This product may not be appropriate for all investors. Any investment in the relevant funds involves numerous risks including, among others, market, counterparty default and illiquidity risk. An investor could lose its entire investment. We have prepared this document without consideration of the investment objectives, financial situation or particular needs of any retail investor. Without limitation, this document does not constitute an offer, an invitation to offer or a recommendation to enter into any transaction. Before entering into any transaction you should take steps to ensure that you fully understand the transaction and have made an independent assessment of the appropriateness of the transaction in the light of your own objectives and circumstances, including the possible risks and benefits of entering into such transaction. You should also consider seeking independent professional advice in making this assessment and read the relevant Singapore prospectus before deciding to invest in shares of the db x-trackers ETFs. Investment involves risks such as possible loss of the principal amount invested. The value of the shares and the income from the db x-trackers ETFs (if any) may fall or rise. Investors may only redeem shares in the db x-trackers ETFs with the manager directly under certain specified conditions as described in the relevant Singapore prospectus. Investors should note that the db x-trackers ETFs may invest, as a part of their investment policy, in financial derivative instruments such as index swap transaction(s). Investors should refer to paragraph 17.3 of the Singapore prospectus for further details. Investors should also note that the Net Asset Value of the above-mentioned db x-trackers ETF may have a high volatility due to its investment objective. An investment in the above-mentioned db x-trackers ETF is suitable for investors who are able and willing to invest in a sub-fund with a high risk grading as further described in paragraph 5 of the Singapore prospectus. Investors should note that the risk grading set out in the section "TYPOLOGY OF RISK PROFILES" of the Luxembourg Prospectus of db x-trackers has been established by db x-trackers for the sole purpose of comparison with other sub-funds offered to the public by db x-trackers and has not been independently reviewed or assessed by any third party.

db x-trackers ETFs may enter into transactions in over-the-counter markets, which will expose the relevant db x-trackers ETF to the credit risk of the counterparties to such transactions and their ability to satisfy the terms of such transactions. Swap agreements which the relevant db x-trackers ETF may enter into are subject to the risk that the swap counterparty may default on its obligations. Please refer to the Singapore prospectus of the relevant db x-trackers ETF for more information on the risks of investing in the relevant db x-trackers ETF, including amongst others, the counterparty risk and risk of the swap agreements. Information on the current credit rating of Deutsche Bank AG, the swap counterparty, may be obtained at www.db.com.

DB is not acting as your financial adviser or in any other fiduciary capacity. DB may engage in transactions in a manner inconsistent with the views discussed herein. DB trades or may trade as principal in the instruments (or related derivatives), and may have proprietary positions in the instruments (or related derivatives) discussed herein. DB may maintain a long or short position in the securities referred to herein, or in related futures or options, purchase or sell, make a market in, or engage in any other transaction involving such securities, and earn brokerage or other compensation.

This document was prepared by a sales or structuring function within DB, and was not produced, reviewed or edited by the DB Research Department.
