OUR POLICY ON MARKET TIMING

The Fund is designed and managed to support medium to long-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of the Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the long-term interests of other investors. In addition, short-term trading in Units increases the total transaction costs of the relevant Sub-Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the relevant Sub-Fund which may disrupt the investment strategies to the detriment of long-term investors. For the reasons set out above, we strongly discourage the practice of market timing and may implement internal measures to monitor and control such practice to the extent of our powers available under the Deed. We intend to review our policy on market timing from time to time in a continuous effort to protect your long-term interests in the Fund.

We may at our absolute discretion offer any one or more Classes for subscription to you. The assets of the LionGlobal Japan Growth Fund will be valued in SGD. The assets of the LionGlobal RMB Equity Fund will be valued in RMB. Subscriptions collected by us from all Classes of each Sub-Fund are therefore pooled and invested as a single Sub-Fund.

The Classes of Units in the Sub-Funds differ, amongst other things, in terms of the currency of denomination, hedging policy, distribution policy, fees, etc.

You may subscribe for all Classes of Units of the LionGlobal Japan Growth Fund and Class A Units of the LionGlobal RMB Equity Fund. Class L Units of the LionGlobal RMB Equity Fund may only be offered to us, investment funds managed by us, certain distributors and to such other investors at our sole discretion.

A separate net asset value per Unit will be calculated for each Class. The net asset value per Unit of each Class will be calculated on each Dealing Day¹ in the currency of the relevant Class. It will be calculated by dividing the net asset value attributable to each Class, being the proportionate value of its assets less its liabilities, by the number of Units of such Class then in issue. The resultant amount shall be rounded down to the nearest three decimal places (or such other number of decimal places or any method of rounding as may be determined by us with the approval of the Trustee).

“**Acc**” means accumulation Class of Units where a Unit accumulates the net income attributable to such Unit so that is reflected in the increased value of such Unit.

“**Dist**” means distribution Class of Units where a Unit distributes its net investment income.

“**SGD**” means the lawful currency of Republic of Singapore.

¹ “**Dealing Day**” is defined in the Deed to mean:-

- (i) in connection with the issuance, cancellation and/or realisation of Units of the LionGlobal Japan Growth Fund, means every Business Day (other than a day on which the relevant Recognised Stock Exchange is closed);
- (ii) in connection with the issuance, cancellation and/or realisation of Units of the LionGlobal RMB Equity Fund means every Business Day (other than a Saturday, Sunday or gazette public holiday) on which the Singapore Exchange Securities Trading Limited, Shanghai Stock Exchange and Shenzhen Stock Exchange are open for dealing in securities,

or such other Business Day or Business Days at such intervals as we may from time to time with prior consultation of the Trustee determine Provided That reasonable notice of any such determination shall be given by us to all Holders at such time and in such manner as the Trustee may approve.

“**Business Day**” is defined in the Deed to mean any day (other than a Saturday, Sunday or a gazetted public holiday) on which commercial banks are open for business in Singapore or any other day as we and the Trustee may agree in writing.

“USD” means the lawful currency of the United States of America.

“RMB” means the lawful currency of the PRC.

“JPY” means the lawful currency of Japan.

The LionGlobal RMB Equity Fund may have investments in equity securities listed on stock markets outside of PRC which are not denominated in RMB.

Hedged Class Units of the Sub-Funds

In respect of the Hedged Class Units, we have the ability to hedge the Units of such Class in relation to the base currency of the relevant Sub-Fund or the currency of the underlying investments in such manner as we deem appropriate.

Where hedging of this kind is undertaken, we may engage, for the exclusive account of the Hedged Class Units, in, amongst other things, currency forwards, currency futures, currency option transactions and currency swaps in order to preserve the value of the Hedged Class Units against the base currency or the currency of the underlying investments.

Where undertaken, the effects of this hedging will be reflected in the net asset value of the Hedged Class Units, and, therefore, in the performance of the Hedged Class Units. Similarly, any expenses arising from such hedging transactions will be borne by the relevant Hedged Class Units.

These hedging transactions may be entered into whether the USD (in the case of USD-Hedged Units) or SGD (in the case of SGD-Hedged Units) is declining or increasing in value relative to the base currency or the currency of the underlying investments. We endeavour to undertake such hedging with the intention of protecting you in the Hedged Class Units against a decrease in the value of the base currency or the currency of the underlying investments relative to the USD or SGD (as the case may be). However, it may also preclude you from benefiting from an increase in the value of the base currency or the currency of the underlying investments. You should note that there is no guarantee that such a strategy will be able to achieve its objective.

8. INVESTMENT OBJECTIVE, FOCUS AND APPROACH AND BENCHMARK OF THE SUB-FUNDS

8.1 LionGlobal Japan Growth Fund

8.1.1 Investment Objective

The investment objective and focus of the Sub-Fund is the long-term capital growth of assets of the Sub-Fund by investing primarily in quoted or listed securities in any Recognised Stock Exchange² or OTC Market³ in Japan.

The investment strategy of the Sub-Fund is to invest the majority of the Deposited Property of the Sub-Fund in mid to small market capitalisation companies. The Sub-Fund will not target any specific industry or sector.

² “Recognised Stock Exchange” is defined in the Deed to mean any stock exchange, futures exchange and organised securities exchange on which securities are regularly invested in any country in any part of the world, and in relation to any particular Authorised Investment shall be deemed to include any responsible firm, corporation or association in any part of the world dealing in the Authorised Investment which we may from time to time elect.

³ “OTC Market” is defined in the Deed to mean any over-the-counter market or over-the-telephone market in any country in any part of the world, and in relation to any particular Authorised Investment shall be deemed to include any responsible firm, corporation or association in any country in any part of the world dealing in the Authorised Investment which we may from time to time elect.

8.1.2 Investment Approach

Investment Philosophy

We believe that equity markets are structurally inefficient and that this inefficiency provides the opportunity for investors, such as us, to add value for clients through the application of a disciplined investment process. Our investment process is supported by thorough stock analysis, disciplined stock selection and the construction of portfolios which reflect prevailing and anticipated macro/thematic trends. We also believe that portfolio construction disciplines play an essential role in the investment process as they ensure adherence to the clients' investment objectives.

We adopt a neutral approach with respect to style, and therefore any style bias, is a by-product of stock selection approach and macro view at that point in time in the investment cycle.

Investment Process

The investment process is essentially split between research and portfolio construction.

Research is a critical component to our investment approach. It focuses on identifying companies that meet the following criteria:

- Sustainable competitive advantage
- Balance sheet strength
- High calibre management
- Strong culture of corporate governance
- Evidence of mispricing
- Identifiable critical factors and associated catalysts that will move the share price.

We construct the portfolio in a manner consistent with the objective of the Sub-Fund as well as taking into account the prevailing macro directions and sector/thematic considerations, while adhering to portfolio construction disciplines of the Sub-Fund.

The Sub-Fund's net asset value may have higher volatility as a result of its narrower investment focus on a limited geographical market, when compared to funds investing in global or wider regional markets.

Please note that Units of the Sub-Fund are Excluded Investment Products and prescribed capital markets products. Accordingly, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products and prescribed capital markets products.

8.1.3 Investment Style and Benchmark Usage

The benchmark of the Sub-Fund is the TOPIX Total Return Index. The Sub-Fund uses its benchmark for performance comparison. The Sub-Fund is actively managed and the investment of the Sub-Fund may deviate significantly from components of their respective weightings in the benchmark.

8.1.4 Product Suitability

The Sub-Fund is only suitable for investors who:

- seek capital growth over the long term; and
- are comfortable with the greater volatility and risks of an equity fund.

8.2 LionGlobal RMB Equity Fund

8.2.1 Investment Objective

The Sub-Fund seeks to achieve long-term capital growth by investing primarily in A shares listed on the PRC stock exchanges through Renminbi Qualified Foreign Institutional Investor ("RQFII") investment quota.

The Sub-Fund may also obtain exposure to A shares through financial derivative instruments and securities linked to A shares and exchange traded funds; and invest in other investments including but not limited to equity securities listed or being offered in an initial public offer on official stock markets in Hong Kong, China B share markets, United States, Taiwan, Singapore and other countries.

8.2.2 Investment Approach

Our investment approach, as set out in Paragraph 8.1.2 above, is also applicable to the LionGlobal RMB Equity Fund.

The Sub-Fund's net asset value may have higher volatility as a result of its narrower investment focus on a limited geographical market, when compared to funds investing in global or wider regional markets.

8.2.3 Investment Style and Benchmark Usage

The benchmark of the Sub-Fund is the FTSE China A-50. The Sub-Fund uses its benchmark for performance comparison. The Sub-Fund is actively managed and the investment of the Sub-Fund may deviate significantly from components of their respective weightings in the benchmark.

8.2.4 Product Suitability

The Sub-Fund is only suitable for investors who:

- seek capital growth over the long term and exposure to China A shares market; and
- are comfortable with the greater volatility and risks of an equity fund.

8.3 Authorised Investments

The Fund is authorised to invest in the following investments (“**Authorised Investments**”):

provided that each of such Authorised Investments falling within paragraphs (i) to (iv) of this definition shall be a Permissible Investment⁷ under the Code, and to the extent allowed under the Notice on the Sale of Investment Products, the Notice on Recommendations on Investment Products and the Securities and Futures (Capital Markets Products) Regulations 2018 for the purpose of classifying Units of the LionGlobal Japan Growth Fund as Excluded Investment Products and prescribed capital markets products.

⁶ “**Investment**” is defined in the Deed to mean any Permissible Investment, including any share, stock, warrant, option or other stock purchase right, interest-bearing instrument, bond, discount bond, note, discount note, exchange fund note, debenture, debenture stock, banker's acceptance, debt security, loan, loan convertible into security, loan stock, warrant, options, certificates of deposit, currency deposits, commercial paper, promissory note, unit or sub-unit in any unit trust scheme, participation in a mutual fund, other interests in collective investment schemes, share or other interest in a real estate investment trust company, share or unit or sub-unit or participation or other interest in any hedge fund, treasury bill, fixed or floating rate debt instrument, futures, forward, swap, floor, collar, index and forward currency exchange contract or any other security (as defined in the SFA) (all of the foregoing denominated in any currency) or any other money market instrument or any other derivative which may be selected by us for the purpose of investment of the Deposited Property or which may for the time being form part thereof.

⁷ “**Permissible Investment**” is defined in the Deed to mean such investment as may be permitted to be made by the Sub-Fund under the Code.

9. CPF INVESTMENT SCHEME

The LionGlobal Japan Growth Fund is included for investment under the CPF Investment Scheme (“**CPFIS**”) - Ordinary Account. It has been classified by the CPF Board under the “**Higher Risk - Narrowly Focused - Country - Japan**” category. You should note that only Units which are denominated in SGD are included under the CPFIS.

