This document is for distribution to Professional Investors only. **Investors should not purchase the Notes in the primary or secondary markets unless they are Professional Investors and understand the risks involved. The Notes are only suitable for Professional Investors.**

The Hong Kong Stock Exchange has not reviewed the contents of this Offering Circular, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this document to Professional Investors only have been reproduced in this Offering Circular. Listing of the Programme and any Notes on the Hong Kong Stock Exchange is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Issuers, the Guarantor or quality of disclosure in this document. Hong Kong Exchanges and Clearing Limited and the Hong Kong Stock Exchange take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “*Securities Act*”) and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) (“*Regulation S*”) absent registration or an exception from registration under the Securities Act.

Investing in the Notes involves certain risks and may not be suitable for all investors. Investors should have sufficient knowledge and experience in financial and business matters to evaluate the information contained in this Offering Circular and in the applicable Pricing Supplement, and the merits and risks of investing in a particular issue of Notes, in the context of their financial position and particular circumstances. Investors also should have the financial capacity to bear the risks associated with an investment in the Notes. Investors should not purchase Notes unless they understand and are able to bear risks associated with the Notes. Prospective investors should have regard to the factors described under “*Risk Factors*”.

Each Series (as defined in “*Summary of the Programme*”) of Notes in bearer form will be represented on issue by a temporary global note in bearer form (each a “*temporary Global Note*”) or a permanent global note in bearer form (each a “*permanent Global Note*”). Notes in registered form will be represented by registered certificates (each a “*Certificate*”), one Certificate being issued in respect of each Noteholder's entire holding of Notes in registered form of one Series, save as provided in the Terms and Conditions of the Notes (the “*Conditions*”). Global Notes and Global Certificates (as defined in “*Summary of the Programme*”) may be deposited on the issue date with a common depository on behalf of Euroclear Bank SA/NV (“*Euroclear*”) and Clearstream Banking S.A. Until the expiration of 40 days after the later of the commencement of the offering of a Tranche (as defined herein) of a Series (as defined herein) and the issue date thereof, beneficial interests in a Global Note may only be held through Euroclear, Clearstream, Luxembourg or the CMU Service.

No person has been authorised to give any information or to make any representation other than those contained in this Offering Circular in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by Wheelock, WKFL, WKBVI or any of the Dealers or the Arranger (as defined in “*Summary of the Programme*”). Neither the delivery of this Offering Circular or any Pricing Supplement nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of Wheelock, WKFL, WKBVI or the Group since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented or that there has been no adverse change in the financial position of Wheelock, WKFL or WKBVI since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Each Tranche (as defined in “*Summary of the Programme*”) of Notes will be issued on the terms set out herein under “*Terms and Conditions of the Notes*” as amended and/or supplemented by a Pricing Supplement. This Offering Circular must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein (see “*Documents Incorporated by Reference*”) and, in relation to any tranche of Notes, must be read and construed together with the relevant Pricing Supplement. This Offering Circular shall be read and construed on the basis that such documents are incorporated in and form part of this Offering Circular.

The distribution of this Offering Circular and any Pricing Supplement and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Offering Circular comes are required by Wheelock, WKFL, WKBVI, the Dealers and the Arranger to inform themselves about and to observe any such restriction. The Notes and the Guarantee have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may include Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or, in the case of bearer notes, delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act). For a description of certain restrictions on offers, sales and transfers of Notes and on the distribution of this Offering Circular and any Pricing Supplement, see “*Subscription and Sale*”.

Singapore SFA Product Classification: In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the “*SFA*”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “*CMP Regulations 2018*”), unless otherwise specified before an offer of Notes, each of the Issuers has determined, and hereby notifies all relevant persons

(as defined in Section 309(A)(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

MiFID II product governance/target market — The Pricing Supplement in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “*distributor*”) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, “*MiFID II*”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “*MiFID Product Governance Rules*”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

PRIIPs REGULATION — EEA AND UK RETAIL INVESTORS — If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA and UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “*EEA*”) or in the United Kingdom (the “*UK*”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (“*Insurance Distribution Directive*”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “*Prospectus Regulation*”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “*PRIIPs Regulation*”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

The Programme allows for the issuance of Notes that reference the London Interbank offered rate (“*LIBOR*”), in particular with respect to certain floating rate Notes where the Reference Rate (as defined in the Conditions) may be LIBOR. The relevant Pricing Supplement for each Series (as defined in “*Summary of the Programme*”) of Notes will specify whether LIBOR is applicable. The UK Financial Conduct Authority has announced that after 2021 it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark and that the continuation of LIBOR on the current basis could not and would not be guaranteed after 2021 by the UK Financial Conduct Authority. The Conditions contain fallback provisions in the event that LIBOR rates are not available, however the potential elimination of the LIBOR benchmark, or changes in the manner in which the LIBOR benchmark is administered, could result in discrepancies in the rates calculated according to the Conditions and those based on any substitute or alternate benchmark that has become the market standard by or after 2021. Any such consequence could have a material adverse effect on the value and marketability of, and return on, any Notes linked to LIBOR.

THE NOTES AND THE GUARANTEE HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAS ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE

MERITS OF THE OFFERING OF NOTES OR THE ACCURACY OR THE ADEQUACY OF THIS OFFERING CIRCULAR. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

This Offering Circular or any Pricing Supplement does not constitute an offer of, or an invitation by or on behalf of Wheelock, WKFL, WKBVI, the Dealers or the Arranger (or any of their respective affiliates, directors, officers, employees, representatives, advisers, agents and each person who controls any of them) to subscribe for, or purchase, any Notes.

This Offering Circular includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purposes of giving information with regard to each Issuer and the Guarantor. Wheelock, WKFL and WKBVI accept full responsibility for the accuracy of the information contained in this Offering Circular and confirm, having made all reasonable enquiries, that to the best of each of their knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

Admission to the Hong Kong Stock Exchange and quotation of any Notes on the Hong Kong Stock Exchange is not to be taken as an indication of the merits of the Programme, the Notes, the Issuers, the Guarantor or the Group. In making an investment decision, investors must rely on their own examination of the Issuers, the Guarantor, the Group and the terms of the offering, including the merits and risks involved. Please see “*Risk Factors*” for a discussion of certain factors to be considered in connection with an investment in Notes.

This Offering Circular does not describe all of the risks and investment considerations (including those relating to each investor’s particular circumstances) of an investment in Notes of a particular Tranche. Each potential purchaser of Notes should refer to and consider carefully the relevant Pricing Supplement for each particular Tranche of Notes, which may describe additional risks and investment considerations associated with such Notes. The risks and investment considerations identified in this Offering Circular and the applicable Pricing Supplement are provided as general information only. Investors should consult their own financial and legal advisers as to the risks and investment considerations arising from an investment in an issue of Notes and should possess the appropriate resources to analyse such investment and the suitability of such investment in their particular circumstances. Each person receiving this Offering Circular acknowledges that such person has not relied on the Issuers, the Guarantor, the Arranger, the Dealers or the Agents (as defined below) or their respective affiliates, directors, officers, employees, representatives, advisers, agents or any person who controls any of them in connection with its investigation of the accuracy of such information or its investment decision.

None of the Dealers or the Arranger has separately verified the information contained in this Offering Circular. To the fullest extent permitted by law, none of the Dealers, the Arranger, the Agents nor their respective affiliates, directors, officers, employees, agents, representatives or advisers, accepts any responsibility for the contents of this Offering Circular or for any other statement in connection with the issue and offering of the Notes made or purported to be made by the Arranger or a Dealer or on its behalf. The Arranger and each Dealer accordingly disclaim all and any liability whether arising in tort or contract or otherwise which it might otherwise have in respect of this Offering Circular or any such statement. Neither this Offering Circular nor any other information provided in connection with the Programme is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of Wheelock, WKFL, WKBVI, the Arranger, the Dealers or the Agents nor their respective affiliates, directors, officers, employees, agents, representatives or advisers that any recipient, of this Offering Circular or of any such information, should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Offering Circular and its purchase of Notes should be based upon such investigation as it deems necessary. None of the

Dealers, the Arranger, the Agents nor their respective affiliates, directors, officers, employees, agents, representatives or advisers undertakes to review the financial condition or affairs of Wheelock, WKFL or WKBVI during the life of the arrangements contemplated by this Offering Circular nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers, the Arranger, the Agents or their respective affiliates, directors, officers, employees, agents, representatives or advisers.

In connection with any Tranche of Notes, the Dealer or Dealers (if any) named as the stabilisation manager(s) in the applicable Pricing Supplement (the “*Stabilisation Manager(s)*”) or any person acting on behalf of the Stabilisation Manager(s) may, to the extent permitted by applicable laws and directives, over-allot the Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager(s) (or any person acting on behalf of the Stabilisation Manager(s)) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

In this Offering Circular, unless otherwise specified or the context otherwise requires, references to “*GFA*” are to gross floor area, to “*TEU*” are to a twenty-foot equivalent unit, to “*Hong Kong*” or “*Hong Kong SAR*” are to the Hong Kong Special Administrative Region of the People’s Republic of China, to “*PRC*”, “*Mainland China*” or “*China*” are to the People’s Republic of China (for the purposes of this Offering Circular only, excluding Hong Kong, the Macau Special Administrative Region of the People’s Republic of China and Taiwan), to “*U.S.*” or “*United States*” are to the United States of America, to “*HK\$*” and “*HKD*” are to the lawful currency of Hong Kong, to “*CNY*”, “*Renminbi*” or “*RMB*” are to the lawful currency of the People’s Republic of China, to “*S\$*” are to the lawful currency of Singapore, to “*yen*” or “*JPY*” are to the lawful currency of Japan, to “*U.S.\$*”, “*U.S. dollar*” and “*USD*” are to the lawful currency of the United States, to “*sterling*” or “*£*” are to the currency of the United Kingdom and to “*euro*” or “*€*” are to the lawful currency of member states of the European Union (the “*EU*”) that adopt the single currency introduced in accordance with the Treaty on the Functioning of the European Union, as amended from time to time.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion and amendment and as supplemented or varied in accordance with the provisions of the relevant Pricing Supplement, shall be applicable to the Notes in definitive form (if any) issued in exchange for the Global Note(s) representing each Series. Either (i) the full text of these terms and conditions together with the relevant provisions of the Pricing Supplement or (ii) these terms and conditions as so completed, amended, supplemented or varied (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on such Bearer Notes or on the Certificates relating to such Registered Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Pricing Supplement. Those definitions will be endorsed on the definitive Notes or Certificates, as the case may be. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme and to “hereon” are to the relevant Pricing Supplement.

This Note is one of a series (“**Series**”) of Notes issued by Wheelock Finance Limited (“**WKFL**”) or Wheelock MTN (BVI) Limited (“**WKBVI**”) (each, in relation to Notes issued by it, the “**Issuer**”) pursuant to the Agency Agreement (as defined below). The Notes will be guaranteed by Wheelock and Company Limited (“**Wheelock**” or the “**Guarantor**”).

The Notes are issued pursuant to an amended and restated agency agreement dated 19 October 2020 (as may be further amended, supplemented, replaced and/or restated from time to time, the “**Agency Agreement**”) between Wheelock, WKFL, WKBVI, Deutsche Bank Aktiengesellschaft, Hong Kong Branch as fiscal agent, Deutsche Bank Aktiengesellschaft, Hong Kong Branch as lodging agent for Notes to be held in the Central Moneymarkets Unit Service operated by the Hong Kong Monetary Authority (the “**CMU Service**”), Deutsche Bank Aktiengesellschaft, Hong Kong Branch as registrar and the other agents named in it and with the benefit of an amended and restated deed of covenant dated 19 October 2020 (as may be further amended, supplemented, replaced and/or restated from time to time, the “**Deed of Covenant**”) executed by Wheelock, WKFL and WKBVI in relation to the Notes. The fiscal agent, the CMU lodging agent, the paying agents, the registrar, the transfer agents and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**CMU Lodging Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent and the CMU Lodging Agent), the “**Registrar**”, the “**Transfer Agents**” and the “**Calculation Agent(s)**”. For the purposes of these Conditions, all references to the Fiscal Agent shall, with respect to a Series of Notes to be held in the CMU Service, be deemed to be a reference to the CMU Lodging Agent and all such references shall be construed accordingly. The Noteholders (as defined below), the holders of the interest coupons (the “**Coupons**”) relating to interest bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the “**Talons**”) (the “**Couponholders**”) and the holders of the receipts for the payment of instalments of principal (the “**Receipts**”) relating to Notes in bearer form of which the principal is payable in instalments are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

As used in these Conditions, “**Tranche**” means Notes which are identical in all respects.

Copies of the Agency Agreement and the Deed of Covenant are available for inspection during usual business hours at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents.

1 Form, Denomination and Title

The Notes are issued in bearer form (“**Bearer Notes**”, which expression includes Notes that are specified to be Exchangeable Bearer Notes), in registered form (“**Registered Notes**”) or in bearer form exchangeable for Registered Notes (“**Exchangeable Bearer Notes**”) in each case in the Specified Denomination(s) shown hereon.

All Registered Notes shall have the same Specified Denomination. Where Exchangeable Bearer Notes are issued, the Registered Notes for which they are exchangeable shall have the same Specified Denomination as the lowest denomination of Exchangeable Bearer Notes.

