Notes to the Financial Statements

30 April 2010

1. General

The Company is an open-ended investment company and was incorporated in Luxembourg as a SICAV (société d'investissement à capital variable) on 15 June 1990.

The Company is a self-managed SICAV under part I of the Luxembourg Law of 20 December 2002 which implements the UCITS III Directives. The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Distributor Status will be granted for the period of these accounts with respect to the distributing sub-funds or Share classes that are registered in the United Kingdom. The distributing sub-funds and Share classes of the Company that are registered in the UK have been certified for all accounting periods up to 30 April 2009. The Directors expect these sub-funds or Share classes to be certified as distributing sub-funds or share classes for the accounting period ended 30 April 2010, although there can be no guarantee that these sub-funds or Share classes of funds will remain so certified. It is currently anticipated that all sub-funds and share classes registered in the UK including those with Distributor status will transition into the new UK Reporting Fund regime for accounting periods ended on or after 30 April 2011.

The Company comprises various sub-funds each relating to a separate investment portfolio of securities, cash and other assets. Separate classes of Shares are issued in relation to the sub-funds.

The following additional sub-funds were launched during the year:

As at 30 April 2010 the Company consisted of 126 active sub-funds. The Directors may from time to time close sub-funds as well as add further sub-funds with different investment objectives, subject to the approval of the CSSF.

Investments in Indian securities are made through a wholly-owned Mauritian subsidiary, Fid Funds (Mauritius) Limited (the “Subsidiary”), whose sole object is to carry out investment activities on behalf of the Company. FIL Investments International (“FIL”) provides investment advisory and management services to the Subsidiary. FIL has obtained approval from the Securities and Exchange Board of India (“SEBI”) and the Reserve Bank of India (“RBI”) to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Institutional Investor under Indian law. The Subsidiary is registered as a Foreign Institutional Investor sub-account of FIL’s licence and has been granted approval to invest in Indian securities.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investments. **SECURITY VALUATION.** Investments in securities traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Securities dealt on any over the counter market are valued in the same manner. The valuation of short-dated debt transferable securities and money market instruments not traded on a regulated exchange is determined by means of the amortised cost method. Under this method, amortised cost is determined by valuing the security at original cost and thereafter accreting (amortising) the discount (premium) to its nominal value at a constant rate until maturity. All other assets are valued in such manner as the Directors of the Company consider appropriate. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund’s Schedule of Investments.

FAIR VALUE ADJUSTMENTS POLICY. Fair value adjustments may be implemented to protect the interests of the Fund’s Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the securities included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund’s investments at the point of valuation. As at 30 April 2010, the Global Real Asset Securities Fund has been materially fair valued.

BANK DEPOSITS AND CASH AT BANKS. All deposits and cash at bank amounts are carried at face value:

INVESTMENT SECURITY TRANSACTIONS. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

FUTURES. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the portfolio each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the portfolio. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gain and loss is based on the First In – First Out method.

FORWARD FOREIGN EXCHANGE CONTRACTS. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments.

INTEREST RATE & INFLATION SWAPS. Interest receivable and payable on interest rate and inflation swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate and inflation swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments. All gains and losses in the value of interest rate and inflation swaps are disclosed in the Statement of Operations and Changes in Net Assets under “Net realized gain / (loss) on swaps”. Income receivable/payable on interest rate swaps is included in income or expenses on an accruals basis and is reflected in the Statement of Operation and Changes in Net Assets as Interest received / paid on swaps.

CREDIT DEFAULT SWAPS. Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected in net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and the Schedule of Investments. All gains and losses in the value of credit default swaps are disclosed in the Statement of Operations and Changes in Net Assets under “Net realized gain / (loss) on swaps”.

OPTION CONTRACTS. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as realised loss for options purchased.

CONTRACTS FOR DIFFERENCE. Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. Dividends received or paid on contracts for difference are disclosed in the Statement of Operations and Changes in Net Assets under the caption Derivative Income. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and the Schedule of Investments. The finance costs paid to the broker for holding the underlying security are included under the caption Finance costs in the Statement of Operations and Changes in Net Assets.

EQUITY LINKED NOTES. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security. The interest income or “out performance” earned and any gains or losses are disclosed in Statement of Operations and Changes in Net Assets.

FOREIGN EXCHANGE. The Company’s designated currency is USD. Assets and liabilities as at 30 April 2010 have been translated at the prevailing exchange rates on that date. The Directors determine the designated currency of each sub-fund. All transactions denominated in foreign currencies during the year are translated into the sub-fund’s designated currency at the exchange rate prevailing on the day of transaction.