The CPF Board currently pays a legislated minimum annual interest rate of 2.5% on monies in the CPF Ordinary Account. The CPF interest rate for the CPF ordinary account is based on the 3-month average of the major local banks’ interest rates, reviewed quarterly.

The interest rate for the Special and Medisave Accounts (“**SMA**”) is pegged to either the 12-month average yield of 10-year Singapore Government Securities (10YSGS) plus 1% or 4%, whichever is the higher, adjusted quarterly. The interest rate to be credited to the CPF Retirement Account (“**RA**”) is the weighted average interest rate of the entire portfolio of Special Singapore Government Securities (SSGS), in which the RA savings are invested in, which earn a fixed coupon equal to either the 12-month average yield of the 10YSGS plus 1% at the point of issuance or 4%, whichever is the higher, adjusted yearly. As announced by the CPF Board, the Singapore government will maintain the 4% per annum floor rate until 31 December 2021 for interest earned on the SMA and the RA. Thereafter, the 2.5% per annum legislated minimum interest rate, as prescribed by the CPF Act, will apply to the SMA and RA.

In addition, the CPF Board pays an extra 1% per annum interest on the first S\$60,000 of a CPF member’s combined balances, including up to S\$20,000 in the CPF Ordinary Account. The first S\$20,000 in the CPF Ordinary Account and the first S\$40,000 in the CPF Special Account cannot be invested under the CPFIS.

Further, the CPF Board pays an additional extra interest rate of 1% per annum on the first \$30,000 of the combined balances of CPF members who are aged 55 and above. This is paid over and above the extra 1% that is earned on the first \$60,000 of their combined interest. As a result, CPF members aged 55 and above will earn up to 6% interest per year on their retirement balances.

You should note that the applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.

Subscriptions using CPF monies shall at all times be subject to the regulations and such directives or requirements imposed by the CPF Board from time to time.

Should any underlying collective investment scheme be managed by us, all or part of the subscription fee, realisation fee, management fee and performance fee may be either waived or rebated back to the Sub-Fund, at our discretion.

The fees and charges payable by the Holders and the Sub-Fund may be raised from the current rate to a higher rate, but always subject to the maximum rate, by us upon giving at least one month's written notice to the Trustee and the Holders.

As required by the Code, all marketing, promotional and advertising expenses in relation to the Sub-Fund will be borne by us and will not be charged to the deposited property of the Sub-Fund. (iii)	Management fee	Generally ranging from 0% to 1.75% p.a.
(iv)	Other fees** (which may include trustee/custodian fee, legal fees, audit fees and administrative costs)	Generally less than 5% p.a.

[^] The preliminary charge (if any) will be payable by Holders to us or to appointed distributors or will be shared between us and appointed distributors depending on the arrangement between us and the relevant appointed distributors. Additional fees may be imposed and payable to appointed distributors that are in addition to the maximum preliminary charge disclosed above, depending on the specific nature of services provided by the appointed distributor.

* In the case of a switch of Units to units of a New Fund, the switching fees referred to relate to the preliminary charge imposed by us for investment into the New Fund. Such switching fee which may be up to 1% would, in the case of a New Fund which normally imposes a preliminary

charge of more than 1%, effectively translate to a discount of the preliminary charge of the New Fund. Currently, no switching fee is charged for a switch of Units to units in a money market fund managed by us or switching between the Classes in the Sub-Fund which are denominated in the same currency.

** The Sub-Fund may invest in REITs which may be listed on a securities exchange. Fees payable by investors in such REITs may also include, without limitation, other fees such as property management and lease management fees, acquisition fees, divestment fees, and commissions (which may consist of underwriting and selling commissions payable to the underwriters of the REIT).

Actual fees incurred by the Sub-Fund as a result of its investment in each of such collective investment scheme or REIT may be higher or lower than the estimates above.

Should any underlying collective investment scheme be managed by us, all or part of the subscription fee, realisation fee, management fee and performance fee may be either waived or rebated back to the Sub-Fund, at our discretion.

The fees and charges payable by the Holders and the Sub-Fund may be raised from the current rate to a higher rate, but always subject to the maximum rate, by us upon giving at least one month's written notice to the Trustee and the Holders.

As required by the Code, all marketing, promotional and advertising expenses in relation to the Sub-Fund will be borne by us and will not be charged to the deposited property of the Sub-Fund. Such expenses shall exclude those for the preparation, printing, lodgement and distribution of prospectuses or product highlights sheets.

11. RISKS

11.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Sub-Funds. Generally, some of the risk factors that should be considered by you are market, derivatives, liquidity, political, repatriation, regulatory, currency and risks associated with investments in smaller companies and in debt securities which are default and interest rate risks.

An investment in the Sub-Funds is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investment.

You should note that the value of Units, and the income accruing to the Units, may fall or rise and that you may not get back your original investment.

11.2 Specific risks of the LionGlobal Japan Growth Fund

11.2.1 Market Risks

The risks of investing and participating in securities quoted or listed in any Recognised Stock Exchange or OTC Market and unlisted securities in Japan apply. Prices of securities may go up or down in response to changes in economic conditions, interest rates, and the market's perception of securities. These may cause the price of Units in the Sub-Fund to go up or down as the price of Units in the Sub-Fund is based on the current market value of the investments of the Sub-Fund.

There are risks in investing in bonds and other fixed income securities. Bond prices may go up or down in response to interest rates with increases in interest rates leading to falling bond prices.

The market prices of bonds and other fixed income securities are also affected by credit risks, such as risk of default by issuers and liquidity risk.

11.2.2 Derivatives Risks

The Sub-Fund may, subject to applicable investment and borrowing guidelines in the Code and the Deed, from time to time invest in derivatives, which are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or

index for hedging purposes or for the purpose of efficient portfolio management. Such assets, rates and indices may include bonds, shares, interest rates, currency exchange rates, bond indices and stock indices.

While the judicious use of derivatives by professional investment managers can be beneficial, derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and leverage risk.

As the viability of exercising derivative instruments depends on the market price of the investments to which they relate, it may be the case that we may from time to time consider it not viable to exercise certain derivatives held by the Sub-Fund within the prescribed period, in which case any costs incurred in obtaining the derivatives will not be recoverable. There is also the risk that the market price of the relevant investment will not exceed the exercise price attached to the derivative instruments at any time during the exercise period or at the time at which the warrants or options are exercised and this may result in an immediate loss to the Sub-Fund.

Please refer to Paragraph 22.5.4 of this Prospectus on the risks associated with the use of Financial Derivative Instruments.

11.2.3 Political Risks

The political situation in the countries may have an effect on the value of the securities of companies in whose securities the Sub-Fund has invested, which may in turn impact on the value of the Units in the Sub-Fund.

11.2.4 Currency Risks

As the investments of the Sub-Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Sub-Fund may affect the value of the Units in the Sub-Fund.

We may from time to time employ currency hedging techniques to manage the impact of the exchange rate fluctuations on the Sub-Fund and/or for the purpose of efficient portfolio management. If we intend to hedge foreign currency risks, we will adopt an active currency management approach for the Sub-Fund (except in relation to the Hedged Class Units).

11.2.5 Risks associated with investments in smaller companies

Although smaller companies present more potential for growth, investing in smaller companies may present greater risk in comparison to investing in larger companies, for example, higher stock price volatility due to lower trading volume and a narrow range of investors. We will attempt to minimise the risks through a diversified portfolio.

11.2.6 Risks associated with investments in debt securities

(i) Default Risks

Investments in debt securities are subject to adverse changes in the financial condition of the issuer, or in general economic conditions, or both, or an unanticipated rise in interest rates, which may impair the ability of the issuer to make payments of interest and principal, especially if the issuer is highly leveraged. Such issuer's ability to meet its debt obligations may also be adversely affected by specific corporate developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. Also, an economic downturn or an increase in interest rates may increase the potential for default by the issuers of these securities.

(ii) Interest-rate Risks

Investments in debt securities are also subject to the risk of interest-rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.

11.3 Specific risks of the LionGlobal RMB Equity Fund

11.3.1 Tax Risk

Investing in the Sub-Fund may have tax implications for a Holder depending on the particular circumstances of the Holder. You are strongly urged to consult your own tax advisers and counsel with respect to the possible tax consequences to you of an investment in the Units.

By investing in securities (including shares and debt instruments) issued by PRC tax resident enterprises, irrespective of whether such securities are issued or distributed onshore or offshore, the Sub-Fund may be subject to PRC taxes.

Subject to any period of waiver granted by the PRC government in relation to capital gains tax, we may set aside an amount of 10% of the gains to provision for any capital gains tax which may be imposed in PRC in relation to LionGlobal RMB Equity Fund.

11.3.2 Foreign Securities Risk

The investments of the Sub-Fund may be affected by political instability as well as exchange controls, changes in taxation, foreign investment policies and other restrictions and controls which may be imposed by the relevant authorities in the other countries. Fluctuations in foreign exchange rates may have an impact on the outcome of the Sub-Fund's performance and may affect the value of Units.

11.3.3 Concentration Risks

The concentration of the Sub-Fund's investments in the PRC may result in greater volatility than a fund having a more diverse portfolio of investments.

11.3.4 Currency Risks

RMB is not freely convertible and is subject to exchange control. There is no guarantee that RMB will not depreciate. Movement in the relevant exchange rates may adversely affect the Sub-Fund's performance.

As the investments of the Sub-Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Sub-Fund may affect the value of the Units in the Sub-Fund.

We may from time to time employ currency hedging techniques to manage the impact of the exchange rate fluctuations on the Sub-Fund and/or for the purpose of efficient portfolio management. If we intend to hedge foreign currency risks, we will adopt an active currency management approach for the Sub-Fund (except in relation to the Hedged Class Units).

The hedging employed for the Hedged Class Units will be via offshore RMB, as a proxy to the onshore RMB.

As some Units of the Sub-Fund are not denominated in Singapore dollars, currency exchange rate movements are likely to affect the returns to investors in Singapore, and such investors may be exposed to exchange rate risks.

11.3.5 Risks regarding RQFII status

You should note that our RQFII status may be suspended or revoked and that this may adversely affect the Sub-Fund's performance by requiring the Sub-Fund to dispose of its securities holdings.

You should note that there can be no assurance that we will continue to maintain our RQFII status. You should also note that redemption requests may not be processed in a timely manner due to adverse changes in relevant laws or regulations. In extreme circumstances, the Sub-Fund may incur significant losses due to its limited investment capabilities, or its inability to fully implement or pursue its investment objective or strategy, due to RQFII investment restrictions, the illiquidity of the Chinese domestic securities market, and/or delay or disruption in the execution of trades or in the settlement of trades.

The rules and restrictions under RQFII regulations generally apply to us (in our capacity as a RQFII) as a whole and not simply to the investments made by the Sub-Fund. Relevant PRC regulators are vested with the power to impose regulatory sanctions if the RQFII or the RQFII custodian violates any provision of the applicable RQFII rules and regulations. Any violations could result in the revocation of the RQFII's licence or other regulatory sanctions and may adversely impact the investment by the Sub-Fund.