This Note is a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note, an Index Linked Redemption Note, an Instalment Note, a Dual Currency Note or a Partly Paid Note, a combination of any of the foregoing or any other kind of Note, depending upon the Interest and Redemption/Payment Basis shown hereon.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

Registered Notes are represented by registered certificates (“**Certificates**”) and, save as provided in Condition 2(c), each Certificate shall represent the entire holding of Registered Notes by the same holder.

Title to the Bearer Notes and the Receipts, Coupons and Talons shall pass by delivery. Title to the Registered Notes shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In these Conditions, “**Noteholder**” means the bearer of any Bearer Note and the Receipts relating to it or the person in whose name a Registered Note is registered (as the case may be), “**holder**” (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Bearer Note, Receipt, Coupon or Talon or the person in whose name a Registered Note is registered (as the case may be) and capitalised terms have the meanings given to them hereon, the absence of any such meaning indicating that such term is not applicable to the Notes.

2 Exchanges of Exchangeable Bearer Notes and Transfers of Registered Notes

(a) *Exchange of Exchangeable Bearer Notes*

Subject as provided in Condition 2(f), Exchangeable Bearer Notes may be exchanged for the same nominal amount of Registered Notes at the request in writing of the relevant Noteholder and upon surrender of each Exchangeable Bearer Note to be exchanged, together with all unmatured Receipts, Coupons and Talons relating to it, at the specified office of any Transfer Agent; provided, however, that where an Exchangeable Bearer Note is surrendered for exchange after the Record Date (as defined in Condition 7(b)) for any payment of interest, the Coupon in respect of that payment of interest need not be surrendered with it. Registered Notes may not be exchanged for Bearer Notes. Bearer Notes of one Specified Denomination may not be exchanged for Bearer Notes of another Specified Denomination. Bearer Notes that are not Exchangeable Bearer Notes may not be exchanged for Registered Notes.

(b) ***Transfer of Registered Notes***

One or more Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate, (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. All transfers of Notes and entries on the Register will be made subject to the detailed regulations concerning transfers of Notes (“**Regulations**”), the initial form of which is scheduled to the Agency Agreement. The Regulations may be changed by the Issuer, with the prior written approval of the Registrar and the Noteholders. A copy of the current Regulations will be made available by the Registrar to any Noteholder upon request.

(c) **Exercise of Options or Partial Redemption in Respect of Registered Notes**

In the case of an exercise of an Issuer’s or Noteholders’ option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(d) **Delivery of New Certificates**

Each new Certificate to be issued pursuant to Conditions 2(a), (b) or (c) shall be available for delivery within three business days of receipt of the request for exchange, form of transfer or Exercise Notice (as defined in Condition 6(e)) and surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such request for exchange, form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent (as defined in the Agency Agreement) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d), “**business day**” means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

(e) ***Exchange Free of Charge***

Exchange and transfer of Notes and Certificates on registration, transfer, partial redemption or exercise of an option shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require).

(f) ***Closed Periods***

No Noteholder may require the transfer of a Registered Note to be registered or an Exchangeable Bearer Note to be exchanged for one or more Registered Note(s) (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note, (ii) during the period of 15 days before any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 6(d), (iii) after any such Note has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date. An Exchangeable Bearer Note called for redemption may, however, be exchanged for one or more Registered Note(s) in respect of which the Certificate is simultaneously surrendered not later than the relevant Record Date.

3 Guarantee and Status

(a) ***Guarantee***

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by WKFL and WKBVI under the Notes, Receipts and Coupons. Its obligations in that respect (the “*Guarantee*”) are contained in the Deed of Covenant.

(b) ***Status of Notes and Guarantee***

The Notes and the Receipts and Coupons relating to them constitute (subject to Condition 4) unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligations of the Issuer under the Notes and the Receipts and Coupons relating to them and of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Issuer and, as the case may be, the Guarantor, present and future.

(a) ***Negative Pledge***

The Issuer agrees, and the Guarantor has agreed in the Guarantee, that so long as any of the Notes remains outstanding neither the Issuer, the Guarantor nor any Principal Subsidiary (as defined in Condition 10) will create or permit to arise or subsist or have outstanding any encumbrance on or over its present or future assets or revenues to secure the repayment or payment of principal, premium or interest of or on any Securities or to secure any guarantee, indemnity or surety given in respect of the repayment or payment of principal, premium or interest of or on any Securities without at the same time or previously either securing the Notes equally and rateably therewith or providing for the Notes such other security as shall have been approved for the purposes by an Extraordinary Resolution (as defined in the Agency Agreement) of the Noteholders.

(b) ***Financial Statements***

So long as any Note or Coupon remains outstanding, each of the Issuers and the Guarantor (as the case may be) shall:

- (ii) provide the Noteholders (at the discretion of the Guarantor) with a copy of its Annual Audited Financial Statements and Semi-Annual Unaudited Financial Statements (if any) upon written request and satisfactory proof of holding,

in each case as soon as they are available, but in any event within 120 calendar days (in the case of its Semi-Annual Unaudited Financial Statements) and 180 calendar days (in the case of its Annual Audited Financial Statements) after the end of the relevant period.

Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 5(h). Such Interest Payment Date(s) is/are either shown hereon as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown hereon, Interest Payment Date shall mean each date which falls the number of months or other period shown hereon as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(ii) *Business Day Convention*

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Notes*

The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified hereon and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified hereon.

(A) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “ISDA Rate” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified hereon;
- (y) the Designated Maturity is a period specified hereon; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified hereon.

For the purposes of this sub-paragraph (A), “*Floating Rate*”, “*Calculation Agent*”, “*Floating Rate Option*”, “*Designated Maturity*”, “*Reset Date*” and “*Swap Transaction*” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

- (x) Where Screen Rate Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR, or Hong Kong time in the case of HIBOR) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified hereon as being other than LIBOR or EURIBOR or HIBOR, the Rate of Interest in respect of such Notes will be determined as provided hereon.

- (y) if the Relevant Screen Page is not available or, if sub-paragraph (x)(1) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (x)(2) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, if the Reference Rate is HIBOR, the principal Hong Kong office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11:00 a.m. (London time), or if the Reference Rate is EURIBOR, at approximately 11:00 a.m. (Brussels time), or if the Reference Rate is HIBOR, at approximately 11:00 a.m. (Hong Kong time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (z) if paragraph (y) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11:00 a.m., London time or, if the Reference Rate is EURIBOR, at approximately 11:00 a.m., Brussels time or, if the Reference Rate is HIBOR, at approximately 11:00 a.m., Hong Kong time

on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if the Reference Rate is HIBOR, the Hong Kong inter-bank market, as the case may be or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11:00 a.m., London time or, if the Reference Rate is EURIBOR, at approximately 11:00 a.m., Brussels time or, if the Reference Rate is HIBOR, at approximately 11:00 a.m., Hong Kong time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if the Reference Rate is HIBOR, the Hong Kong inter-bank market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

(iv) *Rate of Interest for Index Linked Interest Notes*

The Rate of Interest in respect of Index Linked Interest Notes for each Interest Accrual Period shall be determined in the manner specified hereon and interest will accrue by reference to an Index or Formula as specified hereon.

(c) *Zero Coupon Notes*

Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(b)(i)).

(d) *Dual Currency Notes*

In the case of Dual Currency Notes, if the rate or amount of interest falls to be determined by reference to a Rate of Exchange or a method of calculating a Rate of Exchange, the rate or amount of interest payable shall be determined in the manner specified hereon.

(e) *Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified hereon.

(f) ***Accrual of Interest***

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8).

(g) ***Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts and Rounding***

- (i) If any Margin is specified hereon (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (b) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified hereon, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes, “*unit*” means the lowest amount of such currency that is available as legal tender in the country of such currency.

(h) ***Calculations***

The amount of interest payable per Calculation Amount in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount specified hereon, and the Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.

(i) ***Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Instalment Amounts***

The Calculation Agent, shall, as soon as practicable on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, determine such rate and calculate the Interest Amounts for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Accrual Period and the relevant Interest

Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

6 Redemption, Purchase and Options

(a) *Redemption by Instalments and Final Redemption*

- (i) Unless previously redeemed, purchased and cancelled as provided in this Condition 6, each Note that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified hereon. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (ii) Unless previously redeemed, purchased and cancelled as provided below, each Note shall be finally redeemed on the Maturity Date specified hereon at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount) or, in the case of a Note falling within paragraph (i) above, its final Instalment Amount.

(b) *Early Redemption*

(i) *Zero Coupon Notes*

- (A) The Early Redemption Amount payable in respect of any Zero Coupon Note, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 10 shall be the Amortised Face Amount (calculated as provided below) of such Note unless otherwise specified hereon.
- (B) Subject to the provisions of sub-paragraph (C) below, the Amortised Face Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown hereon, shall be such rate as would produce an Amortised Face Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 10 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Note becomes due and payable were the Relevant Date. The calculation of the Amortised Face Amount in accordance with this sub-paragraph shall continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 5(c).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown hereon.

(ii) *Other Notes*

The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 10, shall be the Final Redemption Amount unless otherwise specified hereon.

(c) *Redemption for Taxation Reasons*

The Notes may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date (if this Note is either a Floating Rate Note or an Index Linked Note) or, at any time, (if this Note is neither a Floating Rate Note nor an Index Linked Note), on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (as described in Condition 6(b) above) (together with interest accrued to the date fixed for redemption), if (i) the Issuer or the Guarantor has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of Hong Kong (in the case of payment by Wheelock or WKFL) or the British Virgin Islands (in the case of payment by WKBVI) or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional amounts were a payment in respect of the Notes (or the Guarantee, as the case may be) then due. Before the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Fiscal Agent a certificate signed by any one Director of the Issuer (or the Guarantor, as the case may be) stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such additional amounts as a result of such change or amendment.

(d) *Redemption at the Option of the Issuer*

If Call Option is specified hereon, the Issuer may, on giving not less than 15 nor more than 30 days' irrevocable notice to the Noteholders (or such other notice period as may be specified hereon) redeem, all or, if so provided, some, of the Notes on any Optional Redemption Date. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption. Any such redemption must relate to Notes of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed specified hereon and no greater than the Maximum Redemption Amount to be redeemed specified hereon.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption, the notice to Noteholders shall also contain the certificate numbers of the Bearer Notes, or in the case of Registered Notes shall specify the nominal amount of Registered Notes drawn and the holder(s) of such Registered Notes, to be redeemed, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances as determined by the Issuer, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange or other relevant authority requirements.

(e) *Redemption at the Option of Noteholders*

If Put Option is specified hereon, the Issuer shall, at the option of the holder of any such Note, upon the holder of such Note giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified hereon) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option the holder must deposit (in the case of Bearer Notes) such Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Certificate representing such Note(s) with the Registrar or any Transfer Agent at its specified office, together with a duly completed option exercise notice (“***Exercise Notice***”) in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) within the notice period. No Note or Certificate so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

(f) ***Partly Paid Notes***

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the provisions specified hereon.

(g) ***Purchases***

The Issuer, the Guarantor and any of their respective subsidiaries may at any time purchase Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price.

(h) ***Cancellation***

All Notes purchased by or on behalf of the Issuer, the Guarantor or any of their respective subsidiaries may be surrendered for cancellation, in the case of Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to the Fiscal Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar and, in each case, if so surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer and the Guarantor in respect of any such Notes shall be discharged.

7 Payments and Talons

(a) ***Bearer Notes***

(i) ***Bearer Notes not held in the CMU Service***

Payments of principal and interest in respect of Bearer Notes not held in the CMU Service shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relative Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be:

- A. in the case of a currency other than Renminbi, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with, a Bank; and
- B. in the case of Renminbi, by transfer to a Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong.

In this Condition 7, “**Bank**” means a bank in the principal financial centre for such currency (and which if the currency is Australian dollars or New Zealand dollars shall be Melbourne or Wellington, respectively) or, in the case of euro, in a city in which banks have access to the TARGET System.

(ii) *Bearer Notes held in the CMU Service*

Payments of principal and interest in respect of Bearer Notes held in the CMU Service will be made to the person(s) for whose account(s) interests in the relevant Bearer Note are credited as being held with the CMU Service in accordance with the CMU Rules (as defined in the Agency Agreement) at the relevant time as notified to the CMU Lodging Agent by the CMU Service in a relevant CMU Instrument Position Report (as defined in Agency Agreement) or any other relevant notification by the CMU Service, which notification shall be conclusive evidence of the records of the CMU Service (save in the case of manifest error) and payment made in accordance thereof shall discharge the obligations of the Issuer or, as the case may be, the Guarantor in respect of that payment.

(b) **Registered Notes**

(i) *Registered Notes not held in the CMU Service*

- A. Payments of principal (which for the purposes of this Condition 7(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes shall be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar and in the manner provided in paragraph (B) below.
- B. Interest (which for the purpose of this Condition 7(b) shall include all Instalment Amounts other than final Instalment Amounts) on Registered Notes shall be paid to the person shown on the Register at the close of business (i) on the fifteenth day before the due date for payment thereof or (ii) in the case of Renminbi, on the fifth day before the due date for payment thereof (in each case, the “**Record Date**”). Payments of interest on each Registered Note shall be made:
 - (x) in the case of a currency other than Renminbi, in the relevant currency by cheque drawn on a Bank and mailed to the holder (or to the first-named of joint holders) of such Note at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment of interest may be made by transfer to an account in the relevant currency maintained by the payee with a Bank; and
 - (y) in the case of Renminbi, by transfer to the registered account of the Noteholder.