BONDS IN ESCROW. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded.

FUND SHARE TRANSACTIONS. The issue and redemption price per Share of each sub-fund is the Net Asset Value per Share on the date of trade, subject to the price adjustment policy.

Notes to the Financial Statements – continued

PRICE ADJUSTMENT POLICY. The Board of Directors of the Company implemented a price adjustment policy in order to protect the interests of the Company's Shareholders. The purpose of the price adjustment is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the price at which deals in a sub-fund are transacted. In other words, sub-fund prices may be adjusted up or down depending on the level and type of investor transactions on a particular day. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant flows likely to have a material impact on existing and remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. Once an adjustment is made to the price that price is the official price for that sub-fund for all deals that day, buys / subscriptions, sales / redemptions and switches.

As at 30 April 2010, price adjustments have been made on the following sub-funds:

Sub-fund name	Class of Shares	Un-adjusted NAV per share	Adjusted NAV per share
US High Yield Fund	Class A Shares (USD)	11.64	11.79
US High Yield Fund	Class A Shares (EUR)	7.293	7.385

US High Yield Fund	Class Y-ACC Shares (USD)	12.12	12.27
FAWF US High Income Fund	Class A Shares (USD)	10.60	10.73

ORGANISATION EXPENSES. Costs incurred in launching new sub-funds will be charged to current operating expenses.

INCOME. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

ZERO COUPON DISCLOSURE. Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

CO-MANAGEMENT OF ASSETS. For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such case, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying securities in the portfolio of the co-managed sub-funds at the end of the year and is included in the total market value of the portfolio. Considering the immateriality of these amounts, they have been included as "Fractions" in the Schedule of Investments.

COMBINED ACCOUNTS. The combined financial statements have been presented in USD and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the year-end.

3. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement dated 25 June 1990 (as amended) and the assignment and amendment agreement dated 4 August 2005, FFML is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average total net assets of each sub-fund, at an annual rate as disclosed in the table below:

FIL and FILUX provide valuation, record keeping and administrative services to the Company and earned, in aggregate, USD 189,480,258 in fees for these services during the year ended 30 April 2010.

The Reserved Funds' classes of Shares may only be acquired by investors who are undertakings for collective investment or investors whose assets are held in accounts managed by Fidelity. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the funds would be paying. These waivers are voluntary and may be revised at any time. In addition, FFML may from time to time bear certain expenses of the sub-funds, on a discretionary basis.

Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates. FID is a wholly owned subsidiary of FIL. In performing its activities as General Distributor of the Company, FID is entitled to receive a sales commission on sales of Shares in the Company. For the year ended 30 April 2010, FID retained a total of USD 1,588,215 in sales commissions, the remainder is paid to intermediaries involved in distributing Shares.

The total aggregate value of the transactions of the Company traded through connected brokers is USD 208,496,040. Such transactions represent 0.15% of total transactions of the Company during the year ended 30 April 2010. Total brokerage commissions paid to connected brokers for the year ended 30 April 2010 was USD 46,003, at an average rate of commission of 0.02%. This represents 0.03% of the total commissions paid. FFML has executed certain portfolio transactions through selected brokers who have agreed to repay a portion of commissions from such transactions to offset Company expenses. For the year ended 30 April 2010, the Company's expenses were reduced by USD 21,136,225 under this arrangement.

4. Directors' Fees

Subject to Shareholder approval at the Annual General Meeting on 7 October 2010, Directors are entitled to an annual fee of EUR 33,000 plus EUR 2,750 for each meeting attended. Directors who are affiliated with the Investment Manager or its holding company FIL Limited have waived their fees for the year ended 30 April 2010. The total Directors' fees earned in respect to services rendered for the year ended 30 April 2010 was USD 361,723.

The collateral which consists of bonds is held by the Custodian and is not reflected in the financial statements. Income from securities lending of USD 5,487,646 is included in Net dividend and interest income in the Statement of Operations and Changes in Net Assets.

6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Bond, Balanced, Asset Allocation, MoneyBuilder and Fidelity Lifestyle Funds and 0.01% on Cash, Reserved, Institutional Reserved Funds, and Class P Shares, calculated and payable quarterly on the net assets of the sub-fund on the last day of each calendar quarter. Capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders.