11.3.6 Repatriation and liquidity risks

In addition, certain restrictions imposed by the Chinese government on RQFIIs may have an adverse effect on the Sub-Fund's liquidity and performance. The People's Bank of China and the SAFE¹⁰ regulate and monitor the repatriation of funds out of the PRC by RQFIIs pursuant to the RQFII rules. No lock-up period is imposed on the capital remitted by the Sub-Fund. Repatriations by RQFIIs in respect of the Sub-Fund conducted in RMB are currently not subject to repatriation restrictions or prior approval, although authenticity and compliance reviews will be conducted, and monthly reports on remittances and repatriations will be submitted to SAFE by the RQFII custodian. The repatriation process may be subject to certain requirements set out in the relevant regulations such as submission of certain documents, and completion of the repatriation process may be subject to delay. There is no assurance, however, that the PRC rules and regulations will not change or that repatriation restrictions will not be imposed in the future. Any restrictions on repatriation of the invested capital and net profits may impact the Sub-Fund's ability to meet redemption requests from Holders. Furthermore, as the RQFII Custodian's review on authenticity and compliance is conducted on each repatriation, the repatriation may be delayed or even rejected by the RQFII Custodian in case of non-compliance with the RQFII rules and regulations. In such case, it is expected that redemption proceeds will be paid to the redeeming Holder as soon as practicable and after the completion of the repatriation of funds concerned. It should be noted that the actual time required for the completion of the relevant repatriation will be beyond our control.

You should note that the laws and rules relating to RQFII in paragraphs 11.3.5 and 11.3.6 may be amended, modified, and/or supplemented from time to time by the Chinese government.

11.3.7 Market and Interest Rate Risk

The investments by the Sub-Fund are subject to market risks. Investments in debt securities are also subject to interest-rate risks and default risks by the issuers. A rise in overall interest rates can lead to a decline in bond prices. Conversely, a decline in interest rates can lead to an increase in bond prices. There can be no assurance that the Sub-Fund's investment objective will be realised.

You should also carefully consider the usual risks of investing and participating in unlisted securities. Prices of securities may go up or down in response to changes in the economic conditions, the interest rates, and the market's perception of securities of the relevant country. These may cause the prices of Units to go up or down as the prices of Units are based on the current market value of the investments of the Sub-Fund.

¹⁰ "SAFE" means the State Administration of Foreign Exchange of the PRC.

11.3.8 Liquidity Risk

The extent of market liquidity would be dependent on the size of the market and therefore affect the Sub-Fund's ability to acquire or dispose of assets at the price and time desired. There may be state regulations governing the outward remittance by foreign investors of their share of net profits and dividends and repatriation of their investments in foreign currency.

11.3.9 Emerging Markets Risk

The Sub-Fund may invest in emerging markets securities which are in general more volatile than those of developed countries, with the result that the Units may be subject to greater price volatility.

Some emerging markets do not have well-developed or consolidated bodies of securities laws and regulatory frameworks. There may be less public information on companies listed on such markets as compared to other stock markets. The auditing and financial reporting methods used in some emerging markets may differ from internationally recognised standards, and information on the accounts of some companies listed on such markets may not be an accurate reflection of their financial strength.

You should also note that trading volume in emerging markets may be substantially less than in the world's leading stock markets and trading may have to be conducted at unfavourable prices. Securities of companies domiciled in emerging markets are less liquid and more volatile than those domiciled in more developed stock markets and this may result in fluctuations in the price of the Units. Emerging markets may not have fully developed custodian and settlement services and therefore investments in such markets are subject to a greater degree of risk.

11.3.10 PRC Market Risk

Investing in the securities markets in the PRC is subject to the risks of investing in emerging markets generally and the risks specific to the PRC market. For many years, the central government of the PRC has adopted a planned economic system. Since 1978, the PRC government has implemented economic reform measures which emphasise decentralisation and the utilisation of market forces in the development of the PRC economy. Such reforms have resulted in significant economic growth and social progress.

Many of the PRC economic reforms are unprecedented or experimental and are subject to adjustment and modification, and such adjustment and modification may not always have a positive effect on investments in listed securities.

The national regulatory and legal framework for capital markets and joint stock companies in the PRC is still developing as compared to those of developed countries.

PRC companies are required to follow PRC accounting standards and practice which, to a certain extent, follow international accounting standards. However, there may be significant differences between financial statements prepared by accountants following PRC accounting standards and practice and those prepared in accordance with international accounting standards.

Investments in the PRC will be sensitive to any significant change in political, social or economic policy in the PRC. Such sensitivity may, for the reasons specified above, adversely affect the capital growth and thus the performance of these investments.

11.3.11 Country Specific Risks

The Sub-Fund may invest in securities of a limited number of countries. Where the Sub-Fund invest in a few selected countries, it will be exposed to fluctuations in the economies of these countries, and the market, currency, political, social environment and other risks related specifically to these countries, which may affect the market price of its investments

in these countries. Exposure to a limited number of countries also increases the potential volatility of the Sub-Fund due to the increased concentration risk as it is less diversified compared to exposure to specific regional or global markets.

11.3.12 Sole Broker / Counterparty Risk

While we will endeavour to take all reasonable steps to obtain the best possible result for each transaction entered into by the Sub-Fund, there may be circumstances requiring transactions to be executed through the use of a sole broker or counterparty which may not be consistent with best execution standards.

11.3.13 Derivatives Risks

The Sub-Fund may, subject to applicable investment and borrowing guidelines in the Code and the Deed, from time to time invest in derivatives, which are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index for hedging purposes and/or for the purpose of efficient portfolio management and/or for such other purposes that may be permitted by the MAS. Such assets, rates and indices may include bonds, shares, interest rates, currency exchange rates, bond indices and stock indices.

While the judicious use of derivatives by professional investment managers can be beneficial, derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and leverage risk.

As the viability of exercising derivative instruments depends on the market price of the investments to which they relate, it may be the case that we may from time to time consider it not viable to exercise certain derivatives held by the Sub-Fund within the prescribed period, in which case any costs incurred in obtaining the derivatives will not be recoverable. There is also the risk that the market price of the relevant investment will not exceed the exercise price attached to the derivative instruments at any time during the exercise period or at the time at which the warrants or options are exercised and this may result in an immediate loss to the Sub-Fund.

Please refer to Paragraph 22.5.4 of this Prospectus on the risks associated with the use of Financial Derivative Instruments.

11.3.14 Political Risks

The political situation in the countries may have an effect on the value of the securities of companies in whose securities the Sub-Fund has invested, which may in turn impact on the value of the Units in the Sub-Fund.

11.3.15 Risks associated with investments in smaller companies

Although smaller companies present more potential for growth, investing in smaller companies may present greater risk in comparison to investing in larger companies, for example, higher stock price volatility due to lower trading volume and a narrow range of investors. We will attempt to minimise the risks through a diversified portfolio.

11.4 Risks associated with investments in certain eligible China A-shares through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively, the “Stock Connect”) for the LionGlobal RMB Equity Fund

In order to achieve its investment objective, the Sub-Fund may invest in and have direct access to certain eligible China A-shares through the Stock Connect. Investments through the Stock Connect are subject to additional risks, including but not limited to, daily quota limitations, suspension risk, operational risk, restrictions on selling imposed by front-end monitoring, recalling of eligible stocks, clearing and settlement risks, nominee arrangements in holding China A-shares and regulatory risk.

(i) Daily quota limitations

The Stock Connect is subject to daily quota limitations on investments and may be adjusted in light of actual operational performance. Daily quota may restrict the Sub-Fund's ability to invest in China A-shares through the Stock Connect on a timely basis, and the Sub-Fund may not be able to effectively pursue its investment policy.

(ii) Suspension risk

The Stock Exchange of Hong Kong ("**SEHK**") and Shanghai Stock Exchange ("**SSE**") / Shenzhen Stock Exchange ("**SZSE**") (as the case may be) reserve the right to suspend trading if necessary for ensuring an orderly and fair market and managing risks prudently which could adversely affect the Sub-Fund's ability to access the Mainland China market.

(iii) Differences in trading day

The Stock Connect only operates on days when both the Mainland China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the Mainland China market but Hong Kong investors (such as the Sub-Fund) cannot carry out any China A-shares trading. The Sub-Fund may be subject to a risk of price fluctuations in China A-shares during the time when the Stock Connect is not trading as a result.

(iv) Restrictions on selling imposed by front-end monitoring

Mainland China regulations require that before an investor sells any share, there should be sufficient shares in the account; otherwise SSE / SZSE (as the case may be) will reject the sell order concerned. SEHK will carry out pre-trade checking on China A-shares sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling.

(v) Recalling of eligible stocks

When a stock is recalled from the scope of eligible stocks for trading via the Stock Connect, the stock can only be sold but is restricted from being bought. This may affect the investment portfolio or strategy of the Sub-Fund, for example, when the Sub-Fund wishes to purchase a stock which is recalled from the scope of eligible stocks.

(vi) Foreign shareholding restrictions and forced-sale arrangement

The China Securities Regulatory Commission ("**CSRC**") stipulates that, when holding China A-Shares, Hong Kong and overseas investors are subject to the following shareholding restrictions:

- shares held by a single foreign investor (such as the Sub-Fund) is not allowed to exceed 10% of the company's total issued shares; and
- total China A-Shares held by all foreign investors (i.e. all Hong Kong and overseas investors) in a listed company is not allowed to exceed 30% of its total issued shares.

When Hong Kong and overseas investors carry out strategic investments in listed companies in accordance with the rules, the shareholding of the strategic investments is not capped by the above-mentioned percentages.

Should the shareholding of the Sub-Fund in a China A-Share listed company exceed the above restriction, the Sub-Fund may be required to unwind its position on the excessive shareholding within 5 trading days for Northbound Trading, otherwise SEHK participants shall apply the forced-sale arrangement on the Sub-Fund.

As there are limits on the total shares held by all Hong Kong and overseas investors in a listed company in Mainland China, the capacity of the Sub-Fund to make investments in China A-Shares will be affected by the activities of all Hong Kong and overseas investors investing through the Stock Connect or any other permissible ways to obtain China A-Shares investment exposures. If the aggregate foreign shareholding limit is exceeded, SSE / SZSE

will notify SEHK the number of shares that are subject to forced sale within 5 trading days for Northbound Trading. On a last-in-first-out basis, SEHK will identify the relevant trades involved and request the relevant SEHK participants to require the Hong Kong and overseas investors concerned to sell the shares within the timeframe as stipulated by SEHK. If the relevant investors fail to sell the shares before the stipulated deadline, SEHK participants will be required to force-sell the shares for the relevant investors (such as the Sub-Fund).

SSE / SZSE (as the case may be) will publish a notice if the percentage of total foreign shareholding in a listed company reaches 26% and the buy orders are not allowed for the related China A-Shares if the aggregate foreign shareholding reaches 28%.