In this Condition 7(b), “**registered account**” means the Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong, details of which appear on the Register at the close of business on the fifth business day before the due date for payment.

(ii) *Registered Notes held in the CMU Service*

Payments of principal and interest in respect of Registered Notes held in the CMU Service will be made to the person(s) for whose account(s) interests in the relevant Registered Note are credited as being held with the CMU Service in accordance with the CMU Rules (as defined in the Agency Agreement) at the relevant time as notified to the CMU Lodging and Paying Agent by the CMU Service in a relevant CMU Instrument Position Report (as defined in the Agency Agreement) or any

other relevant notification by the CMU Service, which notification shall be conclusive evidence of the records of the CMU Service (save in the case of manifest error) and payment made in accordance thereof shall discharge the obligations of the Issuer or, as the case may be, the Guarantors in respect of that payment.

(c) ***Payments in the United States***

Notwithstanding the foregoing, if any Bearer Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

(d) ***Payments Subject to Fiscal Laws***

Save as provided in Condition 8, payments will be subject in all cases to any other applicable fiscal and other laws and regulations in the place of payment or other laws and regulations to which the Issuer or the Guarantor or any of the Agents agree to be subject and neither the Issuer nor the Guarantor will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations or agreements. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.

(e) ***Appointment of Agents***

The Fiscal Agent, the CMU Lodging Agent, the Paying Agents, the Registrar, the Transfer Agents and the Calculation Agent initially appointed by the Issuer and the Guarantor and their respective specified offices are listed below. The Fiscal Agent, the CMU Lodging Agent, the Paying Agents, the Registrar, Transfer Agents and the Calculation Agent(s) act solely as agents of the Issuer and the Guarantor and do not assume any obligation or relationship of agency or trust for or with any Noteholder or Couponholder. The Issuer and the Guarantor reserve the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Registrar, any Transfer Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents or Transfer Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) a Registrar in relation to Registered Notes, (iii) a Transfer Agent in relation to Registered Notes, (iv) a CMU Lodging Agent in relation to Notes accepted for clearance through the CMU Service, (v) one or more Calculation Agent(s) where the Conditions so require and (vi) such other agents as may be required by any stock exchange on which the Notes may be listed.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent in New York City in respect of any Bearer Notes denominated in U.S. dollars in the circumstances described in paragraph (c) above.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders.

(f) *Unmatured Coupons and Receipts and unexchanged Talons*

- (i) Upon the due date for redemption of Bearer Notes which comprise Fixed Rate Notes (other than Dual Currency Notes or Index linked Notes), the Notes should be surrendered for payment together with all unmatured Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unmatured Coupon that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).
- (ii) Upon the due date for redemption of any Bearer Note comprising a Floating Rate Note, Dual Currency Note or Index Linked Note, unmatured Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Upon the due date for redemption of any Bearer Note that is redeemable in instalments, all Receipts relating to such Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) Where any Bearer Note that provides that the relative unmatured Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons, and where any Bearer Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (vi) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Bearer Note or Certificate representing it, as the case may be. Interest accrued on a Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note or Certificate representing it, as the case may be.

(g) *Talons*

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9).

(h) ***Non-Business Days***

If any date for payment in respect of any Note, Receipt or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “***business day***” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the relevant place of presentation, in such jurisdictions as shall be specified as “***Financial Centres***” hereon and:

- (i) (in the case of a payment in a currency other than euro and Renminbi) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency and which if the currency is Australian dollars or New Zealand dollars shall be Melbourne or Wellington, respectively; or
- (ii) (in the case of a payment in euro) which is a TARGET Business Day; or
- (iii) (in the case of a payment in Renminbi) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in Hong Kong.

8 Taxation

All payments of principal and interest by or on behalf of the Issuer or the Guarantor in respect of the Notes, the Receipts and the Coupons or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Hong Kong or the British Virgin Islands, as the case may be, or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer or, as the case may be, the Guarantor shall pay such additional amounts as shall result in receipt by the Noteholders and the Couponholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) **Other connection:** to, or to a third party on behalf of, a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his having some connection with Hong Kong, other than the mere holding of the Note, Receipt or Coupon; or
- (b) **Declaration of non-residence:** to, or to a third party on behalf of, a holder of such Note, Receipt or Coupon to the extent such holder would not be liable for or subject to such deduction or withholding by making a declaration of non-residence or other similar claim for exemption or reduction to the relevant tax authority or under an applicable tax treaty or otherwise if, after having been requested to make such a declaration or claim, such holder fails to do so (provided, however, that, in the case of a Bearer Note, such holder may not be required to make such a declaration or claim in a form which reveals the identity of such holder to the relevant tax authority); or
- (c) **Presentation more than 30 days after the Relevant Date:** presented (or in respect of which the Certificate representing it is presented) for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such additional amounts on presenting it for payment on the thirtieth such day.

As used in these Conditions, “**Relevant Date**” in respect of any Note, Receipt or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note (or relative Certificate), Receipt or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any additional amounts that may be payable under this Condition.

9 Prescription

Claims against the Issuer and/or the Guarantor for payment in respect of the Notes, Receipts and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

10 Events of Default

If any of the following events (“**Events of Default**”) occurs and is continuing, the holder of any Note may give written notice to the Fiscal Agent at its specified office that such Note is immediately repayable, whereupon the Early Redemption Amount of such Note together with accrued interest (if applicable) to the date of payment shall become immediately due and payable, unless such event of default shall have been remedied prior to the receipt of such notice by the Fiscal Agent:

- (a) **Non-Payment:** there is a failure to pay the principal of or any interest on any of the Notes when due and such failure continues for a period of seven days in the case of principal and 14 days in the case of interest; or
- (b) **Breach of Other Obligations:** the Issuer or the Guarantor does not perform or comply with any one or more of its other obligations in the Notes which default is incapable of remedy or, is not remedied within 30 days after notice of such default shall have been given to the Fiscal Agent at its specified office by any Noteholder; or
- (c) **Cross-Default:** (i) any other present or future indebtedness of the Issuer or the Guarantor or any of the Principal Subsidiaries (as defined herein) for or in respect of moneys borrowed or raised becomes (or becomes capable of being declared) due and payable prior to its stated maturity by reason of any default, event of default or the like (howsoever described), or (ii) any such indebtedness is not paid when due or, as the case may be, within any originally applicable grace period, or (iii) the Issuer or the Guarantor or any of the Principal Subsidiaries fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of any moneys borrowed or raised, provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events mentioned above in this paragraph (c) have occurred equals or exceeds U.S.\$50,000,000 or its equivalent (on the basis of the middle spot rate for the relevant currency against the U.S. dollar as quoted by any leading bank on the day on which this paragraph operates); or

- (d) **Enforcement Proceedings:** a distress, attachment, execution or other legal process is levied, enforced or sued out on or against a material part of the property, assets or revenues of the Issuer or the Guarantor or any of the Principal Subsidiaries and is not discharged or stayed within 30 days; or
- (e) **Security Enforced:** any mortgage, charge, pledge lien or other encumbrance, present or future, created or assumed by the Issuer or the Guarantor or any of the Principal Subsidiaries becomes enforceable and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, manager or other similar person); or
- (f) **Insolvency:** the Issuer or the Guarantor or any of the Principal Subsidiaries is (or is, or could be, deemed by law or a court to be) insolvent or bankrupt or unable to pay its debts, stops, suspends or threatens to stop or suspend payment of all or a material part of (or of a particular type of) its debts, proposes or makes a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any part of (or of a particular type of) the debts of the Issuer, the Guarantor or any of the Principal Subsidiaries; or
- (g) **Winding-up:** an order is made in Hong Kong, the British Virgin Islands or such other relevant jurisdiction, as the case may be, where any Principal Subsidiary is located or an effective resolution passed for the winding-up or dissolution of the Issuer or the Guarantor or any of the Principal Subsidiaries, or the Issuer or the Guarantor ceases or threatens to cease to carry on all or substantially all of its business or operations, except for the purpose of and followed by a reconstruction, amalgamation, reorganisation, merger or consolidation (i) on terms approved by an Extraordinary Resolution (as defined in the Agency Agreement) of the Noteholders or (ii) in the case of a Principal Subsidiary, whereby the undertaking and assets of the Principal Subsidiary are transferred to or otherwise vested in the Issuer or the Guarantor (as the case may be) or another of the Principal Subsidiaries; or
- (h) **Nationalisation:** any step is taken by any person with a view to the seizure, compulsory acquisition, expropriation or nationalisation of all or a material part of the assets of the Issuer, the Guarantor or any of the Principal Subsidiaries; or

- (l) **Analogous Events:** any event occurs that under the laws of any relevant jurisdiction has an analogous effect to any of the events referred to in any of the foregoing paragraphs; or
- (m) **Guarantee:** in the case of Notes issued by WKFL or WKBVI, the Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect,

For the purposes of this Condition 10:

- (ii) to which is transferred the whole or substantially the whole of the assets and undertaking of a Subsidiary which immediately prior to such transfer is a Principal Subsidiary,

and for such purpose, a certificate prepared by a director of Wheelock certifying that, in his/her opinion a Subsidiary is or is not or was or was not a Principal Subsidiary shall, in the absence of manifest error, be conclusive and binding on the Issuer, the Guarantor and the Noteholders; and

“Subsidiary” means a subsidiary of Wheelock; and **“subsidiary”** has the meaning given to it by Section 15 of the Companies Ordinance (Cap. 622) of Hong Kong.

11 Meeting of Noteholders and Modifications

(a) Meetings of Noteholders

The Agency Agreement contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Agency Agreement) of a modification of any of these Conditions. Such a meeting may be convened by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the nominal amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, inter alia, (i) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment of interest or Interest Amounts on the Notes, (ii) to reduce or cancel the nominal amount of, or any Instalment Amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount in respect of the Notes, (iv) if a Minimum and/or a Maximum Rate of Interest, Instalment Amount or Redemption Amount is shown hereon, to reduce any such Minimum and/or Maximum, (v) to vary any method of, or basis for, calculating the Final Redemption Amount, the Early Redemption Amount or the Optional Redemption Amount, including the method of calculating the Amortised Face Amount, (vi) to vary the currency or currencies of payment or denomination of the Notes or (vii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in nominal

amount of the Notes for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Noteholders (whether or not they were present at the meeting at which such resolution was passed), on all holders of Receipts and on all Couponholders.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the Noteholders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

(b) Modification of Agency Agreement

The relevant Issuer and the Guarantor shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

12 Replacement of Notes, Certificates, Receipts, Coupons and Talons

If a Note, Certificate, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Fiscal Agent (in the case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Note, Certificate, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

13 Further Issues

The Issuer may from time to time, without the consent of the Noteholders or Couponholders, create and issue further notes having the same terms and conditions as the Notes (so that, for the avoidance of doubt, references in these Conditions to “**Issue Date**” shall be to the first issue date of the Notes) and so that the same shall be consolidated and form a single series with such Notes, and references in these Conditions to “**Notes**” shall be construed accordingly.

14 Notices

Notices to the holders of Registered Notes shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. Notices to the holders of Bearer Notes shall be valid if published in a daily newspaper of general circulation in Hong Kong. If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Asia. The Issuer (failing whom, the Guarantor) shall also ensure that notices are duly

published in compliance with the requirements of each stock exchange or other relevant authority on which the Notes are for the time being listed. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition.

15 Currency Indemnity

Any amount received or recovered in a currency other than the currency in which payment under the relevant Note, Coupon or Receipt is due (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in the insolvency, winding-up or dissolution of the Issuer or the Guarantor or otherwise) by any Noteholder or Couponholder in respect of any sum expressed to be due to it from the Issuer or the Guarantor shall only constitute a discharge to the Issuer or the Guarantor, as the case may be, to the extent of the amount in the currency of payment under the relevant Note, Coupon or Receipt that the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If the amount received or recovered is less than the amount expressed to be due to the recipient under any Note, Coupon or Receipt, the Issuer, failing whom the Guarantor, shall indemnify it against any loss sustained by it as a result. In any event, the Issuer, failing whom the Guarantor, shall indemnify the recipient against the cost of making any such purchase. For the purposes of this Condition, it shall be sufficient for the Noteholder or Couponholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's and the Guarantor's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder or Couponholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note, Coupon or Receipt or any other judgment or order.

16 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

17 Governing Law and Jurisdiction

(a) *Governing Law*

The Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

(b) *Jurisdiction*

The courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons ("***Proceedings***") may be brought in such courts. Each of the Issuers and the Guarantor irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made

for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) *Service of Process*

Each of the Issuers and the Guarantor irrevocably appoints Law Debenture Corporate Services Limited of Fifth Floor, 100 Wood Street, London EC2V 7EX, United Kingdom as their agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not, it is forwarded to and received by the Issuers or the Guarantor). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, each of the Issuers and the Guarantor irrevocably agrees to appoint a substitute process agent and shall immediately notify Noteholders of such appointment in accordance with Condition 14. Nothing shall affect the right to serve process in any manner permitted by law.

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Initial Issue of Notes

Upon the initial deposit of a Global Note with a common depositary for Euroclear and Clearstream, Luxembourg (the “*Common Depositary*”) or a sub-custodian for the CMU Service or registration of Registered Notes in the name of (i) any nominee for Euroclear or Clearstream, Luxembourg (as the case may be) and/or (ii) the HKMA as operator of the CMU Service and delivery of the relevant Global Certificate to the Common Depositary or a sub-custodian for the CMU Service (as the case may be), the relevant clearing system will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

Notes that are initially deposited with the Common Depositary may also be credited to the accounts of subscribers with (if indicated in the relevant Pricing Supplement) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such other clearing systems. Conversely, Notes that are initially deposited with any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg or other clearing systems.