7. Equalisation

Income equalisation arrangements are applied in the case of Shares in the Bond funds, Balanced funds and Cash funds. These arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The calculation of equalisation is based on net investment income.

Commitments are calculated as follows for each category of financial derivative instruments:

- Contracts For Difference: Aggregation of the absolute market value of the underlying.
- Credit Default Swaps, Interest Rate Swaps and Inflation Swaps: Aggregation of the notional principals.
- Forward Foreign Exchange Contracts: Aggregation of the principal payable for each contract.
- Futures: Aggregation of the full market value of the contracts (underlying nominal plus unrealised gain or loss).

11. Credit Facility

The Company has syndicated multi-currency committed revolving credit facilities of USD 500,000,000 with a number of banks, for which J.P.Morgan Europe Limited acts as Facility Agent and Optional Currency Swingline Agent and J.P. Morgan Chase Bank acts as Base Currency Swingline Agent. One facility for USD 250,000,000 was renewed on 22 May 2009 for a further 364 days, and the other facility for USD 250,000,000 was renewed on 23 November 2009 for a further 364 days. The facilities carry commitment fees of 0.125%. The facilities bear interest at a rate of 1.00% above LIBOR (London Inter Bank Offer Rate) or, in the case of Swingline advances, at a rate of the higher of Prime Rate or 1.25% above the Federal Funds rate. Furthermore, if on any date the aggregate principal amount borrowed under any such facility (including amounts borrowed under any associated Swingline facility) equals or exceeds 33% of the aggregate committed amounts in respect of any such facility, then such facility will bear interest on the outstanding principal amount thereof at a rate per annum equal to the rate of interest otherwise applicable to such facility plus 0.05% per annum. The facilities are unsecured. As at 30 April 2010 there were no outstanding loans under either of the facilities.

12. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds generally suffer local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, recent and pending European Court of Justice and European Free Trade Association Court decisions seem to support a tax discrimination claim where European Economic Area (“EEA”) countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU Member States on dividend payments to the Company. The Board’s decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction’s local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether the protective claims will ultimately be successful and whether any withholding tax will ultimately be recovered.

As at 30 April 2010, the Company has received withholding tax refunds from Norway and Estonia.

13. Subsequent Events

A temporary suspension of determination of NAV was applied to the Thailand Fund from 19 May 2010 to 24 May 2010, following the closure of Thai stock markets and the suspension of trading on Thai markets.

The following dividend payments were declared to Shareholders of record as at close of business on 30 April 2010:

Audit Report

To the Shareholders of Fidelity Funds

We have audited the accompanying financial statements of Fidelity Funds (the "SICAV") and of each of its sub-funds, which comprise the Statement of Net Assets and the Schedule of Investment as at 30 April 2010 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Board of Directors of the SICAV's responsibility for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the "Réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "Réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements give a true and fair view of the financial position of Fidelity Funds and of each of its sub-funds as of 30 April 2010, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matters

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Unaudited Supplementary Information

The European Directive on Savings Income 2003/48/EC

The EU Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments (hereinafter the “Directive”) provides that from 1 July 2005, paying agents established in a member state of the EU or certain dependent or associated territories of member states who make certain savings income payments to individuals resident in another member state or to residual entities within the sense of the Directive (and, depending on the home state of the paying agent, possibly also to individuals and residual entities within the sense of the Directive resident in certain dependent or associated territories of member states) will be obliged, depending on the jurisdiction of establishment of the paying agent, either to report details of the payment and payee to fiscal authorities or to withhold tax from it.

The law of 21 June 2005 (the “Law”) has implemented into Luxembourg law the Directive. Pursuant to the Law and in accordance with the letter of the Directive, the withholding tax applicable in Luxembourg is set at 15% from 1 July 2005 until 30 June 2008, then 20% from 1 July 2008 until 30 June 2011, rising to 35% from 1 July 2011. Article 9 of the Law provides however that no withholding tax will be withheld if the Beneficiary explicitly authorises the paying agent in writing to proceed to an Exchange of Information or if the Beneficiary provides the paying agent with an exemption certificate drawn up in the name of the Beneficiary by the competent authority in his country of residence. Dividends distributed by the Company will fall into the scope of the Directive if more than 15% of the relevant sub-fund’s assets are invested in debt claims (as defined in the Law). Redemption proceeds realised by Shareholders on the disposal of Shares will fall into the scope of the Directive if more than 40% of the relevant sub-fund’s assets are invested in debt claims.

The Company falls within the application of the Directive as follows:
