Notes to the Financial Statements

30 April 2008

1. General

The Company is an open-ended investment company and was incorporated in Luxembourg as a SICAV (société d'investissement à capital variable) on 15 June 1990.

The Company is a self-managed SICAV under part I of the Luxembourg Law of 20 December 2002 which implements the UCITS III Directives. The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Distributor Status will be granted for the period of these accounts with respect to the distributing sub-funds or Share classes that are actively marketed in the United Kingdom. To the extent possible, the Company has applied for such distributing sub-funds or Share classes for the year ended 30 April 2008. To the same extent, application for United Kingdom Distributor Status for the current year will be made to HM Revenue & Customs respectively in relation to such sub-funds or Share classes.

The Company comprises various sub-funds each relating to a separate investment portfolio of securities, cash and other assets. Separate classes of Shares are issued in relation to the sub-funds.

An Extraordinary General Meeting of Shareholders of the Fidelity Funds II – Euro Short-Term Bond Fund (the “ESTB Fund”) held on 18 January 2008 approved the allocation of the Shares of the ESTB Fund into a new Fidelity Funds sub-fund: Fidelity Funds - Euro Short Term Bond Fund. The contribution in kind took place on 10 March 2008. All the assets of the ESTB Fund were allocated to the new Fidelity Funds sub-fund by converting the existing Shares of the ESTB Fund into two new classes of Shares of the new sub-fund. On that date, existing Shareholders of the ESTB Fund received one Share within the new sub-fund for every one Share held in the ESTB Fund.

Investments in Indian securities are made through a wholly-owned Mauritian subsidiary, Fid Funds (Mauritius) Limited (the “Subsidiary”), whose sole object is to carry out investment activities on behalf of the Company. FIL Investments International (‘FII’) provides investment advisory and management services to the Subsidiary. FII has obtained approval from the Securities and Exchange Board of India (‘SEBI’) and the Reserve Bank of India (‘RBI’) to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Institutional Investor under Indian law. The Subsidiary is registered as a Foreign Institutional Investor sub-account of FII’s licence and has been granted approval to invest in Indian securities.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investments.

SECURITY VALUATION. Investments in securities traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Securities dealt on any over the counter market are valued in the same manner. The valuation of short-dated debt transferable securities and money market instruments not traded on a regulated exchange is determined by means of the amortised cost method. Under this method, amortised cost is determined by valuing the security at original cost and thereafter accreting (amortising) the discount (premium) to its nominal value at a constant rate until maturity. All other assets are valued in such manner as the Directors of the Company consider appropriate. All holdings owned by the Company are quoted on an official market, except where otherwise distinguished in a sub-fund’s Schedule of Investments.

FAIR VALUE ADJUSTMENTS POLICY. Fair value adjustments may be implemented to protect the interests of the Fund’s Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under security valuation, allow for the securities included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund’s investments at the point of valuation. As at 30 April 2008, the following sub-funds have been materially fair valued compared to the closing market price at that date:

- China Focus Fund
- Institutional Hong Kong Equity Fund
- Institutional Japan Fund
- Japan Fund
- Japan Advantage Fund
- Japan Aggressive Fund

BANK DEPOSITS AND CASH AT BANKS. All deposits and cash at bank amounts are carried at face value.

INVESTMENT SECURITY TRANSACTIONS. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

FUTURES. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the portfolio each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the portfolio. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gain and loss is based on the First In – First Out method.

FORWARD FOREIGN EXCHANGE CONTRACTS. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments.

INTEREST RATE SWAPS. An interest rate swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of interest payments (usually fixed versus floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. Interest receivable and payable on interest rate swaps contracts are accrued on a daily basis. Future commitments under the swaps are valued at fair value. Both future commitments and interest are disclosed in the Statement of Net Assets under the caption “Unrealised gain or (loss) on swaps” and under “Dividend receivable” or “Other Payables” respectively. Contracts details on interest rate swaps are disclosed in the Schedule of Investments.

CREDIT DEFAULT SWAPS. A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the fair value of the CDS. The “Unrealised gain or (loss) on swaps” disclosed in the Statement of Net Assets includes the future commitments and the interest receivable and payable under the credit default swaps. Both are valued at market rates. The “unrealised gain or (loss) on swaps” also includes premia paid and received to enter into credit default swaps contracts. Contracts details on credit default swaps are disclosed in the Schedule of Investments.

OPTION CONTRACTS. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as realised loss for options purchased.

Notes to the Financial Statements – continued

EQUITY LINKED NOTES. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the appreciation of the underlying security. The interest income or “out performance” earned and any gains or losses are disclosed in Statement of Operations and Changes in Net Assets.

FOREIGN EXCHANGE. The Company's designated currency is USD. Assets and liabilities as at 30 April 2008 have been translated at the prevailing exchange rates on that date. The Directors determine the designated currency of each sub-fund. All transactions denominated in foreign currencies during the year are translated into the sub-fund's designated currency at the exchange rate prevailing on the day of transaction.

BONDS IN ESCROW. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded.

FUND SHARE TRANSACTIONS. The issue and redemption price per Share of each sub-fund is the Net Asset Value per Share on the date of trade, subject to the price adjustment policy.

PRICE ADJUSTMENT POLICY. With effect from 1 November 2007, the Board of Directors of the Company implemented a price adjustment policy in order to protect the interests of the Company's Shareholders. The purpose of the price adjustment is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the price at which deals in a sub-fund are transacted. In other words, sub-fund prices may be adjusted up or down depending on the level and type of investor transactions on a particular day. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant flows likely to have a material impact on existing and remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. Once an adjustment is made to the price that price is the official price for that sub-fund for all deals that day, buys / subscriptions, sales / redemptions and switches. The Board anticipates that such adjustments will be occasional.

ORGANISATION EXPENSES. Costs incurred in launching new sub-funds will be charged to current operating expenses.

INCOME. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

ZERO COUPON DISCLOSURE. Zero coupon bonds and zero coupon commercial papers are disclosed in the Schedule of Investments at a rate reflecting the actual return.

CO-MANAGEMENT OF ASSETS. For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such case, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying securities in the portfolio of the co-managed sub-funds at the end of the year and is included in the total market value of the portfolio. Considering the immateriality of these amounts, they have been included as “Fractions” in the Schedule of Investments.

COMBINED ACCOUNTS. The combined financial statements have been presented in USD and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the year-end.

3. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement dated 25 June 1990 (as amended) and the assignment and amendment agreement dated 4 August 2005, FFML is entitled to a monthly investment management fee, accrued daily and based on the average total net assets of each sub-fund, at an annual rate as disclosed in the table below:

FIL and FILUX provide valuation, record keeping and administrative services to the Company and earned, in aggregate, USD 305,347,293 in fees for these services during the year ended 30 April 2008.

The Reserved Funds' classes of Shares may only be acquired by investors who are undertakings for collective investment or investors whose assets are held in accounts managed by Fidelity. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and have agreed to limit the total expenses for the year ended 30 April 2008 to an annual fixed percentage of average net assets of each sub-fund as follows: Equity funds 2.50% excluding custody fees; Balanced funds 2.00% excluding custody fees; Bond funds (with the exception of Asian High Yield Fund, Emerging Market Debt Fund, European High Yield Fund and US High Yield Fund) 1.15% including custody fees; Index funds 1.00% including custody fees. As a consequence, some expenses are reimbursed to certain sub-funds.

Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates. FIL Distributors ('FID') is a wholly owned subsidiary of FIL. In performing its activities as General Distributor of the Company, FID is entitled to receive a sales commission on sales of Shares in the Company. For the year ended 30 April 2008, FID retained a total of USD 10,758,036 in sales commissions, the remainder is paid to intermediaries involved in distributing Shares.

The total aggregate value of the transactions of the Company elected through connected brokers is USD 624,769,841. Such transactions represent 0.29% of total transactions of the Company during the year ended 30 April 2008. Total brokerage commissions paid to connected brokers for the year ended 30 April 2008 was USD 93,144, at an average rate of commission of 0.01%. This represents 0.05% of the total commissions paid. FIL and/or FFML (as the case may be) have executed certain portfolio transactions to selected brokers who have agreed to repay a portion of commissions from such transactions to offset Company expenses. For the year ended 30 April 2008, the Company's expenses were reduced by USD 28,913,256 under this arrangement.

In the best interests of the Shareholders of Euro Cash Fund, the Board of Directors approved the sale of a holding in commercial paper issued by Axon Financial Funding Limited to FIL. The sale took place at amortised cost book value (which was in excess of indicative market value), so no gain or loss was realised as a result of the transaction.