Relationship of Accountholders with Clearing Systems

Save as provided in the following paragraph, each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or any other clearing system as the holder of a Note represented by a Global Note or a Global Certificate must look solely to Euroclear, Clearstream, Luxembourg or such clearing system (as the case may be) for his share of each payment made by the Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes or Global Certificates, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg or such clearing system (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Note or Global Certificate and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

If a Global Note or a Global Certificate is lodged with a sub-custodian for or registered with the CMU Service, the person(s) for whose account(s) interests in such Global Note or Global Certificate are credited as being held in the CMU Service in accordance with the CMU Rules as notified by the CMU Service to the CMU Lodging Agent in a relevant CMU Instrument Position Report or any other relevant notification by the CMU Service (which notification, in either case, shall be conclusive evidence of the records of the CMU Service save in the case of manifest error) shall be the only person(s) entitled or in the case of Registered Notes, directed or deemed by the CMU Service as entitled to receive payments in respect of Notes represented by such Global Note or Global Certificate and the Issuer will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note or Global Certificate are credited as being held in the CMU Service in respect of each amount so paid. Each of the persons shown in the records of the CMU Service, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note or Global Certificate must look solely to the CMU Lodging Agent for his share of each payment so made by the Issuer or the Guarantor (as the case may be) in respect of such Global Note or Global Certificate.

Exchange

Temporary Global Notes

Each temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date:

- (i) if the relevant Pricing Supplement indicates that such Global Note is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see “*Summary of the Programme — Selling Restrictions*”), in whole, but not in part, for the Definitive Notes defined and described below; and
- (ii) otherwise, in whole or in part upon certification as to non-U.S. beneficial ownership (in the form set out in the Agency Agreement) for interests in a permanent Global Note or, if so provided in the relevant Pricing Supplement, for Definitive Notes.

The CMU Service may require that any such exchange for a permanent Global Note is made in whole and not in part and in such event, no such exchange will be effected until all relevant account holders (as set out in a CMU Instrument Position Report (as defined in the rules of the CMU Service) or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) have so certified.

Each temporary Global Note that is also an Exchangeable Bearer Note will be exchangeable for Registered Notes in accordance with the Conditions in addition to any permanent Global Note or Definitive Notes for which it may be exchangeable and, before its Exchange Date, will also be exchangeable in whole or in part for Registered Notes only.

Permanent Global Notes

Each permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under “*Partial Exchange of Permanent Global Notes*”, in part for Definitive Notes or, in the case of (i) below, Registered Notes:

- (i) if the permanent Global Note is an Exchangeable Bearer Note, by the holder giving notice to the Fiscal Agent of its election to exchange the whole or a part of such Global Note for Registered Notes; or
- (ii) (1) if the permanent Global Note is held on behalf of Euroclear or Clearstream, Luxembourg or the CMU Service or any other clearing system (an “*Alternative Clearing System*”) and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so or (2) if principal in respect of any Notes is not paid when due, by the holder giving notice to the Fiscal Agent (or, in the case of CMU Notes, the CMU Lodging Agent) of its election for such exchange.

Global Certificates

If the Pricing Supplement states that the Notes are to be represented by a Global Certificate on issue, the following will apply in respect of transfers of Notes held in Euroclear or Clearstream, Luxembourg, the CMU Service or an Alternative Clearing System. These provisions will not prevent the trading of interests in the Notes within a clearing system whilst they are held on behalf of such clearing system, but will limit the circumstances in which the Notes may be withdrawn from the relevant clearing system.

Transfers of the holding of Notes represented by any Global Certificate pursuant to Condition 2(b) may only be made in part:

- (i) if the relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or
- (ii) if principal in respect of any Notes is not paid when due; or
- (iii) with the prior consent of the Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to (i) or (ii) above, the Registered Holder has given the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer.

Partial Exchange of Permanent Global Notes

For so long as a permanent Global Note is held on behalf of a clearing system and the rules of that clearing system permit, such permanent Global Note will be exchangeable in part on one or more occasions (1) for Registered Notes if the permanent Global Note is an Exchangeable Bearer Note and the part submitted for exchange is to be exchanged for Registered Notes, or (2) for Definitive Notes (i) if principal in respect of any Notes is not paid when due or (ii) if so provided in, and in accordance with, the Conditions (which will be set out in the relevant Pricing Supplement) relating to Partly Paid Notes.

Delivery of Notes

On or after any due date for exchange the holder of a Global Note may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Fiscal Agent (or, in the case of CMU Notes, the CMU Lodging Agent). In exchange for any Global Note, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Note exchangeable for a permanent Global Note, deliver, or procure the delivery of, a permanent Global Note in an aggregate nominal amount equal to that of the whole or that part of a temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Note to reflect such exchange or (ii) in the case of a Global Note exchangeable for Definitive Notes or Registered Notes, deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Notes and/or Certificates, as the case may be. In this Offering Circular, “**Definitive Notes**” means, in relation to any Global Note, the definitive Bearer Notes for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Global Note and a Talon). Definitive Notes will be security printed and Certificates will be printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Agency Agreement. On exchange in full of each permanent Global Note, the Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

Exchange Date

“**Exchange Date**” means, in relation to a temporary Global Note, the day falling after the expiry of 40 days after its issue date and, in relation to a permanent Global Note, a day falling not less than 60 days, or in the case of an exchange for Registered Notes five days, or in the case of failure to pay principal in respect of any Notes when due 30 days, after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Fiscal Agent is located and in the city in which the relevant clearing system is located.

Amendment to Conditions

The temporary Global Notes, permanent Global Notes and Global Certificates contain provisions that apply to the Notes while they are in global form, some of which modify the effect of the terms and conditions of the Notes set out in this Offering Circular. The following is a summary of certain of those provisions:

Payments

No payment falling due after the Exchange Date will be made on any Global Note unless exchange for an interest in a permanent Global Note or for Definitive Notes or Registered Notes is improperly withheld or refused. Payments on any temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement. All payments in respect of Notes represented by a Global Note (except with respect to Global Note held through the CMU Service) will be made against presentation for endorsement and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Fiscal Agent or such other Paying Agent as shall have been notified to the Noteholders for such purpose. A record of each payment so made will be endorsed on each Global Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes.

In respect of a Global Note or a Global Certificate held through the CMU Service, any payments of principal, interest (if any) or any other amounts shall be made to the person(s) for whose account(s) interests in the relevant Global Note or Global Certificate are credited (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) at the close of business on the Clearing System Business Day immediately prior to the date for payment and, save in the case of final payment, no presentation of the relevant bearer Global Note or Global Certificate shall be required for such purpose.

All payments in respect of Notes represented by a Global Note or a Global Certificate (other than a Global Note or a Global Certificate held through the CMU Service) will be made to, or to the order of, the person whose name is entered in the Register at the close of business on the payment record date, being the Clearing System Business Day immediately prior to the date for payment, where “**Clearing System Business Day**” means Monday to Friday inclusive except 25 December and 1 January.

Payments of principal, interest (if any) or any other amounts on a Global Note or a Global Certificate will be calculated in respect of the total aggregate amount of the Notes represented by the Global Note or Global Certificate as the case may be.

Prescription

Claims against the Issuer and/or the Guarantor (as the case may be) in respect of Notes that are represented by a permanent Global Note will become void unless it is presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 8).

Meetings

The holder of a permanent Global Note or of the Notes represented by a Global Certificate shall (unless such permanent Global Note or Global Certificate represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, as having one vote in respect of each integral currency unit of the Specified Currency of the Notes.

Cancellation

Cancellation of any Note represented by a permanent Global Note or a Global Certificate that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the nominal amount of the relevant permanent Global Note or Global Certificate.

Purchase

Notes represented by a permanent Global Note or a Global Certificate may only be purchased by the relevant Issuer, the Guarantor or any of their respective subsidiaries if they are purchased together with the rights to receive all future payments of interest and Instalment Amounts (if any) thereon.

Issuer's Option

Any option of the Issuer provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Note or a Global Certificate shall be exercised by the Issuer giving notice to the Noteholders within the time limits set out in and containing the information required by the Conditions, except that the notice shall not be required to contain the serial numbers of Notes drawn in the case of a partial exercise of an option and accordingly no drawing of Notes shall be required. In the event that any option of the Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with a clearing system in respect of the Notes will be governed by the standard procedures of Euroclear, Clearstream, Luxembourg, the CMU Service or any other clearing system (as the case may be).

Noteholders' Options

Any option of the Noteholders provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Note may be exercised by the holder of the permanent Global Note giving notice to the Fiscal Agent (or, in the case of CMU Notes, the CMU Lodging Agent) within the time limits relating to the deposit of Notes with a Paying Agent set out in the Conditions substantially in the form of the notice available from any Paying Agent, except that the notice shall not be required to contain the serial numbers of the Notes in respect of which the option has been exercised, and stating the nominal amount of Notes in respect of which the option is exercised and at the same time presenting the permanent Global Note to the Fiscal Agent (or, in the case of CMU Notes, the CMU Lodging Agent), or to a Paying Agent acting on behalf of the Fiscal Agent, for notation.

Events of Default

Each Global Note or Global Certificate provides that the holder may cause such Global Note or Global Certificate, or a portion of it, to become due and repayable in the circumstances described in Condition 10 by stating in the notice to the Fiscal Agent the nominal amount of such Global Note or Global Certificate that is becoming due and repayable. If principal in respect of any Note is not paid when due, the holder of a Global Note or Registered Notes represented by a Global Certificate may elect for direct enforcement rights against the relevant Issuer and/or the Guarantor (as the case may be) under the terms of an amended and restated deed of covenant executed as a deed by Wheelock, WKFL and WKBVI on 19 October 2020 (and as may be further amended, supplemented, replaced and/or restated from time to time) to come into effect in relation to the whole or a part of such Global Note or one or more Registered Notes in favour of the persons entitled to such part of such Global Note or such Registered Notes, as the case may be, as accountholders with a clearing system. Following any such acquisition of direct rights, the Global Note or, as the case may be, the Global Certificate and the corresponding entry in the register kept

by the Registrar will become void as to the specified portion of Notes, as the case may be. However, no such election may be made in respect of Notes represented by a Global Certificate unless the transfer of the whole or a part of the holding of Notes represented by that Global Certificate shall have been improperly withheld or refused.

Notices

So long as any Notes are represented by a Global Note or a Global Certificate and such Global Note or such Global Certificate is held on behalf of (i) Euroclear and/or Clearstream, Luxembourg or any other clearing system (except as provided in (ii) and (iii) below), notices to the holders of Notes of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note or the Global Certificate or (ii) the CMU Service, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to the persons shown in a CMU Instrument Position Report issued by the CMU Service on the second business day preceding the date of despatch of such notice as holding interests in the relevant Global Note or Global Certificate.

Partly Paid Notes

The provisions relating to Partly Paid Notes are not set out in this Offering Circular, but will be contained in the relevant Pricing Supplement and thereby in the Global Notes. While any instalments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Global Note representing such Notes may be exchanged for an interest in a permanent Global Note or for Definitive Notes (as the case may be). If any Noteholder fails to pay any instalment due on any Partly Paid Notes within the time specified, the Issuer may forfeit such Notes and shall have no further obligation to their holder in respect of them.

Registered Notes

Registered Notes will initially be represented by interests in a Global Certificate, without interest coupons, deposited with a common depositary for, and registered in the name of a nominee of, Euroclear and Clearstream, Luxembourg or a sub-custodian for the CMU Service on its issue date. Any Global Certificate will bear a legend applicable to purchasers who purchase the Registered Notes pursuant to Regulation S.

RISK FACTORS

Prior to making any investment decision, prospective investors should consider carefully all of the information in this Offering Circular, including but not limited to the risks and uncertainties described below. The following factors are contingencies which may or may not occur and neither the Issuers, the Guarantor nor the Group are/is in a position to express a view on the likelihood of any such contingency occurring. Any of the risks or uncertainties described below, as well as additional risks or uncertainties, including those which are not currently known to the Issuers, the Guarantor or the Group or which the Issuers, the Guarantor or the Group currently deem/deems to be immaterial, may affect the Group's business, financial condition or results of operations or the relevant Issuers' and/or the Guarantor's ability to fulfil its respective obligations under the Notes (as the case may be).

Risks relating to the Issuers

WKFL and WKBVI are special purpose vehicles

WKFL and WKBVI were established specifically for the purpose of raising finance through the issuance of the Notes and will use the net proceeds from the issue of the Notes to on-lend to the Guarantor and/or its subsidiaries or associates for financing or re-financing the Group's investment property and development property, in Hong Kong and Mainland China, and for general corporate purposes unless otherwise specified in the relevant pricing supplement. As such, each of WKFL and WKBVI has limited assets as recourse for Noteholders. Each of WKFL and WKBVI does not and will not have any business activities other than raising finance, and its ability to make payments under the Notes will depend on its receipt of timely remittance of funds from the Guarantor and/or its subsidiaries and other members of the Group.

The insolvency laws of the British Virgin Islands may differ from bankruptcy law in jurisdictions with which the holders of the Notes are familiar. As WKBVI is incorporated under the laws of the British Virgin Islands, an insolvency proceeding relating to WKBVI may involve British Virgin Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of jurisdictions with which the holders of the Notes are familiar. As a result, Noteholders may not enjoy the same level of protection as may be available under the laws of other jurisdictions.