(vii) Clearing, settlement and custody risks

The Hong Kong Securities Clearing Company Limited (“**HKSCC**”), a wholly-owned subsidiary of Hong Kong Exchanges and Clearing Limited (“**HKEx**”) and China Securities Depository and Clearing Corporation Limited (“**ChinaClear**”) establish the clearing links and each is a participant of the other to facilitate clearing and settlement of cross-boundary trades. As the national central counterparty of the Mainland China’s securities market, ChinaClear operates a comprehensive network of clearing, settlement and stock holding infrastructure. ChinaClear has established a risk management framework and measures that are approved and supervised by the CSRC. The chances of ChinaClear default are considered to be remote.

Should the remote event of ChinaClear default occur and ChinaClear be declared as a defaulter, HKSCC will in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear’s liquidation. In that event, the Sub-Fund may suffer delay in the recovery process or may not be able to fully recover their losses from ChinaClear.

(viii) Operational risk

The Stock Connect provides new channels for investors from Hong Kong and overseas, such as the Sub-Fund, to access the Mainland China stock market directly. The Stock Connect is premised on the functioning of the operational systems of the relevant market participants. Market participants are able to participate in this program subject to meeting certain information technology capability, risk management and other requirements as may be specified by the relevant exchange and/or clearing house.

It should be appreciated that the securities regimes and legal systems of the two markets differ significantly and in order for the program to operate, market participants may need to address issues arising from the differences on an on-going basis.

Further, the “connectivity” in the Stock Connect program requires routing of orders across the border. This requires the development of new information technology systems on the part of the SEHK and exchange participants (i.e. new order routing systems (“**China Stock Connect System**”) to be set up by SEHK to which exchange participants need to connect). There is no assurance that the systems of the SEHK and market participants will function properly or will continue to be adapted to changes and developments in both markets. In the event that the relevant systems failed to function properly, trading in both markets through the program could be disrupted. The Sub-Fund’s ability to access the China A-share market (and hence to pursue their investment strategy) will be adversely affected.

(ix) Nominee arrangements in holding China A-shares

HKSCC is the “nominee holder” of the SSE securities / SZSE securities (as the case may be) acquired by overseas investors (including the Sub-Fund) through the Stock Connect. The CSRC Stock Connect rules expressly provide that investors such as the Sub-Fund enjoy the rights and benefits of the SSE securities acquired through the Stock Connect in accordance with applicable laws. The CSRC has clarified and restated in Frequently Asked Questions published on 30 September 2016 that (i) the concept of nominee shareholding is recognised in Mainland China, (ii) overseas investors shall hold SSE securities / SZSE securities (as the case may be) through HKSCC and are entitled to proprietary interests in such securities as shareholders, (iii) Mainland China law does not expressly provide for a beneficial owner

under the nominee holding structure to bring legal proceedings, nor does it prohibit a beneficial owner from doing so, (iv) as long as certification of holding issued by HKSCC and its participants is treated as lawful proof of a beneficial owner's holding of SSE securities / SZSE securities (as the case may be) under the Hong Kong Special Administrative Region law, it would be fully respected by CSRC and (v) as long as an overseas investor can provide evidential proof of direct interest as a beneficial owner, the investor may take legal actions in its own name in Mainland China courts.

Under the rules of the Central Clearing and Settlement System (“**CCASS**”) operated by HKSCC for the clearing of securities listed or traded on SEHK, HKSCC as nominee holder shall have no obligation to take any legal action or court proceeding to enforce any rights on behalf of the investors in respect of the SSE securities / SZSE securities (as the case may be) in Mainland China or elsewhere. Therefore, although the Sub-Fund's ownership may be ultimately recognised, the Sub-Fund may suffer difficulties or delays in enforcing their rights in China A-shares. Moreover, whether Mainland China courts will accept the legal action independently initiated by the overseas investor with the certification of holding in SSE securities / SZSE securities (as the case may be) issued by HKSCC and its participants has yet to be tested.

(x) Participation in corporate actions

HKSCC will keep CCASS participants informed of the corporate actions of SSE securities / SZSE securities (as the case may be), in particular those that require CCASS participants / investors to take actions. Hong Kong and overseas investors (such as the Sub-Fund) should note and comply with the arrangement and deadline specified by their respective brokers or custodians (i.e. CCASS participants) in order to participate in the corporate actions relating to their SSE securities / SZSE securities (as the case may be). The time for the Sub-Fund to take actions for some types of corporate actions of SSE securities / SZSE securities (as the case may be) may be very short. Therefore, the Sub-Fund may not be able to participate in some corporate actions in a timely manner.

(xi) Investor compensation

Investments of the Sub-Fund through Northbound trading under the Stock Connect will not be covered by Hong Kong's Investor Compensation Fund. Hong Kong's Investor Compensation Fund is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong.

Since default matters in Northbound trading via the Stock Connect do not involve products listed or traded in SEHK or Hong Kong Futures Exchange Limited, they will not be covered by the Investor Compensation Fund. Therefore, the Sub-Fund is exposed to the risk of default of the broker(s) it engages in its trading in China A-Shares through the Stock Connect. On the other hand, since the Sub-Fund is carrying out Northbound trading through securities brokers in Hong Kong but not Mainland China brokers, therefore the Sub-Fund is not protected by the China Securities Investor Protection Fund in Mainland China.

(xii) Trading costs

In addition to paying trading fees and stamp duties in connection with China A-shares trading, the Sub-Fund may be subject to new portfolio fees, dividend tax and tax concerned with income arising from stock transfers which are yet to be determined by the relevant authorities.

(xiii) Regulatory risk

The CSRC Stock Connect rules are departmental regulations having legal effect in Mainland China. However, the application of such rules is untested, and it is uncertain how the Mainland China courts will apply such rules, e.g. in liquidation proceedings of Mainland China companies.

The Stock Connect is novel in nature, and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in Mainland China and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that the Stock Connect will not be abolished. The Sub-Fund which may invest in the Mainland China markets through the Stock Connect may be adversely affected as a result of such changes.

The above should not be considered to be an exhaustive list of the risks which you should consider before investing in the Sub-Funds. You should be aware that an investment in the Sub-Funds may be exposed to other risks of an exceptional nature from time to time.

12.3 Initial Issue Price and Initial Offer Period

LionGlobal RMB Equity Fund

The initial issue price of the RMB Class, USD Class and SGD Class is RMB5.000, USD1.000 and SGD1.000 during the initial offer period when the relevant Class is available for subscription.

The initial offer period will commence within 6 months from the date of registration of this Prospectus for a period of up to 60 days, or such longer period as may be agreed between us and the Trustee ("**Initial Offer Period**").

We reserve the right not to proceed with the launch of the LionGlobal RMB Equity Fund if:

- (i) the combined capital raised for such Sub-Fund as at the close of its Initial Offer Period is less than RMB100 million or its equivalent; or

- (ii) we are of the view that it is not in your interest or it is not commercially viable to proceed with such Sub-Fund.

In such event, the Sub-Fund shall be deemed to not have commenced and we may notify you and return the application monies received (without interest) to you no later than 14 days after the close of the Initial Offer Period (or such other period as we may determine). Any bank charges incurred in relation to the above will be borne by you.

We may choose to close any Sub-Fund or any Class thereof to further subscriptions before the end of the initial offer period if it reaches such total subscription amount as we may determine at our sole discretion.

12.4 Dealing deadline and pricing basis

12.4.1 Dealing deadline

As Units are issued on a forward pricing basis, the issue price of Units shall not be ascertainable at the time of application. In buying Units, you pay a fixed amount of money e.g., \$1,000 and you will get the number of Units (including fractions of Units truncated but not rounded off to the nearest 2 decimal places) obtained from dividing \$1,000 (after deducting the relevant preliminary charge and applicable Duties and charges¹¹) by the issue price when it has been ascertained later.

The dealing deadline is 3 p.m. Singapore time (the “**Dealing Deadline**”) on each Dealing Day. Units in respect of applications received and accepted by us before the Dealing Deadline will be issued at that Dealing Day’s issue price calculated in accordance with Clause 12(B) of the Deed.

Applications received after the Dealing Deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

12.4.2 Pricing basis

The issue price per Unit of each Sub-Fund applicable to any Dealing Day shall be ascertained by:

- (i) calculating the net asset value per Unit of such Sub-Fund as at the Valuation Point¹² in respect of the Dealing Day on which such issue occurs as provided for in Clause 11 of the Deed; and
- (ii) adjusting such figure downwards to three decimal places (or such other number of decimal places or any method of rounding as we may from time to time determine with the approval of the Trustee).

The preliminary charge shall be retained by us and the amount of any adjustment shall be retained by such Sub-Fund.

The issue price of Units will vary from day to day in line with the net asset value of each Sub-Fund (calculated in accordance with the Deed).

- 12.4.3** We may, subject to the prior approval of the Trustee, change the method of determining the issue price as provided in Deed, and the Trustee shall determine if the Holders should be informed of such change.

¹¹ “**Duties and charges**” is defined in the Deed to mean all stamp and other duties, taxes, governmental charges, brokerage, bank charges, transfer fees, registration fees and other duties and charges whether in connection with the constitution of the deposited property of the Sub-Fund or the increase of the deposited property of the Sub-Fund or the creation, issue, sale, exchange or purchase of Units or the sale or purchase of Authorised Investments or otherwise which may have become or may be payable in respect of or prior to or upon the occasion of the transaction or dealing in respect of which such duties and charges are payable but does not include commissions payable to agents on sales and repurchases of Units in the Sub-Fund.

¹² “**Valuation Point**” is defined in the Deed to mean the close of the last relevant market on a Dealing Day or such other time as we with the prior approval of the Trustee may from time to time determine and we shall notify the Holders of such change if required by the Trustee.

14.3 Dealing deadline and pricing basis

14.3.1 As Units are realised on a forward pricing basis, the realisation price of Units is not ascertainable at the time of realisation.

Units in respect of realisation forms received and accepted by us by the Dealing Deadline on each Dealing Day shall be realised at that Dealing Day's realisation price. Realisation forms received after the Dealing Deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

14.3.2 The realisation price applicable to any Dealing Day shall be the price per Unit of each Sub-Fund ascertained by:

- (i) calculating the net asset value per Unit of each Sub-Fund as at the Valuation Point in respect of the Dealing Day on which the realisation form is received as provided for in Clause 15(E) of the Deed or, if the realisation of Units is suspended pursuant to Clause 15(E)(ii) of the Deed, in respect of the Dealing Day immediately following the cessation of such suspension; and

14.4 Numerical example of how the amount paid to you is calculated, based on the sale of 1,000.00 Units in the Sub-Fund at a notional realisation price of \$1.000*:-

1,000.00 Units x \$1.000* = \$1,000.00* - \$0* = \$1,000.00* - \$0* = \$1,000.00*						
No. of Units realised	Notional Realisation price (= net asset value per Unit)	Gross realisation proceeds	Duties and charges (currently 0%)	Realisation proceeds after Duties and charges	Realisation charge (currently 0%)	Net realisation proceeds

** In Singapore Dollars or US Dollars or JPY or RMB, as the case may be. Notional realisation price is used for illustrative purposes and actual realisation price may vary. No Realisation Charge is currently imposed.*

We may with the approval of the Trustee, elect that the realisation price per Unit of each Sub-Fund shall be the price per Unit of the Sub-Fund that better reflects a fair value for the Sub-Fund's deposited property having taken into account the necessity of selling a material proportion of the Authorised Investments as at the time constituting part of the deposited property of such Sub-Fund.

14.5 Payment of realisation proceeds

Realisation proceeds for all the Sub-Funds shall be paid within 7 Business Days (or such other period as may be permitted by the MAS) following the receipt and acceptance of the realisation form by us unless the realisation of Units has been suspended in accordance with Paragraph 17 of this Prospectus.

If you are a resident outside Singapore, we shall be entitled to deduct from the total amount (which would otherwise be payable on the purchase from you) an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if you had been resident in Singapore.

Any applicable bank and related charges incurred in the payment of realisation proceeds shall also be borne by you.

14.6 Realisation of Units by us

We may compulsorily realise your holding of Units in certain circumstances. Please see Paragraph 22.9 for further details.

15. SWITCHING OF UNITS

We may at our discretion and on such terms and conditions as we may impose, permit each Holder of Units of any of the Sub-Funds (the “**original Fund**”) from time to time to switch all or any of the Units of the original Fund held by him into units of a New Fund or to another Class of Units within the Sub-Fund (the “**New Class**”). Any switching shall be effected by way of realisation of Units in the original Fund and by issuance of units in the New Fund or the New Class (as the case may be) subject to the terms of the relevant trust deed upon the receipt of cleared funds.

No switching of Units may be made which would result in the relevant Holder holding in respect of either the original Fund, the New Fund or the New Class (as the case may be), fewer units than the relevant minimum holding of such funds or class (as the case may be). If the number of units of the New Fund or New Class (as the case may be) so produced shall include any fraction of more than two decimal places, such fraction shall be ignored and any moneys arising from such fraction shall be forfeited and retained as part of the New Fund or in the case of the New Class, within the Sub-Fund.

Units of the original Fund purchased with cash or SRS monies or CPF monies may only be switched to units of the New Fund or New Class purchased with cash or SRS monies or CPF monies respectively.

Switching shall only be permitted between the same currency of units between the original Fund and the New Fund or the New Class (as the case may be), unless otherwise permitted by us at our absolute discretion. Switching shall only be permitted between the same Class of Units between the original Fund and the New Fund unless otherwise permitted by us at our absolute discretion. For avoidance of doubt, Class A Units may not be switched into Class L Units or vice-versa. An application to switch may be made by a Holder giving to us such application form as we may from time to time require. Such switching request shall not be revocable without our consent.

No Units shall be switched during any period when the right of Holders to require the realisation of Units is suspended according to Paragraph 17 of this Prospectus or on any Dealing Day on which the number of Units of the original Fund that can be realised is limited according to Paragraph 14.1 of this Prospectus.

16. OBTAINING PRICES OF UNITS

The Sub-Funds will be valued on each Dealing Day. The indicative prices of all the Classes of Units are quoted on a forward pricing basis and will likely be available 2 Business Days in Singapore after each relevant Dealing Day (subject to the publication policies of the relevant publisher). The prices will be published on our website at www.lionglobalinvestors.com. The prices may also be published in The Straits Times, The Business Times and selected major wire services or such other sources as we may decide upon.

The issue price and realisation price in respect of any Class will be the net asset value per Unit of such Class computed in accordance with Paragraphs 12 and 14.

You should note that, other than in respect of our publications, we do not accept any responsibility for any errors on the part of the relevant publisher in the prices published in the newspapers and wire services mentioned above, or for any non-publication or late publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by you in reliance upon such publications.

17. SUSPENSION OF DEALINGS

17.1 We may, subject to the provisions of the Code and with the prior written approval of the Trustee, suspend the issue or realisation of Units in relation to the Sub-Funds or of the Fund during:

 - 17.1.3** any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments or the current price on that Recognised Stock Exchange or that OTC Market or when for any reason the prices of any of such Authorised Investments cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
 - 17.1.4** any period when remittance of money which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments cannot, in our opinion, be carried out at normal rates of exchange;
 - 17.1.5** any 48-hour period (or such longer period as we and the Trustee may agree) prior to the date of any meeting of Holders (or any adjourned meeting thereof);
 - 17.1.6** any period where dealing of Units is suspended pursuant to any order or direction of the MAS; or
 - 17.1.7** any period when our business operations or the business operations of the Trustee in relation to the operation of any Sub-Fund or the Fund is substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes or acts of God; or
 - 17.1.8** any period as may be required under the provisions of the Code.
- 17.2** Subject to the provisions of the Code, such suspension shall take effect upon the declaration in writing thereof by us to the Trustee and the MAS (or, as the case may be, by the Trustee to us and the MAS) and shall terminate on the day following the first Business Day on which the condition giving rise to the suspension shall have ceased to exist and no other conditions under which suspension is authorised under this Paragraph 17 shall exist upon the declaration in writing thereof by us (or, as the case may be, by the Trustee).

The soft-dollar commissions/arrangements which we may receive or enter into include specific advice as to the advisability of dealing in or as to the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for our clients.

19.2 Soft-dollar commissions received shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

19.3 We will not accept or enter into soft-dollar commissions/arrangements unless such soft-dollar commissions/arrangements would reasonably assist us in our management of the Sub-Funds, provided that we shall ensure at all times that best execution is carried out for the transactions and that no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

¹⁵ The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "IMAS Guidelines") and based on figures in the Fund's latest audited accounts. The following expenses (where applicable), and such other expenses as may be set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:

- (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- (b) interest expense;
- (c) foreign exchange gains and losses of the Sub-Fund, whether realised or unrealised;
- (d) front-end loads, back-end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund;
- (e) tax deducted at source or arising on income received, including withholding tax; and
- (f) dividends and other distributions paid to Holders.

¹⁶ The turnover ratio of each Sub-Fund is calculated based on the lesser of purchases or sales of underlying investments of the relevant Sub-Fund expressed as a percentage of daily average net asset value of the relevant Sub-Fund.

20. CONFLICTS OF INTEREST

We and the Trustee are not in any positions of conflict in relation to the Sub-Funds. We and the Trustee shall conduct all transactions with or for the Sub-Funds at arm's length. We are of the view that we are not in a position of conflict in managing our other unit trust funds and the Sub-Funds as each of the funds and the Sub-Funds has its own investment universe, investment objectives and investment restrictions, separate and distinct from each of the other funds. We are obligated by the provisions of each respective trust deed to observe strictly such separate and distinct investment mandate for each of the funds. If the various funds place orders for the same securities as the Sub-Funds, we shall try as far as possible to allocate such securities among the funds in a fair manner based on a proportionate basis.

Our affiliates or the Trustee's affiliates are or may be involved in other financial, investment and professional activities which may sometimes give rise to possible conflict of interest with the management of the Fund. We and the Trustee will each ensure that the performance of our respective duties will not be impaired by any such involvement. If a conflict of interest does arise, we and the Trustee will try to ensure that it is resolved fairly and in the interest of the Holders.

Associates of the Trustee may be engaged to provide financial, banking or brokerage services to the Sub-Funds or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee and make profits from these activities. Our associates may also be engaged to provide financial, banking or brokerage services to the Sub-Funds and make profits from these activities. Such services, where provided, and such activities, where entered into, by our associates or the associates of the Trustee, will be on an arm's length basis.

21. REPORTS

Financial year-end and distribution of reports and accounts

The financial year-end for the Fund is 31 December. We will prepare and send the annual report, annual accounts, and the Auditors' report on the annual accounts to the Holders (whether by post or such electronic means as may be permitted under the Code) within three (3) months of the financial year-end (or such other period as may be permitted by the MAS). We will prepare and send the semi-annual accounts and the semi-annual report to the Holders (whether by post or such electronic means as may be permitted under the Code) within two (2) months of the financial half-year end, i.e. 30 June (or such other period as may be permitted by the MAS). In cases where the accounts and reports are available in electronic form, Holders will receive a hardcopy letter or an email (where email addresses have been provided for correspondence purposes) informing them that the accounts and reports are available and how they may be accessed. Holders may also request for hardcopies of the accounts and reports within 1 month (or such other period as may be permitted by the MAS) from the notification of the availability of the accounts and reports. The Trustee will also make available, or cause to be made available, hardcopies of the accounts and reports to any Holder who requests for them within 2 weeks of any request from such Holder (or such other period as may be permitted by the MAS). Holders may also at any time opt for hardcopies for all future reports and accounts at no cost to them.

22. OTHER MATERIAL INFORMATION

22.1 Information on investments

At the end of each quarter, Holders will receive a statement showing the value of their investment, including any transactions during the quarter. However, if there is any transaction within a particular month, Holders will receive an additional statement for that month.

22.2 Distribution of income and capital

22.2.1 Distribution of income and/or net capital gains (to the extent permitted under the Deed) will be at our sole discretion. We will determine whether a distribution is to be made and the frequency and amount of distributions to be made. Sources of income for distribution include dividend and/or interest income and/or capital gains derived from the investments of the Sub-Funds (collectively, the "**Investment Income**"). We will decide whether a distribution is to be made based on various factors, including the Investment Income. Any distributions made will reduce the net asset value of the Sub-Funds. Distribution (if any) will

only be made for the distribution class (Dist) of Units of the LionGlobal RMB Equity Fund. Currently, we intend to make distributions for such Classes on a semi-annual basis. No distributions are payable in respect of the accumulation class (Acc) of Units. A Holder may at any time make a request in writing to elect for the Distribution Reinvestment Mandate (as defined in the Deed) in relation to any distributions to be received by the Holder, subject to the right to withdraw such Distribution Reinvestment Mandate in accordance with the Deed. In the event a Holder does not have a Distribution Reinvestment Mandate in place, Paragraphs 22.2.2 to 22.2.5 would nonetheless apply.

22.2.2 Unless specifically instructed by a Holder in accordance with the Distribution Reinvestment Mandate withdrawal procedures described in the Deed, if the net amount of distributions to be received by a Holder is less than S\$50 ("**Small Distribution**"), the Holder shall be deemed to have given a Distribution Reinvestment Mandate for the automatic reinvestment of all of such Small Distributions to be received by the Holder in the purchase of further Units (including fractions of Units, if any) of the relevant Sub-Fund or Class of a Sub-Fund, subject to our discretion to pay out such distributions in cash ("**Small Distribution Reinvestment Mandate**"). Units will be purchased based on the net asset value of the Sub-Fund or Class of a Sub-Fund on the Dealing Day on or before the distribution is made.

22.2.3 Unless specifically instructed by a Holder in accordance with the Distribution Reinvestment Mandate withdrawal procedures described in the Deed, where a distribution payment has been made to a Holder via cheque and such cheque has expired (i.e. the cheque is not presented within six months of its date of issue or such other period as may be applicable from time to time under applicable laws, regulations, guidelines, rules or directives) ("**Cheque Distribution**"), the Holder shall be deemed to have given a Distribution Reinvestment Mandate for the automatic reinvestment of all of the Cheque Distribution in the purchase of further Units (including fractions of Units, if any) of the relevant Sub-Fund or Class of a Sub-Fund ("**Cheque Reinvestment Mandate**"). Units will be purchased based on the net asset value of the Sub-Fund or Class of a Sub-Fund on the third Dealing Day after the expiry date of the cheque.

22.2.4 In addition, a Holder is also deemed to have also given a new Distribution Reinvestment Mandate with effect on and from the same date a Holder is deemed to have given a Cheque Reinvestment Mandate. This is regardless whether the Holder had previously not elected, or had elected but subsequently withdrew his Distribution Reinvestment Mandate. Accordingly, all subsequent distributions of any amount (including Small Distributions) to be received by the Holder after the Cheque Reinvestment Mandate comes into effect shall, in accordance with the new Distribution Reinvestment Mandate deemed to be granted at the same time as the Cheque Reinvestment Mandate, be automatically reinvested in the purchase of further Units (including fractions of Units, if any) of the relevant Sub-Fund or Class of the Sub-Fund in accordance with Clause 19(E) of the Deed.

22.2.5 The Small Distribution Reinvestment Mandate and the Cheque Reinvestment Mandate will not apply to distributions payable into a Holder's CPF Investment Account or distributions payable in respect of Units subscribed using cash through any of our agents or distributors or using SRS monies.

22.2.5 Please refer to the Deed for more details.

22.3 Exemptions from liability

22.3.1 We and the Trustee shall incur no liability in respect of any action taken or thing suffered by us/it in reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganisation or other paper or document believed to be genuine and to have been passed, sealed or signed by the proper parties.

22.3.2 We and the Trustee shall incur no liability to the Holders or to any other person for doing or (as the case may be) failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant thereto, or of any decree, order or judgment of any court, or by reason of any request, announcement or similar action (whether of binding legal effect or not) which may be taken or made by any person or body acting with or purporting to exercise the authority of any government (whether legally or

otherwise) either we and/or the Trustee shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of the Deed neither we nor the Trustee shall be under any liability therefor or thereby.

22.3.3 Neither we nor the Trustee shall be responsible for any authenticity of any signature or of any seal affixed to any endorsement on any certificate or to any transfer or form of application, endorsement or other document affecting the title to or transmission of Units or be in any way liable for any forged or unauthorised signature on or any seal affixed to such endorsement, transfer or other document or for acting upon or giving effect to any such forged or unauthorised signature or seal. We and the Trustee shall nevertheless be entitled but not bound to require that the signature of any person to any document required to be signed by him under or in connection with the Deed shall be verified to our and/or the Trustee's reasonable satisfaction.

22.3.4 Notwithstanding anything contained in the Deed:

- (i) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any depository or clearing system with which Authorised Investments may be deposited or any broker, financial institution or other person with whom Authorised Investments are deposited in order to satisfy any margin requirement;
- (ii) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any nominee, custodian, joint custodian or sub-custodian appointed by the Trustee except where the Trustee has failed to exercise reasonable skill and care in the selection, appointment and monitoring of such appointee (having regard to the market in which the relevant appointee is located) or the Trustee is in wilful default; and
- (iii) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any sub-custodian not appointed by it.

22.3.5 The Trustee shall not be under any liability on account of anything done or suffered to be done by the Trustee in good faith in accordance with or in pursuance of any of our request or advice. Whenever pursuant to any provision of the Deed by certificate, notice, instruction or other communication is to be given by us to the Trustee, the Trustee may accept as sufficient evidence thereof a document signed or purporting to be signed on our behalf by any one person whose signature the Trustee is for the time being authorised by us under our common seal to accept and may act on verbal and telefacsimile instructions given by our authorised officers specified in writing by us to the Trustee.

22.3.6 Any indemnity expressly given to the Trustee or us in the Deed is in addition to and without prejudice to any indemnity allowed by law; Provided Nevertheless That any provision of the Deed shall be void insofar as it would have the effect of exempting it/us from or indemnifying it/us against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to it/us in respect of any negligence, default, breach of duty or trust of which it/we may be guilty in relation to its/our duties where it/we fail to show the degrees of diligence and care required of it/us having regard to the provisions of the Deed.

22.4 Investment restrictions

The investment guidelines for funds included under the CPFIS ("**CPFIS Included Funds**") issued by the CPF Board ("**CPF Investment Guidelines**"), and the investment and borrowing guidelines issued by the MAS under Appendix 1 and Annex 1A of the Code, which guidelines may be amended, restated, supplemented or replaced from time to time, shall apply to the LionGlobal Japan Growth Fund.

The investment and borrowing guidelines issued by the MAS under Appendix 1 and Annex 1A of the Code, which guidelines may be amended, restated, supplemented or replaced from time to time, shall apply to the LionGlobal RMB Equity Fund.

Subject to the provisions on securities lending and financial derivatives as set out in Appendix 1 of the Code and the CPF Investment Guidelines, we may engage in securities lending transactions and invest in derivatives. However, we currently do not intend to carry out securities lending or repurchase transactions in relation to the Sub-Funds but may do so in future.

In addition to complying with Appendix 1 of the Code and the CPF Investment Guidelines, we will not invest in any product or engage in any transaction which may cause the Units of the LionGlobal Japan Growth Fund not to be regarded as Excluded Investment Products under the Notice on the Sale of Investment Products and the Notice on Recommendations on Investment Products or prescribed capital markets products under the Securities and Futures (Capital Markets Products) Regulations 2018.

22.5 Financial Derivative Instruments

22.5.1 Use and types of Financial Derivative Instruments (“FDIs”)

The LionGlobal Japan Growth Fund may make use of the FDIs for the purposes of hedging and/or efficient portfolio management. The LionGlobal RMB Equity Fund may make use of the FDIs for the purposes of hedging and/or efficient portfolio management and/or for such other purposes that may be permitted by the MAS.

The FDIs which may be used by the Sub-Funds include, but are not limited to, options on securities, stock index options, forward currency contracts, currency futures, currency swap agreements, currency options, interest rate futures or options or interest rate swaps, financial or index futures, over-the-counter (“**OTC**”) options, credit default swaps, swaps, futures or options on any kind of financial instrument, provided that any FDI to be used by the Sub-Funds shall meet the relevant requirements relating to FDIs set out in the Code.

22.5.2 Exposure to FDIs

The global exposure of the Sub-Funds to FDIs or embedded FDIs will not exceed 100% of the net asset value of the Sub-Funds at any time.

We currently use the commitment approach as described in Appendix 1 of the Code to determine the Sub-Funds’ exposure to financial derivatives. In determining the Sub-Funds’ exposure to FDIs, we will adopt the calculation methods set out under paragraph 4.10 of Appendix 1 of the Code.

22.5.3 Risk management and compliance procedures

Risk Management Framework

(i) Portfolio Risk

Derivative instruments are highly volatile instruments and their market values may be subject to wide fluctuations and may subject the Sub-Funds to potential gains and losses. Where such instruments are used, we will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that we have the necessary experience to manage the risks relating to the use of these FDIs. We will attempt to minimise the risks through careful selection of reputable counterparties and constant monitoring of the Sub-Funds’ derivatives positions. Depending on the severity, non-compliance or deviation from established controls or limits will be escalated to senior management and monitored for rectification. We may modify the risk management and compliance procedures from time to time, where appropriate and in the interest of the Sub-Funds. We have a dedicated team which oversees portfolio risk management.

Additionally, all open positions/exposure in derivatives will be marked to market at a frequency at least equal to the frequency of the net asset value calculation of the Sub-Funds.

(ii) Compliance Risk

We have a structured Compliance Monitoring Program (“**CMP**”). There is a dedicated compliance team to implement the CMP. Our investment compliance team separately monitors the portfolios for compliance with the investment guidelines. Investment guidelines will be reviewed by the investment compliance team and checks will be programmed into our automated pre-trade compliance system as far as possible. In addition, guidelines which cannot be electronically monitored will be manually checked for compliance.

22.5.4 Risks associated with the use of FDIs

While the prudent use of FDIs can be beneficial, FDIs also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. The following is a general discussion of important risk factors and issues concerning the use of FDIs:

(i) Market Risk

This is a general risk that applies to all investments meaning that the value of a particular derivative may change in a way which may be detrimental to the Sub-Funds’ interests.

(ii) Liquidity Risk

Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the underlying assets of the derivative but also of the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the Sub-Funds and the ability to forecast the relative price, interest rate or currency rate movements correctly.

(iii) Counterparty Risk

The Sub-Funds may enter into transactions in OTC markets, which will expose the Sub-Funds to the credit of its counterparty and its ability to satisfy the terms of such contracts. If a bankruptcy or insolvency of a counterparty occurs, the Sub-Funds could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Sub-Funds seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated.

(iv) Other Risks

Other risks in using FDIs include the risk of differing valuations of FDIs arising out of different permitted valuation methods and the inability of FDIs to correlate perfectly with underlying securities, rates and indices. Many FDIs, in particular OTC derivatives, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to the Sub-Funds.

Derivatives do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track. Consequently, the Sub-Funds’ use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following the Sub-Funds’ investment objective.

In addition to the provisions on derivatives as set out in Appendix 1 of the Code, the LionGlobal Japan Growth Fund shall comply with the Notice on the Sale of Investment Products, the Notice on Recommendations on Investment Products and the Securities and Futures (Capital Markets Products) Regulations 2018 for the purpose of classifying Units of this Sub-Fund as Excluded Investment Products and prescribed capital markets products.

22.6 Holders' right to vote

22.6.1 A meeting of Holders of all the Sub-Funds duly convened and held in accordance with the provisions of the schedule of the Deed shall be competent by Extraordinary Resolution¹⁷:

- (i) to sanction any modification, alteration or addition to the provisions of the Deed which shall be agreed by the Trustee and us as provided in Clause 39 of the Deed;
- (ii) to sanction a supplemental deed increasing the maximum permitted percentage of the Management Fee or the remuneration of the Trustee in relation to all the Sub-Funds;
- (iii) to terminate the Fund or any Sub-Fund as provided in Clause 36(F) of the Deed;
- (iv) to remove the Auditors as provided in Clause 32(D) of the Deed;
- (v) to remove the Trustee as provided in Clause 33(C)(iv) of the Deed;
- (vi) to remove us as provided in Clause 34(A)(v) of the Deed;

- (viii) to direct the Trustee to take any action (including the termination of the Fund) according to Section 295 of the SFA,

but shall not have any further or other powers.

