Valuation Day are normally published in Singapore on www.nikkoam.com.sg.</p> <p>HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?</p> <ul style="list-style-type: none"> You may redeem your Shares on any Valuation Day. To redeem your Shares at the NAV per Share as of a particular Valuation Day, you must submit your redemption form to the Singapore distributor from whom you purchased your Shares before the Singapore dealing deadline imposed by the Singapore distributor for that Valuation Day. If your redemption form is not received before the Singapore dealing deadline for a particular Valuation Day, your redemption request will ordinarily be processed on the next Valuation Day. An example of how the redemption proceeds are calculated is as follows: <table style="margin-left: 20px;"> <tr> <td style="text-align: center;">$\frac{1,000 \text{ Shares}}{\text{Redemption request}}$</td> <td style="text-align: center;">x</td> <td style="text-align: center;">$\frac{\text{US\\$10}}{\text{Notional NAV per Share}}$</td> <td style="text-align: center;">=</td> <td style="text-align: center;">$\frac{\text{US\\$10,000}}{\text{Net redemption proceeds}}$</td> </tr> </table> There is currently no redemption charge payable.