Risks relating to the Guarantor

The Guarantor is a holding company and has limited operations of its own

The Guarantor primarily operates through subsidiaries, associates and joint ventures. As a result, the Guarantor's obligations in respect of the Notes will be effectively subordinated to all existing and future obligations of its direct and indirect subsidiaries, associates and joint ventures (other than WKFL and WKBVI). All claims of creditors of these subsidiaries, associates and joint ventures, including trade creditors, lenders and all other creditors, will have priority as to the assets of such entities over claims of the Guarantor and its creditors, including Noteholders as beneficiaries of the Guarantee. Accordingly, the Guarantor depends, to a significant extent, upon the receipt of dividends from its subsidiaries, associates and joint ventures to make payments with respect to its obligations, including its obligations under the Guarantee, and in order to provide funds to its subsidiaries, associates and joint ventures. The ability of subsidiaries, associates and joint ventures of the Guarantor to pay dividends to their shareholders (including the Guarantor) is subject to the performance and cash flows requirements of such subsidiaries, associates and joint ventures and to applicable law and other restrictions. The ability of the Guarantor's subsidiaries in Mainland China to pay dividends and repay intercompany loans or advances is subject not only to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of the subsidiaries, applicable laws and restrictions, but also foreign exchange controls, see "*PRC Currency Controls*". These restrictions could reduce the payment amount or delay the timing of the payment that the Guarantor receives. No assurance can be given that the Guarantor will have sufficient cash flow from dividends to satisfy its obligations as Guarantor in respect of the Notes, or that its subsidiaries, associates and joint ventures will pay dividends at all.

The Group's revenue and results of operations may fluctuate from period to period

Part of the Group's revenue is derived from the sale of properties held for sale. The Group's results of operations may fluctuate in the future due to a combination of factors, including the overall development schedule of its property projects, the level of interest of properties by prospective customers, the proposed timing for completion and sale of the Group's developed properties, the Group's revenue recognition policies, property acquisition costs and price volatility in construction-related and development expenses. Most of the Group's commercial property projects require at least a year or more to complete the relevant works, whereas the Group's residential property projects require a few years to complete and are often undertaken in phases. Selling prices of developed properties are often higher closer to completion, due in part to the more established community available to prospective purchasers. Furthermore, according to the Group's accounting policy for revenue recognition, it recognises revenue from the sale of properties only upon completion of the relevant contracts of sale, which, in the case of pre-sold residential properties, would often be at the same time as the delivery of completed properties to purchasers. As such, even where a sale and purchase agreement has been entered into by the Group, the Group can only recognise revenue from such sale upon successful completion of that transaction. A time gap ranging from several months to a number of years may pass between the date on which the Group commences pre-sales of its residential properties and the date on which completed properties are delivered to purchasers.

Accordingly, the Group's results of operations may vary significantly from period to period depending, in part, on the GFA sold and the timetable for the completion and delivery of properties contracted for sale. Historically, periods in which the Group completed more of its GFA have often generated a higher level of revenue. Periods in which the Group sells or pre-sells a considerable amount of aggregate GFA, however, may not necessarily generate a higher level of revenue if such sold or pre-sold properties are not completed within the same period. The Group's results of operations are also affected by the limitation that during any particular period of time, it can only undertake a limited number of projects due to the substantial capital requirements for properties or land acquisitions, construction costs and the limited supply of appropriate buildings or land.

The Group reassesses the fair value of its investment properties as at each year end balance sheet date. Although fair value gains or losses do not change the Group's cash position as long as the relevant investment properties are held by the Group, any major or extended decline in property values may result in an accounting loss for the Group and hence increase the Group's gearing, which may constrain its ability to access additional financing in the future.

The results of the Group are recorded in Hong Kong dollars but its various subsidiaries, associates and joint ventures may receive revenue and incur expenses in other currencies, including Renminbi. Any currency fluctuations on translation of the accounts of these subsidiaries, associates and joint ventures and also on the repatriation of earnings, equity investments and loans may therefore impact on the Group's performance. Although currency exposures have been managed by the Group, a depreciation or fluctuation of the currencies in which the Group conducts operations relative to the Hong Kong dollar could adversely affect the Group's financial condition or results of operations.

The Group's businesses are subject to the effects of global economic events

Economic events outside Hong Kong and Mainland China may adversely affect the Group's business. In recent years, there has been a slowdown in the overall growth of the Mainland China economy. In Asia and other emerging markets, some countries are expecting increasing inflationary pressure as a result of liberal monetary policy or excessive foreign fund inflow, or both. The United Kingdom's exit from the European Union has resulted in volatility in global financial markets, and is expected to create mid-to

long-term economic uncertainty to not only the economies of the United Kingdom and the European Union but also globally. In addition, the U.S. government's policies may create uncertainty for the global economy and financial markets. The United States and Mainland China have been involved in controversy over trade barriers in recent years that have triggered the implementation or proposed implementation of tariffs on certain imported products into the two countries. On 15 January 2020, the U.S. government and the PRC government signed the U.S.-China Economic and Trade Agreement (the "**Phase I Agreement**") pursuant to which the United States agreed to cancel a portion of tariffs imposed on products from Mainland China, and Mainland China agreed to additional purchases of goods and services from the United States. Both parties expressed a commitment to further improve various trade issues. However, there can be no assurance that the Phase I Agreement will be adhered to by both governments or successfully reduce trade tensions. Geopolitical events such as continued tensions in the Middle East and the Korean peninsula, as well as the escalation of tensions between the United States and Mainland China over trade policies, political and other issues could significantly undermine the stability of the global economy and financial markets.

More recently, the ongoing COVID-19 pandemic has adversely affected global financial, foreign exchange, commodity and energy markets. In December 2019, the first case of a novel strain of coronavirus, COVID-19, was identified. The pandemic has since spread globally and there have been increased initial infection and fatality rates across the world. On 11 March 2020, the World Health Organisation declared the COVID-19 outbreak a pandemic. The COVID-19 pandemic and policies implemented by governments to deter the spread of the disease have had and may continue to have an adverse effect on consumer confidence and the general economic conditions which the Group's business is subject to. The governments of many countries (including Mainland China) have declared a state of emergency, closed their borders to international travellers and issued stay-at-home orders with a view to containing the pandemic. There can be no assurance that such measures will be effective in ending or deterring the spread of COVID-19. Whilst Mainland China has recently seen a rebound and a degree of normalisation of supply and demand, the pandemic situation continues to be affected by localised re-emergences of the virus. As COVID-19 continues to spread globally, many more countries may be affected, which may result in the extension or implementation of further restrictive measures. The resultant disruptions to the supply chain and reduced levels of consumption, commercial activities and industrial production in the affected countries may result in an economic slowdown in such economies which, if prolonged, could cause a global recession. Furthermore, the COVID-19 pandemic has caused stock markets worldwide to lose significant value since February 2020. Market interest rates have declined significantly, with the 10-year United States Treasury bond falling below 1.00% for the first time on 3 March 2020. As the situation of the COVID-19 pandemic is still evolving, the heightened uncertainties surrounding the pandemic may pose a material adverse impact on the Group's business, financial condition, results of operations and prospects.

While the central banks of various countries, including the Federal Reserve Board of Governors of the United States, have cut policy rates and/or announced stimulus packages, and national governments have proposed or adopted various forms of economic relief to contain the economic impacts of the COVID-19 pandemic and stabilise markets, there can be no assurance that such monetary and fiscal policy measures will have the intended effects or that a global economic downturn will not occur or market volatilities will not persist. Any severe or prolonged slowdown or instability in the global economy may materially and adversely affect the Group's business, financial condition and results of operations. The outlook for the global economy and financial markets remain uncertain. If economic conditions were to worsen, if economic recovery fails to continue or if an economic slowdown were to return, the Group may have difficulty accessing financial markets, which could make it more difficult or expensive to obtain funding. In addition, there can be no assurance that the Group will be able to raise finance at reasonable cost, or at all. The Group may also be subject to solvency risks of banks and of its counterparties in its financial arrangements and contracts. These may have a material adverse impact on the operations of the Group. See also "*— The Group's prospects may be adversely affected by an outbreak, epidemic and/or pandemic of, infectious or contagious diseases, natural disasters, terrorist attacks, other acts of violence or war, or social instability*" for further information.

Economic, political, social and legal developments in Hong Kong and Mainland China could negatively affect the Group's business

Some of the Group's assets are located in, and a portion of the Group's revenue is derived from, Hong Kong. As a result, any adverse change in the general state of the Hong Kong economy, the interest rate environment and the political, social, legal and regulatory situation in Hong Kong will affect the Group's operating results and financial condition. In addition, any instability in the local social, political and economic landscape which may arise from events beyond the Group's control, in particular, if significant and prolonged, may materially and adversely affect the Group's business, financial condition, results of operation and prospects. Further, civil unrest and an uncertain political environment may impact the Hong Kong economy and result in an economic slowdown. Protests or demonstrations causing disruption to businesses, commercial activities and the transportation system, such as the recent escalation of political tensions due to the implementation of the national security legislation, the anti-extradition bill protests since June 2019 or the Occupy Central Movement that took place during the latter half of 2014, which are outside the control of the Group, may adversely impact consumer and investor confidence, decrease consumer spending and trading activities and affect inbound tourism to Hong Kong, which in turn may have a negative impact on the local economy. There can be no assurance that further protests or demonstrations will not occur in the future. In addition, any spread of communicable diseases or public health emergencies may impact the Hong Kong economy. For example, the ongoing wide spread of the novel coronavirus, COVID-19, since January 2020 has caused severe disruption to business and economic activities in Hong Kong, Mainland China and globally and restricted cross border travel. Consumer confidence or consumer sentiment in Hong Kong and elsewhere has been materially impacted due to the continued escalation of the COVID-19 pandemic. The Group's customers and tenants may experience financial difficulties and/or face significant disruptions to their operations and businesses. Government measures or actions to combat the spread of COVID-19 could also adversely affect the ability of the Group's contractors, including its construction contractors, to perform their contracts with the Group. As a result, completion of the Group's property development projects may be delayed, which may in turn result in an increase in cost overrun, a decrease in sales and/or otherwise adversely affect the Group's financial condition, operating results and profitability. In addition, the Group's sale and pre-sale of residential properties may also be adversely affected due to reasons such as a reduced number of potential buyers attending pre-sale activities of the Group, temporary closure of the Group's sales centers and restrictions imposed on large-scale sales and marketing activities to comply with social-distancing measures imposed by the government authorities. Moreover, if any of the Group's employees or the Group's contractors' employees are identified as having contracted COVID-19, the Group may be required to quarantine employees whom are suspected of being infected, or the Group's contractors may be required to quarantine their employees whom are suspected of being infected, as well as others whom have come into contact with those employees, which could lead to disruption of commercial activities and may have an adverse effect on the Group's business operations, financial condition and operating results. While the Hong Kong government has introduced certain economic relief measures to support the Hong Kong economy, there can be no assurance that such measures will have the intended effects. Any significant or sudden economic slowdown, recession or other adverse changes or developments in the local social and economic environment or political arrangements in Hong Kong may result in a decline in the Group's profitability and materially affect its business and expansion strategy, financial results and profitability.

Furthermore, any disruption to Hong Kong's economy, such as an increase in the unemployment rate, an upsurge in interest rates, labour disputes, the occurrence of social unrest, persistent high oil prices, a slowdown in the rate of economic growth in Hong Kong, Mainland China or the global economy may have an adverse impact on the Group's financial condition, asset value, results of operations and prospects. Hong Kong is a Special Administrative Region of the PRC, with its own government and legislature. The Joint Declaration between the PRC and British governments and the Basic Law, the "mini-constitution" for Hong Kong, provide that Hong Kong will have a high degree of legislative, judicial and economic

autonomy, that the socialist system and policies of Mainland China will not be practised in Hong Kong, and that Hong Kong's capitalist system and way of life shall remain unchanged for 50 years. Since 1 July 1997, when Mainland China resumed the exercise of sovereignty over Hong Kong, Hong Kong has enjoyed autonomy. However, if there were any change in the political, social or legal environment in Hong Kong, the Group's business and financial condition could be adversely affected.

The PRC government exercises significant control over the economic growth of Mainland China through the allocation of resources, controlling the payment of foreign currency denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Any future actions and policies adopted by the PRC government could materially affect the economy of Mainland China, which may adversely affect the Group's business, financial condition and results of operations, see "*Risks specific to the Group's business in Mainland China*".