22.6.2 A meeting of the Holders of a Sub-Fund or Class of a Sub-Fund duly convened and held in accordance with the provisions of the schedule of the Deed shall be competent by Extraordinary Resolution:

- (i) to sanction any modification, alteration or addition to the provisions of the Deed which shall be agreed by the Trustee and us as provided in Clause 39 of the Deed to the extent that such modification, alteration or addition affects the Holders of the relevant Sub-Fund or Class of a Sub-Fund;
- (ii) to sanction a supplemental deed increasing the maximum permitted percentage of the Management Fee or the maximum permitted percentage or amount of the Trustee's remuneration in relation to the relevant Sub-Fund or Class of a Sub-Fund;
- (iii) to terminate the relevant Sub-Fund or the relevant Class of a Sub-Fund as provided in Clause 36(F) of the Deed; and
- (iv) to direct the Trustee to take any action (including the termination of the relevant Sub-Fund or Class of a Sub-Fund) according to Section 295 of the SFA,

but shall not have any further or other powers expressly reserved to the meeting of Holders of all Sub-Funds in sub-Paragraph 22.6.1 (above) or any power effecting the interests of Holders of another Sub-Fund as Holders of that other Sub-Fund.

¹⁷ "Extraordinary Resolution" is defined in the Deed to mean a resolution proposed and passed as such by a majority consisting of seventy-five per cent. or more of the total number of votes cast for and against such resolution.

22.7 Valuation

22.7.1 We or our agent shall in relation to each Dealing Day determine the net asset value per Unit of each Sub-Fund in accordance with the provisions set out in this Paragraph.

22.7.2 The net asset value per Unit of each Sub-Fund on each Dealing Day shall be calculated as at the Valuation Point in relation to the relevant Dealing Day in accordance with the following Paragraphs. We may, to the extent permitted by the MAS, and subject to the prior approval of the Trustee, change the method of valuation provided in this Paragraph 22.7 and the Trustee shall determine if the Holders should be informed of such change.

22.7.3 The net asset value of each Sub-Fund shall be calculated by valuing the assets of each Sub-Fund in accordance with Paragraph 22.7.4 and deducting from such amount the liabilities of each Sub-Fund in accordance with Paragraph 22.7.5. The resultant sum shall be divided by the number of Units of the Sub-Fund that are in issue or deemed to be in issue immediately prior to the relevant Dealing Day, and the resultant amount (rounded down to the nearest three decimal places or such other number of decimal places or any other method or rounding as we may determine with the approval of the Trustee) shall be the net asset value of a Unit of the Sub-Fund on such Dealing Day.

22.7.4 The value of the assets comprised in each Sub-Fund, except where otherwise expressly stated and subject always to the requirements of the Code, with reference to any Authorised Investments which are:

- (i) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price on such Recognised Stock Exchange or OTC Market on the Valuation Point in respect of the Dealing Day on which the value is to be determined; where such Quoted Investment is listed, dealt or traded in more than one Recognised Stock Exchange or OTC Market, we (or such person as we shall appoint for the purpose) may in our absolute discretion with due care and in good faith select any one of such Recognised Stock Exchange or OTC Market for the foregoing purposes and, if there be no such official closing price, last known transacted price or last transacted price, the value shall be the fair value as determined by us with due care and in good faith in consultation with the Trustee;
- (ii) an Unquoted Investment, shall be calculated by reference to the initial value thereof being the amount expended in the acquisition thereof or the mean of bid and offer prices quoted by responsible firms, corporations or associations on a Recognised Stock Exchange or an OTC Market at the time of calculation (or at such other time as we may from time to time after consultation with the Trustee determine), as may be determined to represent the fair value of such Authorised Investment;
- (iii) cash, deposits and similar assets shall be valued at their face value (together with accrued interest) unless, in our opinion (after consultation with the Trustee), any adjustment should be made to reflect the value thereof;
- (iv) a unit or share in a unit trust or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price; and
- (v) an Investment other than as described above, shall be valued by an approved valuer in such manner and at such time as we after consultation with the Trustee shall from time to time determine,

Provided That, if the quotations referred to in (i), (ii), (iii), (iv) or (v) above are not available, or if the value of the Authorised Investment determined in the manner described in (i), (ii), (iii), (iv) or (v) above, in our opinion is not representative, then the value shall be such value as we may with due care and in good faith consider in the circumstances to be fair value and is approved by the Trustee and we shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the “**fair value**” shall be the price that the Sub-Fund would reasonably expect to receive upon the current sale of the assets, such

basis for determining the fair value of the assets shall be documented and for the purposes of (i), (ii), (iii), (iv) or (v) above, the fair value shall be determined by us in consultation with a Stockbroker (as defined in the Deed) or an approved valuer (as defined in the Deed) and with the approval of the Trustee in accordance with the Code. When the fair value of a material portion of the assets of a Sub-Fund cannot be determined, we shall suspend valuation and trading in the Units of the Sub-Fund.

In exercising in good faith the discretion given by the proviso above, we shall not, subject to the provisions of the Code, assume any liability towards the Fund, and the Trustee shall not be under any liability in accepting our opinion, notwithstanding that the facts may subsequently be shown to have been different from those assumed by us.

22.7.5 The net asset value of each Sub-Fund or Class or any proportion thereof shall be calculated in accordance with Clause 11 of the Deed, which includes the following adjustments:

- (i) every Unit relating to the Sub-Fund or Class agreed to be issued by us shall be deemed to be in issue and the deposited property of the relevant Sub-Fund or Class shall be deemed to include not only cash or other assets in the hands of the Trustee but also the value of any cash, accrued interest on bonds or other assets to be received in respect of Units of the Sub-Fund agreed to be issued after deducting therefrom or providing thereout the preliminary charge relating to the relevant Sub-Fund or Class and the rounding adjustment (if any) and (in the case of Units issued against the vesting of Authorised Investments) any moneys payable out of the deposited property according to Clause 12 of the Deed;
- (ii) where Authorised Investments have been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Authorised Investments shall be included or excluded and the gross purchase, acquisition or net sale consideration excluded or included as the case may require as if such purchase, acquisition or sale had been duly completed;
- (iii) where in consequence of any notice or request in writing given pursuant to Clause 14, 14A or 15 of the Deed a reduction of the relevant Sub-Fund or Class by the cancellation of Units of the relevant Sub-Fund or Class is to be effected but such reduction has not been completed the Units of the relevant Sub-Fund or Class in question shall not be deemed to be in issue and any amount payable in cash and the value of any Authorised Investments to be transferred out of the deposited property of the relevant Sub-Fund or Class shall be deducted from the net asset value of the relevant Sub-Fund or Class; and
- (iv) there shall be deducted on a proportionate basis any amounts not provided for above which are payable out of the deposited property of the relevant Sub-Fund or Class including:
 - (a) any amount of Management Fee, the remuneration of the Trustee, the valuation agent's fees, the Registrar's fees, the securities transaction fee, the inception fee of the Trustee and any other expenses accrued but remaining unpaid attributable to the relevant Sub-Fund or Class;
 - (b) the amount of tax, if any, on capital gains (including any provision made for unrealised capital gains) accrued up to the end of the last accounting period and remaining unpaid attributable to the relevant Sub-Fund or Class;
 - (c) the amount in respect of tax, if any, on net capital gains realised during a current accounting period prior to the valuation being made as in our estimate will become payable attributable to the relevant Sub-Fund or Class;
 - (d) the aggregate amount for the time being outstanding of any borrowings for the account of the relevant Sub-Fund or Class effected under Clause 18(C) of the Deed together with the amount of any interest and expenses thereon accrued pursuant to Clause 18(C)(v) of the Deed and remaining unpaid;

- (e) all such costs, charges, fees and expenses as we may determine pursuant to the provisions of the Deed attributable to the relevant Sub-Fund or Class;
- (f) there shall be taken into account such sum as in our estimate will fall to be paid or reclaimed in respect of taxation related to Income up to the time of calculation of the net asset value of the deposited property of the relevant Sub-Fund or Class;
- (g) there shall be added the amount of any tax, if any, on capital gains estimated to be recoverable and not received attributable to the relevant Sub-Fund or Class;
- (h) any value (whether of an Authorised Investment, cash or a liability) otherwise than in the currency the relevant Sub-Fund or Class is denominated in (in this sub-Paragraph, the “**relevant currency**”) and any borrowing which is not in the relevant currency shall be converted into the relevant currency at the rate (whether official or otherwise) which we shall after consulting with or in accordance with a method approved by the Trustee deem appropriate to the circumstances having regard, amongst others, to any premium or discount which may be relevant and to the costs of exchange;
- (i) where the current price of an Authorised Investment is quoted “**ex**” dividend, interest or other payment but such dividend, interest or other payment has not been received the amount of such dividend, interest or other payment shall be taken into account; and
- (j) there shall be taken into account such estimated sum approved by the Trustee as in our opinion represents provision for any nationalisation, expropriation, sequestration or other restriction relating to the deposited property of the relevant Sub-Fund or Class.

We may, to the extent permitted by the MAS and subject to the prior approval of the Trustee, change the method of valuation provided in this Paragraph 22.7, and the Trustee shall determine if the Holders shall be informed of such change.

22.8 Duration and termination of the Fund

The Fund and the Sub-Funds are of indeterminate duration and may be terminated as provided in this Paragraph 22.8.

22.8.1 Under the provisions of the Deed:

- (i) the Fund may be terminated either by the Trustee or us in its/our absolute discretion by not less than six months’ notice in writing to the other. Either the Trustee or we shall be entitled by notice in writing as aforesaid to make the continuation of the Fund beyond any such date conditional on the revision to its or our satisfaction at least three months before the relevant date of its or our remuneration under the Deed. If the Fund shall be terminated or discontinued, we shall give notice thereof to all Holders not less than three months in advance. Subject as aforesaid the Fund shall continue until terminated in the manner hereinafter provided;
- (ii) subject to Section 295 of the SFA, the Fund may be terminated by the Trustee by notice in writing:
 - (a) if we go into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee) or if a receiver is appointed over any of our assets or if a judicial manager is appointed in respect of any of our assets or if any encumbrance shall take possession of any of our assets or if we shall cease business;
 - (b) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in the opinion of the Trustee impracticable or inadvisable to continue the Fund;

- (c) if within the period of three months from the date of the Trustee expressing in writing to us the desire to retire and we have failed to appoint a new trustee within the terms of Clause 33 of the Deed; and
 - (d) if within the period of three months from the date of the Trustee removing us as managers, the Trustee has failed to appoint new managers within the terms of Clause 34 of the Deed;

 - (c) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in our opinion impracticable or inadvisable to continue the Sub-Fund or Class of a Sub-Fund;
- (iv) the Fund may be terminated by us in our absolute discretion by notice in writing if:
- (a) the aggregate net asset value of the deposited property of all Sub-Funds shall be less than S\$5,000,000 (or its equivalent in any other relevant currency); or

The party terminating the Fund or the relevant Sub-Fund or the Class of a Sub-Fund shall give notice thereof to the Holders fixing the date at which such termination is to take effect and such date shall not be less than three months after the service of such notice and we shall give written notice thereof to the MAS not less than seven days (or such other period as may be permitted by the MAS) before such termination.