4. Directors' Fees

The total Directors fees earned in respect to services rendered for the year ended 30 April 2008 was USD 421,000, subject to Shareholder approval at the Annual General Meeting on 2 October 2008. Subject to such approval, Directors are entitled to an annual fee of EUR 33,000 plus EUR 2,750 for each meeting attended. Directors who are affiliated with the Investment Manager or Distributor have waived their fees for the year ended 30 April 2008.

5. Securities Lending

As at 30 April 2008 the Company loaned securities having a value of USD 1,983,768,111 and received collateral with a market value at 30 April 2008 of USD 2,077,298,371. The following table discloses the breakdown of securities on loan, by sub-fund, as at 30 April 2008:

6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Bond, Balanced, Asset Allocation, MoneyBuilder and Fidelity Lifestyle Funds and 0.01% on Cash, Reserved and Institutional Reserved Funds, calculated and payable quarterly on the net assets of the sub-fund on the last day of each calendar quarter. Capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders.

7. Equalisation

Income equalisation arrangements are applied in the case of Shares in the Bond funds, Balanced funds and Cash funds. These arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The calculation of equalisation is based on net investment income.

8. Dividend Payments

9. Swap Contracts

As at 30 April 2008, some sub-funds had commitments outstanding relating to interest rate swap contracts and credit default swap contracts. The unrealised gain or loss position per sub-fund is disclosed in the Statement of Net Assets under the caption “Unrealised gain or (loss) on swaps”.

All gains and losses in the value of interest rate swaps and credit default swaps are disclosed in the Statement of Operations and Changes in Net Assets under “Net realised gain / (loss) on swaps”. Premia on credit default swaps are charged to or credited to “Net realized gain / (loss) on swaps” depending on whether protection is bought or sold. Income receivable/payable on interest rate swaps is included in income or expenses on an accruals basis and is reflected in the Statement of Operations and Changes in Net Assets as Interest received / paid on swaps.

10. Cash Balances held at Brokers

Commitments are calculated as follows for each category of financial derivative instruments:

- Credit Default swaps and Interest Rate swaps: Aggregation of the notional principals.
- Forward Foreign Exchange Contracts: Aggregation of the principal payable for each contract.
- Futures: Aggregation of the full market value of the contracts (underlying nominal plus unrealised gain or loss).
- Options: Aggregation of the full market value of the contracts.

12. Credit Facility

The Company has syndicated multi-currency committed revolving credit facilities of USD 500,000,000 with a number of banks, for which J.P. Morgan Europe Limited acts as Facility Agent and Optional Currency Swingline Agent and J.P. Morgan Chase Bank acts as Base Currency

Notes to the Financial Statements – continued

Swingline Agent. One facility for USD 250,000,000 was renewed on 26 November 2007 for a further 364 days, and the other facility for USD 250,000,000 was renewed on 25 May 2007 for a further 364 days. Both facilities carry a commitment fee of 0.055%. Each facility bears interest at a rate of 0.30% above LIBOR (London Inter Bank Offer Rate) or, in the case of Swingline advances, at a rate of the higher of Prime Rate or 0.50% above the Federal Funds rate. Furthermore, if on any date the aggregate principal amount borrowed under any such facility (including amounts borrowed under any associated Swingline facility) equals or exceeds 33% of the aggregate committed amounts in respect of any such facility, then such facility will bear interest on the outstanding principal amount thereof at a rate per annum equal to the rate of interest otherwise applicable to such facility plus 0.05% per annum. The facilities are unsecured. As at 30 April 2008 there were no outstanding loans under either of the facilities.

13. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds generally suffer local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, recent and pending European Court of Justice and European Free Trade Association Court decisions seem to support a tax discrimination claim where European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU Member States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether the protective claims will ultimately be successful and whether any withholding tax will ultimately be recovered.

Independent Auditor's Report

To the Shareholders of Fidelity Funds

We have audited the accompanying financial statements of Fidelity Funds (the "SICAV") and of each of its sub-funds, which comprise the Statement of Net Assets and the Schedule of Investments as at 30 April 2008, and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Board of Directors of the SICAV's responsibility for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted by the "Institut des Réviseurs d'Entreprises". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the Auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements give a true and fair view of the financial position of Fidelity Funds and of each of its sub-funds as of 30 April 2008, and of the results of their operations and changes in their net assets for the year then ended, in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matters

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Unaudited Supplementary Information

The European Directive on Savings Income 2003/48/EC

The EU Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments (hereinafter the “Directive”) provides that from 1 July 2005, paying agents established in a member state of the EU or certain dependent or associated territories of member states who make certain savings income payments to individuals resident in another member state or to residual entities within the sense of the Directive (and, depending on the home state of the paying agent, possibly also to individuals and residual entities within the sense of the Directive resident in certain dependent or associated territories of member states) will be obliged, depending on the jurisdiction of establishment of the paying agent, either to report details of the payment and payee to fiscal authorities or to withhold tax from it.

The law of 21 June 2005 (the “Law”) has implemented into Luxembourg law the Directive. Pursuant to the Law and in accordance with the letter of the Directive, the withholding tax applicable in Luxembourg is set at 15% from 1 July 2005 until 30 June 2008, then 20% from 1 July 2008 until 30 June 2011, rising to 35% from 1 July 2011. Article 9 of the Law provides however that no withholding tax will be withheld if the Beneficiary explicitly authorises the paying agent in writing to proceed to an Exchange of Information or if the Beneficiary provides the paying agent with an exemption certificate drawn up in the name of the Beneficiary by the competent authority in his country of residence. Dividends distributed by the Company will fall into the scope of the Directive if more than 15% of the relevant sub-fund’s assets are invested in debt claims (as defined in the Law). Redemption proceeds realised by Shareholders on the disposal of Shares will fall into the scope of the Directive if more than 40% of the relevant sub-fund’s assets are invested in debt claims.

The Company falls within the application of the Directive as follows:

This report is supplemental to, and should be read in conjunction with, the Fidelity Funds Annual Report and Accounts for the 12 month period from 1 May 2007 to 30 April 2008. This report is prepared by FIL Investment Management (Singapore) Limited, [Co. Reg. No.: 199006300E] the Singapore Representative of Fidelity Funds and is intended for distribution to persons in Singapore investing in the 15 sub-funds of Fidelity Funds that are included under the Central Provident Fund ("CPF") Investment Scheme using their CPF contributions.

All performance figures are calculated on single pricing (NAV - NAV) basis, without taking into account the effect of initial sales charge, with dividends reinvested at the NAV price. The performance figures are based on the currencies in which the relevant share classes are denominated.

The turnover ratio for the year ended 30 April 2007 has used a revised methodology which reflects more accurately the co-management of assets. The revised methodology is consistent with the formula for calculation of portfolio turnover ratio stipulated by the Monetary Authority of Singapore.

SOFT COMMISSIONS

The Investment Manager of the 15 sub-funds of Fidelity Funds that are included under the CPF Investment Scheme is FIL Fund Management Limited (FFML). FFML may, from time to time, delegate its investment management functions to a company within the Fidelity organisation (“sub-managers”).

FFML and/or any sub-manager may effect transactions by or through the agency of another person with whom the Investment Manager and/or any sub-manager have an arrangement under which that party will from time to time provide to or procure for the Investment Manager and/or any sub-manager goods, services or other benefits (such as research and advisory services). The nature of which is such that their provision can reasonably be expected to benefit Fidelity Funds as a whole and may contribute to an improvement in the performance of Fidelity Funds or of the Investment Manager and/or any sub-manager in providing services to Fidelity Funds and for which no direct payment is made but instead the Investment Manager and/or any sub-manager undertake to place business with that party. For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payments. From 1st July, 2004, only Investment Research was eligible to be paid with soft commissions.

The Investment Manager and/or any sub-manager shall not retain the benefit of any cash commission rebate (being repayment of a cash commission made by a broker or dealer to the Investment Manager and/or any sub-manager) paid or payable from any such broker or dealer in respect of any business placed with such broker or dealer by the Investment Manager and/or any sub-manager for or on behalf Fidelity Funds. Any such cash commission rebate from any such broker or dealer will be held by the Investment Manager and/or any sub-manager for the account of Fidelity Funds.

With respect to the 15 sub-funds of Fidelity Funds that are included under the CPF Investment Scheme, a broker or dealer with whom the Investment Manager and/or any sub-manager has an arrangement as described above may execute trades for other collective investment schemes managed by the Investment Manager and/or any sub-manager. The Investment Manager confirms that the trades were executed in accordance with the Investment Manager’s best execution policy and there was no churning of trades.