The Group's prospects may be adversely affected by an outbreak, epidemic and/or pandemic of, infectious or contagious diseases, natural disasters, terrorist attacks, other acts of violence or war, or social instability

The Group's operations and financial condition could be materially and adversely affected by any outbreak, epidemic and/or pandemic of (or the escalation and/or intensification of any outbreak, epidemic and/or pandemic of) infectious or contagious diseases and/or other adverse public health developments in Hong Kong, Mainland China or elsewhere. In particular, the ongoing COVID-19 pandemic in Mainland China, Hong Kong and globally has led to a significant decline in travel volumes and business activities in Mainland China, Hong Kong and globally. Consumer confidence or consumer sentiment in Mainland China, Hong Kong and elsewhere continues to be materially affected due to the continuing COVID-19 pandemic. In particular, certain governments have issued travel advisories against non-essential travel to affected regions, imposed travel restrictions or quarantines and stay-at-home orders with a view to containing the pandemic. The Hong Kong government has also imposed travel restrictions and mandatory quarantine measures which have reduced the number of tourists from Mainland China and other overseas countries visiting Hong Kong which has correspondingly reduced demand for the Group's hotel rooms, catering and restaurant facilities. In addition, the number of customers visiting the Group's shopping malls has also significantly reduced due to the quarantine measures and public-gathering limits imposed by the Hong Kong government. Moreover, government measures or actions to combat the spread of COVID-19 could also negatively impact the ability of the Group's contractors, including its construction contractors, to perform their contracts with the Group. As a result, completion of the Group's projects may be delayed, which may in turn result in an increase in development costs, a decrease in sales and/or otherwise adversely affect the Group's financial condition and operating results. Moreover, if any of the Group's employees or the Group's contractors' employees are identified as having contracted COVID-19 or any other epidemic, the Group may be required to quarantine employees who are suspected of being infected, or the Group's contractors may be required to quarantine its employees whom are suspected of being infected, as well as others whom have come into contact with those employees, which could lead to disruption of commercial activities and may have an adverse effect on the Group's business operations, financial condition and operating results. The ongoing COVID-19 pandemic may also adversely affect the ability of the Group's tenants to maintain their business performance and/or normal business operations and/or provide uninterrupted sales and services to its customers. Whilst the Group has undertaken proactive measures to maintain occupancy rates, including providing temporary rental relief and concessions to certain of its tenants, undertaking marketing and promotional initiatives to attract footfall and consumption and proactively fine-tune its tenant mix to capture potential market recovery, there can be no assurance that such measures will be effective in improving occupancy rates and maintaining lease renewal. Moreover, the ongoing COVID-19 pandemic or other epidemic may result in the temporary closure of hotels, restaurants and/or shopping malls, which may result in further material disruption to the

Group's businesses. It is difficult to predict the level of impact of the ongoing COVID-19 pandemic on Mainland China, Hong Kong and the global economy and there can be no assurance that it would not have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

In addition, all levels of business in Hong Kong, Mainland China and other Asian countries were adversely affected by the outbreak of severe acute respiratory syndrome ("SARS") in 2003. There have also been sporadic outbreaks of the H5N1 virus or "Avian Influenza A" among birds, in particular poultry, as well as some isolated cases of transmission of the virus to humans. In 2009 and 2010, there were also outbreaks among humans of the A/H1N1 influenza virus. Other recent epidemics include the Middle East Respiratory Syndrome (MERS), the H5N1 avian flu, the H7N9 avian flu, the Ebola virus disease and the Zika virus disease. The occurrence of another outbreak of SARS, the A/H1N1 influenza virus or of any other highly contagious disease, epidemic and/or pandemic of infectious disease (whether known or unknown to the world) (or the escalation and/or intensification of any outbreak, epidemic and/or pandemic of infectious diseases) in Mainland China, Hong Kong or elsewhere may result in another economic downturn regionally and/or globally and could materially and adversely affect the overall level of business and travel activities in the affected areas and/or globally, which in turn could have a material adverse effect on the Group's and the Group's tenants' business, results of operations, prospects and financial condition.

Moreover, natural disasters or other catastrophic events, such as earthquakes, floods or severe weather conditions affecting Hong Kong or Mainland China could, depending upon their magnitude, significantly disrupt the Group's business operations. Terrorist attacks, other acts of violence or war, or social instability and public demonstrations, could also have a negative impact on economic conditions where the Group operates, including with respect to travel and leisure expenditures, which will in turn disrupt the Group's operations. More specifically, an actual, threatened or potential terrorist attack, criminal attack, other social instability or public demonstration occurring in, associated with or targeted at the Group's properties or adjacent areas could deter or prevent people from using them. The occurrence of any of the above would have a material and adverse effect on the Group's business, financial condition, results of operations and prospects.

Interim financial information of Wheelock contained in this Offering Circular has not been audited or reviewed by the Guarantor's independent auditor, KPMG, and potential investors should exercise caution when using such interim data to evaluate the Group's financial condition and results of operations

This Offering Circular includes summary unaudited interim financial information relating to specified line items (the "***Interim Specified Line Items***") extracted from the Group's unaudited consolidated interim financial statements as at and for the six months ended 30 June 2020 and 2019, which have neither been audited nor reviewed by the Guarantor's independent auditor, KPMG, or any other independent auditors. Such Interim Specified Line Items should not be relied upon by potential investors to provide the same type or quality of information associated with information that has been subject to an audit or a review by an independent auditor, and in particular such financial information do not present the unaudited but reviewed financial information of the Group as at and for the six months ended 30 June 2020 and 2019. None of the Arranger, any of the Dealers or any of the Agents (nor any of their respective affiliates, directors, officers, employees, representatives, advisers, agents and each person who controls any of them) makes any representation or warranty, express or implied, regarding the accuracy or sufficiency of such financial information for an assessment of, and potential investors must exercise caution when using such data to evaluate, the Group's financial condition, results of operations and results. The Interim Specified Line Items should not be taken as an indication of the expected financial condition, results of operations and results of the Group for the full financial year ending 31 December 2020 or be treated as representative of or presenting a complete or true and fair view of the financial position of the Group and the results of operations and changes in financial position of the Group for the periods specified.

The continuing success of the Group depends on key management personnel

The success of the Group depends on key management personnel and on the continued service of its executive officers and other skilled managerial and technical personnel. Competition for qualified personnel is intense. The Group's business could be adversely affected if the services of a number of key personnel were lost and if the Group could not recruit suitable replacements in a timely manner. Furthermore, as the business of the Group continues to grow, the Group will need to recruit, retain and train additional qualified personnel. If the Group fails to attract, retain and train qualified personnel, its business, financial condition, results of operations and prospects may be adversely affected.

Changes in certain accounting policies may have a significant impact on the Group's results and financial position

Accounting standards applicable to the Group's business may change or be amended from time to time. Any changes in these accounting standards may result in changes in the recognition, measurement and/or classification of the Group's revenue, expenses, assets and liabilities, which could have a material effect on the Group's results of operations and financial position. The Hong Kong Institute of Certified Public Accountants has issued a number of new standards and amendments to HKFRS, including but not limited to the replacement of Hong Kong Accounting Standard 17 (Leases) ("**HKAS 17**") by Hong Kong Financial Reporting Standard 16 (Leases) ("**HKFRS 16**"), with effect from 1 January 2019.

HKFRS 16 replaces HKAS 17, and the related interpretations, HK(IFRIC) 4, Determining whether an arrangement contains a lease, HK(SIC) 15, Operating leases — incentives, and HK(SIC) 27, Evaluating the substance of transactions involving the legal form of a lease. It introduces a single accounting model for lessees, which requires a lessee to recognise a right-of-use asset and a lease liability for all leases, except for leases that have a lease term of 12 months or less ("**short-term leases**") and leases of low-value assets. The lessor accounting requirements are brought forward from HKAS 17 substantially unchanged.

HKFRS 16 also introduces additional qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

Given the Group does not have any material lease arrangements as a lessee (except for the leasehold land and properties for which the Group is a registered owner of the ownership interests), the Group considers that the replacement of HKAS 17 by HKFRS 16 has no significant financial impact on the Group's results (including segment results), financial position and cash flows.

The Hong Kong Institute of Certified Public Accountants may issue new and revised standards and interpretations in the future. Interpretations on the application of HKFRS will also continue to develop. These factors may require the Group to adopt new accounting policies from time to time. There can be no assurance that the adoption of new accounting policies or introduction of new HKFRS in the future will not have a material impact on the Group's results of operations and financial position.

The Group's results of operations include revaluation adjustments which are unrealised and the future fair value of its investment properties is likely to fluctuate from time to time

The Group has adopted a policy of measuring its investment properties at fair value, and as a result it is required under HKFRS to reassess the fair value of its investment properties at each reporting date for which it issues financial statements. Under HKFRS, the revaluation deficit or surplus arising on revaluation on investment properties is recognised as "decrease/increase in fair value of investment properties" in the consolidated income statement in the period in which they arise.

Fair value gains or losses do not change the Group's cash position as long as the relevant investment properties are held by it and, therefore, do not increase or decrease the Group's liquidity in spite of the increased or decreased profit. Therefore, fair value gains would not generate any cash flow from which dividends could be paid. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. Any significant decrease in the future in the fair value of the Group's investment properties may have a material adverse effect on its business, financial condition, results of operations and prospects.

Risks relating to real estate development and the Group's investment properties

The real estate markets in Hong Kong and Mainland China are volatile, which could adversely affect the Group's business

Historically, Hong Kong property values have been volatile as they are affected by the supply of, and the demand for, comparable properties, the policies of the Hong Kong government including the amount of new land made available by the Hong Kong government to third parties as well as to MTR Corporation Limited over or near the stations of its mass transport networks. In addition to releasing more land for development and public housing, a series of measures are in place to curb speculation and restrain rising prices in the Hong Kong real estate market.

The Residential Properties (First-hand Sales) Ordinance became law on 29 April 2013. This ordinance sets out detailed requirements in relation to sales brochures, price lists, show flats, disclosure of transaction information, advertisements, sales arrangements and the mandatory provisions of preliminary agreement for sale and purchase and agreement for sale and purchase for the sales of first-hand residential properties.

The Stamp Duty (Amendment) Ordinance 2014 (the "***Amendment Ordinance***") became law on 28 February 2014 and was deemed to have come into operation on 27 October 2012. Under the Amendment Ordinance, any residential property acquired on or after 27 October 2012, either by an individual or a company (regardless of where it is incorporated), and resold within 36 months, is subject to Special Stamp Duty ("***SSD***"). Residential properties acquired by any person (including a company incorporated) except a Hong Kong permanent resident will also be subject to a Buyer's Stamp Duty ("***BSD***"), to be charged at a flat rate of 15%, on top of the existing stamp duty and the SSD, if applicable.

The Stamp Duty (Amendment) (No. 2) Ordinance 2014 ("***Amendment Ordinance No. 2***") was gazetted on 25 July 2014. Amendment Ordinance No. 2 provides that the ad valorem stamp duty ("***AVD***") payable on certain instruments dealing with immovable properties executed on or after 23 February 2013 (the "***Effective Date***") shall be computed at higher rates ("***Scale 1 rates***"). It also advanced the timing for charging AVD on non-residential property transactions from the conveyance on sale to the agreement for sale executed on or after the Effective Date. Under Amendment Ordinance No. 2, any residential property and non-residential property acquired on or after the Effective Date, either by an individual or a company, is subject to the Scale 1 rates, except that any such property acquired by a Hong Kong permanent resident acting on his/her own behalf who does not own any other residential property in Hong Kong at the time of acquisition.

The Stamp Duty (Amendment) Ordinance 2018 (the "***2018 Amendment Ordinance***") was gazetted on 19 January 2018. Under the 2018 Amendment Ordinance, the AVD at Scale 1 rates enacted under the Amendment Ordinance No. 2 are further divided into Part 1 (a flat rate of 15%) and Part 2 (original Scale 1 rates under the Amendment Ordinance (No. 2)) with effect from 5 November 2016. Part 1 of the Scale 1 rates applies to instruments of residential property and Part 2 of the Scale 1 rates applies to instruments of non-residential property. The 2018 Amendment Ordinance provides, amongst others, that any instrument of residential property executed on or after 5 November 2016 for the sale and purchase or

transfer of residential property, unless specifically exempted or provided otherwise, will be subject to AVD at the rate under Part 1 of the Scale 1 rates, i.e. a flat rate of 15% of the consideration or value of the residential property, whichever is the higher.

The Stamp Duty (Amendment) (No. 2) Ordinance 2018 (the “**2018 Amendment Ordinance No. 2**”) was gazetted on 20 April 2018. The 2018 Amendment Ordinance No. 2 provides, amongst others, that acquisition of more than one residential property under a single instrument executed on or after 12 April 2017, unless specifically exempted or provided otherwise, will be subject to AVD at the rate under Part 1 of the Scale 1 rates, i.e. a flat rate of 15% of the consideration or value of the residential property, whichever is higher, even if the purchaser or transferee is a Hong Kong permanent resident acting on his/her own behalf and does not own any other residential property in Hong Kong at the time of acquisition.

On 29 June 2018, the Hong Kong government proposed a tax on vacant first-hand private residential units (the “**Vacancy Tax**”) to encourage developers to release residential units more quickly into the market and expedite the supply of first-hand homes. Under the proposal, developers of first-hand private residential units with an occupation permit issued for 12 months or more will be required to make annual returns disclosing the occupancy status of their units. Units that have not been occupied or rented out for more than six months at or above the market rent after the issue of the occupation permit will be considered vacant and subject to the Vacancy Tax charged at two times the annual rateable value of the units. On 13 September 2019, the Hong Kong government gazetted the Rating (Amendment) Bill 2019 (the “**Bill**”) to implement the proposed Vacancy Tax at the Legislative Council and in May 2020, a Bills Committee was formed to study the Bill. On 23 June 2020, members of the Bills Committee decided to discontinue their scrutiny works on the Bill. The Hong Kong government had made a statement that it would take into account the prevailing market circumstances when considering whether to reintroduce the Bill into Legislative Council for scrutiny in the next legislative term. If implemented, the Vacancy Tax may have an adverse effect on the Group’s business, operating results and financial condition.