The Trustee may (with our consent) remove the Fund to the jurisdiction of a country other than Singapore, if it appears to the Trustee to be beneficial to the Fund and in the interests of the Holders to do so. The circumstances in which the Trustee may exercise its discretion hereunder are limited to the outbreak of war or grave civil unrest threatening the safe maintenance of the banking system or securities market; and

- (vi) provided the Holders of Units of any Sub-Fund established on or after the date of the First Supplemental Deed have been circulated with the particulars of a scheme of reconstruction or amalgamation to be entered into with us and the Trustee of some other unit scheme or open-ended investment company and an Extraordinary Resolution of such Holders of Units in that Sub-Fund has been duly passed authorising and directing us and the Trustee to enter into the said scheme, then the said scheme shall take effect upon the passing of such Extraordinary Resolution or upon such later date as the scheme may provide, whereupon (1) the Deed shall, to

the extent inconsistent with the scheme, be amended by the terms of the scheme, and (2) the terms of such scheme shall be binding upon all the Holders of Units in that Sub-Fund who shall be bound to give effect thereto accordingly and we and the Trustee shall do all such acts and things as may be necessary for the implementation thereof.

22.9 Realisation of Units by Us

22.9.1 We (in consultation with the Trustee) shall have the right, by giving prior written notice to any Holder, to realise compulsorily Units held by:

- (i) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or who is unable or unwilling to provide information and/or documentary evidence requested by us and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks;
- (ii) any Holder who fails to provide any of the requested Personal Information and Account Information for compliance with FATCA (as defined in Schedule 2 of the Deed), the Common Reporting Standard issued by the Organisation for Economic Co-operation and Development or any similar legislation, regulation or guidance enacted in any other jurisdiction applicable to the Fund which seeks to implement equivalent tax reporting and/or withholding tax regimes and/or automatic exchange of information;
- (iii) any Holder whose holdings of Units, in our opinion:
 - (a) may cause the Fund or the relevant Sub-Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (b) may cause the offer of the Units of the Fund or the relevant Sub-Fund, the prospectus of the Fund or the relevant Sub-Fund, the Deed, we and/or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
 - (c) may cause a detrimental effect on the tax status of the Fund or the relevant Sub-Fund in any jurisdiction or on the tax status of the Holders of the Fund or the relevant Sub-Fund; or
 - (d) may result in the Fund or the relevant Sub-Fund or other Holders of the Fund or the relevant Sub-Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or the relevant Sub-Fund or other Holders might not otherwise have incurred or suffered; or
- (iv) any Holder:
 - (a) who, in our opinion, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (b) where such realisation is, in our opinion, necessary or desirable for our compliance or the Fund's or the relevant Sub-Fund's compliance with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions) and inter-governmental agreements between Singapore and any foreign government.

22.9.2 Any compulsory realisation under this Paragraph shall be carried out by us on any Dealing Day, with prior written notice to the Holder, and shall be carried out in accordance with, and at the realisation price under, the applicable provisions on realisation in the Deed. For avoidance of doubt, a realisation under this Paragraph (be it a compulsory realisation by us or a realisation by the Holder in response to our written notice relating to a compulsory realisation) may also be subject to applicable fees and/or charges (including early

Realisation Charge) as set out in this Prospectus and/or the Deed, and all such fees and/or charges (including early Realisation Charge) related to a realisation under this Paragraph shall be borne by the Holder.

22.9.3 We, the Trustee and their respective delegates, associates, employees or agents, shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by the Holder or any party arising out of or in connection with (whether in whole or in part) any actions which are taken by us, the Trustee and/or any of our/their respective delegates, associates, employees or agents under this Paragraph.

22.10 Liquidity Risk Management

We have established liquidity risk management policies which enable us to identify, monitor, and manage the liquidity risks of the Sub-Funds. Such policies, combined with the liquidity management tools available, seek to achieve fair treatment of Holders, and safeguard the interest of remaining Holders against the redemption behaviour of other investors and mitigate against systemic risk.

Our liquidity risk management policies take into account the Sub-Funds' liquidity terms, asset class, liquidity tools and regulatory requirements.

The liquidity risk management tools available to manage liquidity risk include the following:

- (a) the Sub-Funds may, subject to the provisions of the Deed, borrow up to 10% of its latest available Net Asset Value (or such other percentage as may be prescribed by the Code) at the time the borrowing is incurred and the borrowing period should not exceed one month, provided always and subject to applicable investment and borrowing guidelines in the Code and the Deed;
- (b) we may, pursuant to the Deed, suspend the realisation of Units of the Sub-Fund, with the prior written approval of the Trustee; and
- (c) we may, with the approval of the Trustee, and pursuant to the Deed, limit the total number of Units in relation to any Sub-Fund which Holders may realise to 10% of the total number of Units in such Sub-Fund then in issue, whereby such limitation is to be applied pro-rated to all Holders in relation to such Sub-Fund who have validly requested realisations on the relevant Dealing Day.

We may perform regular stress testing on the Sub-Funds.

Factors considered in stress tests (either independently or concurrently) include:-

- (i) a sudden increase in realisations;
- (ii) worsening of market liquidity for the underlying assets of the Sub-Funds; and
- (iii) realisation by the largest Holder / distributor of the Sub-Funds.

Our stress testing scenarios consider historical situations and forward-looking hypothetical scenarios, where appropriate.

The reasonableness and relevance of our stress test assumptions are regularly reviewed to ensure that stress tests are based on reliable and up-to-date information.

22.11 Liquidation of the Managers, the Trustee or the Custodian

Subject to the provisions of the Deed, if the Trustee goes into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), a new trustee may be appointed.

Subject to the provisions of the Deed, if the Managers go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), a new manager may be appointed or the Fund may be terminated. Please refer to Clauses 33, 34 and 36 of the Deed for further details.

In the event the Custodian becomes insolvent, the Trustee may by notice in writing, terminate the custodian agreement entered into with the Custodian and, in accordance with the Deed, appoint such person as the new custodian to provide custodial services to the Fund globally.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

You should consider and satisfy yourself as to the risks of investing in the Sub-Fund, and in particular, securities quoted or listed in any Recognised Stock Exchange or OTC Market in Japan. Generally, some of the risk factors that should be considered are market, derivatives, liquidity, repatriation, regulatory, political, currency and risks associated with investments in smaller companies.

An investment in the Sub-Fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investment.

You should note that the value of Units, and the income accruing to the Units, may fall or rise and that you may not get back your original investment.

The Sub-Fund's net asset value may have higher volatility as a result of its narrower investment focus on a limited geographical market, when compared to funds investing in global or wider regional markets.

Refer to Section 11 of the Prospectus for further information on risks of the product.

Market and Credit Risks

- **You are exposed to market risks**
 - o Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities. These may cause the price of Units in the Sub-Fund to go up or down as the price of Units in the Sub-Fund is based on the current market value of the investments of the Sub-Fund.
- **You are exposed to currency risks**
 - o As the investments of the Sub-Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Sub-Fund may affect the value of the Units in the Sub-Fund.

Liquidity Risks

- o The Sub-Fund is not listed and you can redeem only on Dealing Days.

Product Specific Risks

- **You are exposed to derivatives risks**
 - o The Sub-Fund may invest in financial derivative instruments such as futures, options, warrants, forwards and swaps for hedging purposes or for the purpose of efficient portfolio management. While the judicious use of derivatives by professional investment managers can be beneficial, derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments.
- **You are exposed to risks associated with investments in smaller companies**
 - o The Sub-Fund may invest in smaller companies. Although smaller companies present more potential for growth, investing in smaller companies may present greater risk in comparison to investing in larger companies, for example, higher stock price volatility due to lower trading volume and a narrow range of investors. We will attempt to minimise the risks through a diversified portfolio.

If you are subscribing for Units in the Sub-Fund for the first time, you may cancel your subscription of Units within 7 calendar days from the date of subscription by submitting a Notice to Cancel Form to us, subject to cancellation terms and conditions. Subject to the provisions of the Deed, you will be refunded the lower of the market value of the Units held on the day of receipt and acceptance of such form or the original amount paid by you. Where the market value of the Units held is greater than the original amount paid by you, we are not obliged to pay the excess amount to you and the excess amount shall be retained in the Sub-Fund.

Realisation

Any realisation of Units of a Sub-Fund may, at our discretion, be limited by the total number of Units of such Sub-Fund to be realised on any Dealing Day and may not exceed 10% of the total number of Units of such Sub-Fund then in issue, such limitation to be applied proportionately to all Holders of the Units of such Sub-Fund. Any Units not realised shall be realised on the next Dealing Day, subject to the same limitation.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Sub-Fund will be valued on each Dealing Day. The indicative prices of Units are quoted on a forward pricing basis and will likely be available two Business Days in Singapore after each relevant Dealing Day (subject to the publication policies of the relevant publisher).

The prices will be published on our website at www.lionglobalinvestors.com. The prices may also be published in The Straits Times, The Business Times and selected major wire services or such other sources as we may decide upon.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Cooling Off Period

If you are subscribing for Units in the Sub-Fund for the first time, you may cancel your subscription of Units within 7 calendar days from the date of subscription by submitting a Notice to Cancel Form to us, subject to cancellation terms and conditions. Subject to the provisions of the Deed, you will be refunded the lower of the market value of the Units held on the day of receipt and acceptance of such form or the original amount paid by you. Where the market value of the Units held is greater than the original amount paid by you, we are not obliged to pay the excess amount to you and the excess amount shall be retained in the Sub-Fund.

Realisation

Any realisation of Units of a Sub-Fund may, at our discretion, be limited by the total number of Units of such Sub-Fund to be realised on any Dealing Day and may not exceed 10% of the total number of Units of such Sub-Fund then in issue, such limitation to be applied proportionately to all Holders of the Units of such Sub-Fund. Any Units not realised shall be realised on the next Dealing Day, subject to the same limitation.

You may realise your holdings in the Sub-Fund on any Dealing Day by submitting a realisation form to us or through our appointed agents or distributors.

As Units are realised on a forward pricing basis, the realisation price of Units is not ascertainable at the time of realisation. If your realisation form is received and accepted by us by the dealing deadline of 3 p.m. Singapore time on a Dealing Day, your Units shall be realised at that Dealing Day's realisation price. Realisation forms received after the dealing deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

You will receive your realisation proceeds within 7 Business Days from the receipt and acceptance of the realisation form by us.
