It will invest in a broadly diversified range of investment grade debt securities.</p> <ul style="list-style-type: none"> The Sub-Fund may use FDI for EPM (including hedging) purposes only. It will not use FDI extensively for any purpose. 	<p>Prospectus for further information on the investment strategy of the product.</p>
<p>Parties Involved</p>	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Manager is PineBridge Investments Ireland Limited, who has appointed PineBridge Investments Asia Limited and PineBridge Investments Singapore Limited as investment managers for the Sub-Fund. The Trustee and Custodian is State Street Custodial Services (Ireland) Limited. 	<p>Refer to the "Management Structure and Other Parties" section of the Singapore Prospectus for further information on their roles and responsibilities, and what happens if they become insolvent.</p>
<p>KEY RISKS</p>	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the Sub-Fund and its distributions may rise or fall. The instruments and financial markets invested by the Sub-Fund may be adversely affected by changes in political, economic and social conditions and policies including without limitation, foreign exchange control policies. These risks, some of which are set out below, may cause you to lose some or all of your investment.</p>	<p>Refer to the "Risk Factors" section of the Singapore Prospectus for further information on risks of the product.</p>
<p>Market and Credit Risks</p>	
<p>You are exposed to credit / counterparty / default risk</p> <ul style="list-style-type: none"> The Sub-Fund may suffer loss if the issuers, guarantors or counterparties of the securities invested default on payments or become insolvent. Misrepresentations or omissions of a counterparty may adversely affect the valuation of the collateral underlying an investment. Greater risk arises from OTC transactions, which are not exchange traded and less regulated. <p>You are exposed to fixed income securities risk</p> <ul style="list-style-type: none"> Their value may be badly affected by credit rating downgrades or defaults. High yield securities are riskier than investment grade securities due to creditworthiness and counterparty default risks. <p>You are exposed to sovereign debt risk</p> <ul style="list-style-type: none"> High levels of government fiscal deficit or debts (for example) may be adverse to the credit rating of sovereign debts. <p>You are exposed to Emerging Markets risk</p> <ul style="list-style-type: none"> Emerging or developing markets have greater risks due to the instability of currency and lack of developed legal structures, internationally comparable accounting standards and information transparency. <p>You are exposed to market volatility risk</p> <ul style="list-style-type: none"> All markets are volatile depending on prevailing economic conditions. 	
<p>Liquidity Risks</p>	
<p>The Sub-Fund is not listed on the Singapore Exchange and you can redeem only on Dealing Days. There is no secondary market for the Sub-Fund. All redemption requests should be made to the Manager's authorised distributors or through other sales channels, where applicable.</p>	
<p>Product-Specific Risks</p>	
<p>You are exposed to FDI risk</p> <ul style="list-style-type: none"> The prices of FDI can be highly volatile. Hedging may be ineffective due to (for example) imperfect correlation of the instrument to the security/market, illiquidity, default and legal risks. Assets deposited as margin with brokers may not be segregated and may be claimed by their creditors during insolvency. <p>You are exposed to liquidity risk</p> <ul style="list-style-type: none"> Not all securities are listed or rated, and their liquidity may be low. 	

<p>You are exposed to country concentration risk</p> <ul style="list-style-type: none"> An investment strategy with a higher geographic concentration may be subject to a greater degree of volatility and risk than a portfolio which is diversified across different geographic regions. <p>You are exposed to country selection risk</p> <ul style="list-style-type: none"> Investments in certain countries for greater opportunities may be riskier.