On 16 October 2019, the Hong Kong government expanded eligibility under the Mortgage Insurance Programme of the Hong Kong Mortgage Corporation Limited. For a first-time home buyer, the cap on the value of property eligible for a mortgage loan with a maximum cover of 90% loan-to-value ratio has been raised from HK\$4 million to HK\$8 million. The cap on the value of property eligible for a mortgage loan with a maximum cover of 80% loan-to-value ratio has also been raised from HK\$6 million to HK\$10 million.

As the introduction of these measures are subject to policy changes reflecting domestic, political or economic circumstances, there is no assurance that the Hong Kong government will not introduce further measures in the future that may have a significant impact on the Hong Kong real estate market, which may in turn affect the Group’s operating results and financial conditions.

The HKMA also imposes a number of measures applicable to the provision of loans secured over real estate by banks in Hong Kong aimed at protecting the depositors of those banks from the risk of a collapse in real estate prices in Hong Kong. On 27 February 2015, the HKMA announced a series of counter cyclical measures to banks in relation to property mortgage lending to strengthen banks’ risk management and resilience, with immediate effect, namely (i) the maximum loan-to-value ratio (“**LTV**”) for self-use residential properties with a value below HK\$7 million was lowered by a maximum of 10 percentage points. For example, the maximum loan-to-value ratio applicable to properties with a value of HK\$6 million or below and subject to the LTV cap of 70% was lowered to 60%; (ii) the maximum debt-servicing ratio (“**DSR**”) for borrowers who buy a second residential property for self-use was lowered to 40% from 50%, and the stressed-DSR cap was lowered to 50% from 60%; and (iii) the maximum DSR of mortgage loans for all non-self-use properties, including residential properties, commercial and industrial properties and car park spaces, was lowered to 40% from 50%, and the stressed-DSR cap was lowered to 50% from 60%. On 19 May 2017, the HKMA further announced a series of new measures to banks in relation to

property mortgage lending to strengthen the risk management of banks and safeguard banking stability, with immediate effect, which include, amongst others (i) to lower the applicable LTV cap by 10 percentage points for property mortgage loans involving borrowers and/or guarantors with one or more pre-existing mortgage loans, in addition to the existing requirement of lowering the applicable DSR limit by 10 percentage points for these loans; and (ii) to lower the applicable DSR limit by 10 percentage points for property mortgage loans extended to borrowers whose income is mainly derived from outside of Hong Kong, on top of the existing requirement of lowering the applicable LTV cap by 10 percentage points for these loans. These regulatory changes (and any further measures the Hong Kong government may introduce from time to time in the future) may have an adverse effect on the property market in Hong Kong, and in turn, the Group's business, financial condition, results of operations, prospects and profitability.

Since 2005, the Group has acquired sites in various cities in Mainland China for development. The real estate market in Mainland China has been volatile as it is affected by numerous factors including the supply of and demand for comparable properties, the amount of new land made available by the Municipal Bureaus of Land and Resources, the rate of urbanisation in Mainland China, governmental policies towards the property market and events such as the availability of end-buyer mortgages as well as political and economic developments in Mainland China. See also *"Risks specific to the Group's business in Mainland China"*.

Any of the above factors may adversely affect the Group's financial condition, results of operations, prospects and profitability.

The Group is subject to project development risks

Development property involves significant risks for the Group when compared with companies which acquire existing investment properties. Such risks, among other things, include the financing risks for property under development, construction not being completed on schedule or within budget due to unforeseen infrastructure or engineering problems, delays in land site clearance, workforce shortages, unexpected building cost increases, property design feasibility, interruption caused by environmental and weather constraints, problems with independent contractors and changes to governmental policies and regulations. Contractors may undertake projects for other developers, the time taken and the costs involved in completing construction can also be adversely affected by many factors, including shortages of materials, equipment and labour, adverse weather conditions, natural disasters, labour disputes, disputes with subcontractors, accidents, changes in governmental priorities and other unforeseen circumstances. Major contractors may experience financial or other difficulties which may affect their ability to carry out construction works, thus delaying the completion of the Group's development projects or resulting in additional costs for the Group. There is no assurance that the Group's projects will be completed in a timely manner or be of satisfactory quality within the original budget.

Failure to complete and/or deliver a pre-sold property in a timely manner may cause the Group to be liable to the relevant purchasers for losses suffered by them. The Group's failure to complete property developments in the time required by pre-sale contracts may entitle purchasers to claim damages under the pre-sale contracts, and in the event that such failure causes a delay that extends beyond any grace period stipulated in the pre-sale contracts, purchasers may be entitled to terminate the presale contracts, claim damages and request a refund of their purchase amount together with interest.

All these risks may adversely affect the timeliness of project completion and investment returns generated from development property projects undertaken by the Group and may have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group derives a portion of its revenue from its investment property portfolio, the performance of which depends on a number of factors, including changes in market rental levels, competition for tenants and rental collection and renewal

Part of the Group's business constitutes leasing of its investment properties. The Group is subject to risks incidental to the ownership and operation of commercial properties, such as volatility in market rental rates and occupancy rates, competition for tenants, costs resulting from on-going maintenance and repair and the inability to collect rent from tenants or renew leases with tenants due to bankruptcy, insolvency, financial difficulties or other reasons. In addition, the Group may not be able to renew leases with its tenants on terms acceptable to it, or at all, upon the expiration of the existing terms. Furthermore, any downturn in the rental market for retail and/or office premises in general could negatively affect the demand for the Group's rental properties and revenue. If any of the above occurs, there may be a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group's revenue and profit are affected by its ability to continue to attract and retain quality tenants

The Group's investment properties compete for tenants with other properties on the basis of, among other things, location, quality, maintenance, property management, rent levels and other lease terms. There can be no assurance that existing or prospective tenants will not choose other properties. Any future increase in the supply of properties which compete with the Group's investment properties would increase the competition for tenants and, as a result, the Group may have to reduce rent or incur additional costs to make its properties more attractive. If the Group is not able to retain its existing tenants or attract new tenants to replace those that have left or to lease its new properties, the Group's occupancy rates may decline. If the Group is unable to attract renowned brands as tenants or retain existing tenants that bring in renowned brands to its properties, its investment properties may become less attractive and less competitive. The occurrence of any of these events may materially and adversely affect the Group's business, financial condition, results of operations and prospects.

There is no assurance that third-party contractors will always meet the quality standards of the Group and provide services in a timely manner

The Group employs third-party contractors to carry out various works, including design, construction, structural engineering, internal decoration, landscaping, electrical and mechanical engineering and lift installation. Despite the Group's project management, there is no assurance that such third-party contractors will always provide satisfactory services. In addition, the Group may not be able to engage third-party contractors with the appropriate experience and on favourable terms. Moreover, as is common in the property industry, completion of the required property maintenance, repairs, refurbishments, renovations and/or developments may be delayed and the Group may incur additional costs due to a contractor's financial or operational difficulties. The Group's contractors may undertake projects for others thereby diverting resources, engage in risky undertakings or otherwise encounter financial or other difficulties, which may cause delay in the completion of the Group's projects and increase its costs. The services rendered by independent contractors may not always meet quality standards of the Group. Any of these factors could materially and adversely affect the Group's business, financial condition, results of operations and prospects.

The Group is subject to risks associated with the title of its properties

In Hong Kong, structural alterations of properties are subject to prior approval by the Building Authority of the Hong Kong government (the “BA”). The BA may issue warning notices and/or building orders in relation to certain parts of a property or the common areas of a building if there are alteration works carried out without the required permits or consents. If the subject matter as stated in the warning notice is not rectified within the specified period, the BA may issue a building order which may constitute title defects in respect of the relevant property, unless and until the relevant requirements as set out in the building order have been duly complied with. The works required to comply with warning notices and/or building orders may involve substantial costs to be borne by the owners. Under Hong Kong law, the existence of these title defects and other title issues do not prevent the relevant properties from being sold, purchased, or being suitable for acceptance by banks as security for granting mortgages. Nevertheless, any title defect on any property may have adverse effect on the value of such property. If such property has been contracted for sale with a prospective purchaser, such title defect may entitle the prospective purchaser to refuse completion of the sale and purchase transaction.

There is no assurance that the Group’s properties in Hong Kong held for investment purposes or the common areas of the building in which such properties are situated will not be subject to any warning notice or building order. If any warning notice or building order is issued against the Group’s properties and the subject matter cannot be rectified by the Group and/or other owners of the building in a timely manner, or at all, the sale of the Group’s properties may be affected which may in turn have material adverse impact on its business, financial condition and results of operations.

Potential liability for environmental problems could result in costs to the Group

The Group is subject to various laws and regulations concerning the protection of health and the environment. The particular environmental laws and regulations which apply to any given project development site vary greatly according to the site’s location, its environmental condition, the present and former uses of the site, as well as any adjoining properties. Environmental laws and conditions may result in delays to the Group’s property developments, may cause the Group to incur compliance and other costs and can prohibit or severely restrict project development activity in environmentally-sensitive regions or areas.

Each project the Group develops in Hong Kong or Mainland China is required under applicable laws and regulations to undergo environmental assessments. Further, an environmental impact assessment document is required to be submitted to the relevant government authorities for approval before commencement of construction. The local authorities may request the Group to submit additional environmental impact documents, issue orders to suspend the construction and/or impose penalties for any projects that have not, prior to the commencement of construction, received approval following the submission of the environmental impact assessment documents. Although the environmental investigations conducted to date have not revealed any environmental liability that the Group believes would have a material adverse effect on its business, financial condition or results of operations, it is possible that these investigations did not reveal all environmental liabilities, or that there are material environmental liabilities of which the Group is unaware. In such circumstances, the Group’s business, financial condition, results of operations and prospects may be materially and adversely affected.

The Group is subject to risks relating to accidents or other incidents which may not be covered by insurance

The Group maintains insurance coverage on all of its properties under construction, third party liabilities and owner’s liabilities in accordance with what it believes to be industry standards. However, the Group may become subject to liability for hazards which it cannot insure against or which it may elect not to insure against because of premium costs disproportionate to the level of risks concerned or other reasons. In particular, the Group’s insurance policies generally do not cover certain types of losses incurred due to events such as war, civil disorder, acts of terrorism, pollution, fraud, professional negligence and acts of God. Furthermore, the Group’s insurers may become impaired and financially unable to meet claims.

In addition, where insurance is taken out in relation to properties which are owned by a jointly controlled entity or an associate in which the Group is interested, there is no guarantee that such properties are insured in accordance with the same standards which the Group applies when taking out insurance in respect of its own properties.

Any losses may significantly affect the Group's business operation and the Group may not have sufficient funds to replace any property destroyed as a result of such hazards. Furthermore, whilst due care is taken by the Group and its employees in the selection and supervision of its independent contractors, accidents and other incidents, such as theft, may occur from time to time. Such accidents may expose the Group to liability or other claims by its customers and other third parties. The occurrence of such accidents or injuries at any of the Group's investment properties or construction sites could adversely affect its reputation among shoppers and tenants of its properties, harm the Group's brand, decrease its overall rents and occupancy rates and increase its costs by requiring the Group to implement additional safeguard measures. In addition, if accidents, injuries or prohibited activities occur at any of the Group's investment properties or construction sites, the Group may be held liable for costs, damages and fines and there is also a risk that the Group's operations may be suspended as a result. Although the Group believes that it has adequate insurance arrangements in place to cover such eventualities, it is possible that accidents or incidents which are not covered by these arrangements could occur. The occurrence of any such accidents or incidents which are not covered by insurance and the resulting payment the Group may be required to make to cover any losses, damages or liabilities could adversely affect the business, financial condition, prospects and results of operations of the Group. It is also possible that litigants may seek to hold the Group responsible for the actions of its independent contractors.

The Group is subject to a tightened credit environment

Development property requires significant amounts of capital. The Group has traditionally financed land acquisition, development property and investment property, through a combination of equity, borrowings and the debt capital markets. The Group's ability to arrange for external financing and the cost of such financing is dependent on a number of factors, including general economic conditions, interest rates, credit availability from banks, investor confidence in the Group and the legal and regulatory environment. As a result of concerns for heightened inflation and asset-bubble risks, the availability of credit in the global credit and financial markets may decrease. Regulatory authorities in both developed and developing countries have issued regulations to further tighten traditional bank lending, including capital reserve requirements. Where the Group's unsecured bank borrowings are on a floating rate basis, fluctuations in interest rates may increase its interest expenses. In the event of any adverse change in the capital markets, the Group may have difficulty in accessing new financing sources, which could make it more difficult or expensive to obtain funding in the future. In light of the above, no assurance can be given that the Group will be able to raise financing at a reasonable cost, or at all.

The Group is subject to the cyclical nature of consumer demand and commercial market sentiment

The Group derives a portion of its revenue from shopping malls and office properties which are closely tied to general consumer demand and commercial market sentiment. Any change in such general consumer demand and commercial market sentiment can affect overall economic outlook and investor confidence leading to changes in the tenant mix and credit standing of tenants. Competition from new market entrants and fluctuations in the level of disposable household income may adversely affect the Group's relative bargaining position with its tenants in terms of lease rates, tenure and frequency of rental revisions, and thus adversely affect its revenue, business, financial condition, results of operations and prospects.

Some of the Group's development and investment property projects are undertaken through joint ventures

The Group has invested in joint venture companies to develop, own and/or manage some of its development and investment properties in Hong Kong and Mainland China. Certain corporate actions of these joint ventures require approval of all partners. Although the Group has not experienced any significant problems which cannot be resolved with respect to its joint venture partners to date which could not be resolved, should such problems occur in the future they could have a material adverse effect on the success of these properties. If the Group's joint venture partners act in a manner which is contrary to the Group's interests, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.

The Group's business in the future may be adversely affected if it is unable to acquire land at favourable prices

Property is the Group's most important business segment and the Group's business and results of operations are dependent, in part, on the availability of land suitable for development and the Group's ability to replenish its land bank at favourable cost. The Group has enjoyed a competitive advantage in this segment because several of its projects in Hong Kong, the Mainland China and Singapore are on sites that the Group acquired at a relatively favourable cost. There can be no assurance that the Group will be able to obtain additional land for development property in Hong Kong, Mainland China and Singapore at similarly favourable prices in the future. The occurrence of such circumstances may materially and adversely affect the Group's business, financial condition, results of operations and prospects.

Cash conversion risks of property assets and liquidity risk

As development properties and investment properties are relatively illiquid, the Group's ability to liquidate one or more of its properties may be limited or it may be required to discount property prices significantly to ensure a timely sale in case of any market downturn if the Group is not able to satisfy its obligations from its cash and bank balances, committed undrawn banking facilities or from the capital markets.

Investment properties cannot be readily converted to alternative uses, as such conversion requires extensive governmental approvals and involves substantial capital expenditures and time for renovation and refurbishment. There is no assurance that the Group will obtain the necessary approvals and sufficient funds to carry out such conversion. These factors and any others that would impede the Group's ability to respond to adverse changes in the performance of its investment properties could affect its ability to compete against its competitors. The occurrence of any of the above events may materially and adversely affect the Group's business, financial condition, results of operations and prospects.

The Group may be involved in disputes and legal and other proceedings arising out of its operations from time to time and may face significant liabilities as a result

The Group may be involved in disputes arising out of the leasing, usage, development or sale of its properties with tenants, residents, residents of surrounding areas, contractors, suppliers, construction workers, co-investors, joint venture partners, purchasers or other parties. These disputes may lead to protests, legal or other proceedings and may damage the Group's reputation and divert its resources and management's attention. Significant costs may have to be incurred in defending the Group in such proceedings whether it succeeds or not. If the Group is not successful in defending itself in such proceedings, it may be liable for damages, the amount of which may be significant. In addition, the Group may have disagreements with regulatory bodies in the course of its operations, which may subject it to administrative proceedings or unfavourable decrees that may result in liabilities and cause delays to its property developments. The Group may also be involved in disputes or legal proceedings in relation to delays in the completion and delivery of its projects. Any of the above could have a material adverse effect on the Group's business, financial condition, results of operations and prospects. Further, the Group has endeavoured to structure its business in a tax efficient manner. If any of the Group's arrangements is successfully challenged by the relevant tax authorities, it may incur additional tax liabilities, which could adversely affect its business, financial condition, results of operations and prospects.

Failures or breakdowns in the Group's information and technology systems may interrupt its business operations

The Group uses modern information and technology systems to control and manage its operations. These information and technology systems are intended to enable the Group to improve efficiency and monitor and control its operations and are fundamental to ensuring that the Group maintains its competitiveness in its industry. The Group's information systems are vulnerable to damage or interruption from circumstances beyond its control, including but not limited to, fire, power loss, hardware failure, software programme error, back-up data failure, telecommunications failure, computer viruses, human error, hacking and break-in and other similar events. Any failure or breakdown in these systems could interrupt the Group's normal business operations and result in a significant decrease in operational and management efficiency during such failure or breakdown. Recovery from such disasters may result in lost data as a result of such malfunction and disruption. In addition, precautionary measures may only be partly, if at all, successful. Any prolonged failure or breakdown could significantly impact the Group's ability to manage its properties and offer services to its customers, which may materially and adversely affect the Group's business, financial condition, results of operations and prospects.

Risks specific to the Group's other businesses

Competition from ports in Mainland China may adversely affect the Group's container terminal business in Hong Kong

The attractiveness of a port is dependent on factors such as location, facilities, supporting infrastructure, service and price. If competing ports are built or existing terminals are substantially upgraded with superior facilities and supporting infrastructure and services or if competitors offer lower tariffs, these events may lead to a reduction in the Group's market share, a decrease in the volume of containers handled, or increased price competition, thus adversely affecting the Group's cash flows, operating margins and profitability.

Since the early 1990s, various new container terminals have been built in Mainland China (including those in which the Group has an interest in Modern Terminals) that compete, or will compete, with the Group's container terminal business in Hong Kong. There is a cost advantage to shippers using ports in Mainland China due to the lower cost of onshore transportation arising from the relatively close proximity of such ports to the source, or, as the case may be, destination of the cargo and the lower handling fees at such ports. Due to this cost disadvantage, such ports in Mainland China may absorb the majority of the growth in trade between Mainland China and the rest of the world in the future, which would adversely affect the Group's container terminal business in Hong Kong.

Risks specific to the Group's business in Mainland China

Mainland China's economic, political, social and legal conditions, as well as government policies, could affect the Group's business

The Group's strategy is to continue to expand its business in Mainland China to capitalise on Mainland China's economic growth and rapid urbanisation. In the near to medium term, the Group's growth drivers are expected to be its business initiatives in both property and logistics in Mainland China. The Group's financial condition, operating results and prospects will, accordingly, be subject to economic, political, social and legal developments in Mainland China as well as in the economies in the surrounding region. The economy in Mainland China differs from the economies of most developed countries in many respects, including:

- extent of government involvement;
- level of development;
- growth rate;
- control of foreign exchange; and
- allocation of resources.

While the PRC economy has experienced significant growth in the past 20 years, growth has been uneven, both geographically and among the various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources to sectors such as transport, energy, healthcare, education and energy efficient motor vehicles. Some of these measures benefit the overall PRC economy, but may also have a negative effect on the Group's operations. For example, the Group's business, financial condition and operating results may be adversely affected by the PRC government's control over capital investments or any changes in tax regulations or foreign exchange controls that are applicable to it.

The PRC economy has been transitioning from a planned economy to a more market-orientated economy. Although in recent years the PRC government has implemented measures emphasising the utilisation of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance in business enterprises, a substantial portion of productive assets in Mainland China is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating the development of industries in Mainland China by imposing top-down policies. It also exercises significant control over Mainland China's economic growth through the allocation of resources, controlling the payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular geographies, industries or companies. The PRC government may also take credit tightening measures to increase the cost of credit and to reduce the availability of credit to curb inflationary pressure. The PRC government may also implement other measures which could also have an adverse impact on the Group's ability to access onshore financing in Mainland China, and in turn could materially and adversely affect the Group's business, financial condition, results of operations and prospects.

Mainland China's legal system is less developed than in certain other countries and laws in Mainland China may not be interpreted and enforced in a consistent manner

The PRC legal system is a civil law system. Unlike the common law system, the civil law system is based on written statutes in which decided legal cases have little value as precedents. Since 1979, the PRC government has introduced many new laws and regulations to provide general guidance on economic and business practices in Mainland China and to regulate foreign investment. Progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organisation and governance, foreign investment, commerce, taxation and trade. The promulgation of changes to existing laws and the abrogation of local regulations by national laws could have a negative impact on the business and prospects of the Group and its joint ventures. In addition, as these laws, regulations and legal requirements are relatively recent, their interpretation and enforcement may involve significant uncertainty. The interpretation of PRC laws may be subject to policy changes which reflect domestic political changes. As the PRC legal system develops, the promulgation of new laws, changes to existing laws and the pre-emption of local regulations by national laws may have an adverse effect on the Group's prospects, financial condition and operating results.

Real estate is a highly regulated sector in Mainland China

The Group's business is dependent on continued economic growth in Mainland China. The PRC government, in the past, has imposed restrictions on direct foreign investment in the property sector to curtail the overheating economy. Property developers in Mainland China must comply with various national and local regulatory requirements promulgated by different tiers of regulators. From time to time, the PRC government adjusts its macroeconomic and fiscal policies to encourage or restrict property development which may have a direct impact on the Group's business. For example, with effect from 1 May 2016 certain real estate transactions are now subject to value added tax. The Group must obtain various permits, certificates, relevant approvals from the relevant administrative authorities at various stages of development, including land use rights documents, planning permits, construction permits and confirmation of completion and acceptance. Each approval is dependent on the satisfactory compliance with certain requirements or conditions. The Group can give no assurance that it will not encounter delays or other impediments in fulfilling the conditions precedent to obtain these approvals or that the Group will be able to comply with any new laws, regulations or policies that may come into effect with respect to the property development industry in general or the requirements for obtaining such approvals. If the Group fails to obtain the relevant permits, licences, certificates or other approvals or to fulfil the conditions therein for its property developments, its developments may not proceed on schedule, and the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.

The supply of land in Mainland China is controlled and regulated by the PRC government. The land supply policies adopted by the PRC government directly impact the Group's ability to acquire land use rights for development and the costs of such acquisitions. For example, in recent years, the PRC government has introduced a series of measures (and may implement further measures) to curb its overheating economy, including policies to prevent excessive rises in property prices in certain cities and sectors such as taxing capital gains to discourage speculation, restricting purchases of real estate by foreigners, limiting the amount of luxury villa developments and tightening credit available to real estate developers and individual purchasers. Property developers must comply with various national and local regulatory requirements promulgated by different tiers of regulators. From time to time, the PRC government adjusts its macroeconomic policies to encourage or restrict property development, which may materially and adversely affect the Group's business, financial condition, results of operations and prospects.

The PRC government's restrictive measures to control the property development industry's rate of growth could limit the Group's access to capital resources, reduce market demand and increase the Group's operating costs. The PRC government may adopt additional and more stringent measures in the future, which may further slow the development of the industry and materially and adversely affect the Group's business and result of operations. In particular, any additional or more stringent measures imposed by the PRC government in the future to curb high-end residential/mixed use real estate projects may materially and adversely affect the Group's business, financial condition and results of operations.

The Group may, under certain land clearance agreements with relevant land authorities, be required to assist local governments with clearing land and relocating original residents with respect to some of its development property projects in accordance with the relevant PRC laws and regulations.

The complicated administrative process and possibility of unfavourable settlement regarding the amount of compensation may increase the cost of the development and materially adversely affect the Group's cash flow, business operations and financial condition. Under PRC law, if a developer fails to develop land according to the terms of the land grant contract (including those relating to payment of fees, land use or the time for commencement and completion of the development of the land), the relevant local government authority may give a warning to or impose a penalty on the developer or forfeit the land

granted to the developer. Under applicable PRC laws and regulations, if a developer fails to pay any outstanding land premium by the stipulated deadline, it may be subject to a late payment penalty calculated on a per-day basis. In addition, if a developer fails to commence development of a property project within the stipulated period as required under applicable PRC laws without the approval from the relevant PRC land bureau, the relevant PRC land bureau may serve a warning notice on the developer and impose an idle land fee of up to 20% of the land premium unless such failure is caused by a government action or a force majeure event. Even if the commencement of the land development complies with the land grant contract, if the developed GFA on the land is less than one-third of the total GFA of the project or if the total capital expenditure is less than 25% of the total investment of the project and the suspension of the development of the land is more than one year without government approval, the land will still be treated as idle land. The Notice on Promoting Economisation of Land Use issued by the State Council in January 2008 further confirmed the idle land fee at 20% of the land premium. If a developer fails to commence such development for more than two years, the land is subject to forfeiture without compensation to the PRC government unless the delay in development is caused by government actions or force majeure events. In addition, a developer with idle land together with its shareholders may be restricted from participating in future land bidding.

Although the Group has never been subject to any such penalties or required to pay idle land fees or forfeit any of its land in Mainland China, there can be no assurance that circumstances leading to possible forfeiture of land or delays in the completion of a project may not arise in the future.

Further, the Group must obtain various permits, certificates, relevant approvals from the relevant administrative authorities at various stages of development, including land use rights document, planning permits, construction permits and confirmation of completion and acceptance. Each approval is dependent on the satisfactory compliance with certain requirements or conditions. There can be no assurance that the Group will be able to obtain the relevant permits, certificates, relevant approvals from the relevant administrative authorities or that the Group will not encounter material delays or other impediments in fulfilling the conditions precedent to obtaining these approvals.

Although these measures have to date focused on tier one and tier two cities, there is a risk that similar measures will be introduced in tier three and tier four cities which would have an adverse impact on the Group's developments in such cities.

The PRC government may adopt further measures to slow down growth in the property sector

Along with the economic growth in Mainland China, investments in the property sector have increased significantly in the past decade. In response to concerns over the increase in such investments, the PRC government has at various times introduced policies and measures to curtail property development.

There can be no assurance that the PRC government will not adopt additional and more stringent measures in the future, which could further slow down property development in Mainland China and adversely affect the Group's business and prospects.

The PRC government and local government authorities will continue to exercise a substantial degree of control and influence over the PRC economy and property market and any form of government control or newly implemented laws and regulations, depending on the nature and extent of such changes and the Group's ability to make corresponding adjustments, may result in a material adverse effect on the Group's business and operating results. In particular, decisions taken by the PRC government concerning economic policies or goals that are inconsistent with the Group's interests could adversely affect its operating results.

Mainland China is a competitive market for property development and it may be difficult to acquire suitable sites for development in the future

During the last decade, a large number of property developers based in Mainland China have begun to undertake property development and investment projects in Mainland China. In addition, a number of international developers have expanded their operations into Mainland China, including a number of leading Hong Kong real estate development and investment groups. Many of these developers, both private and state-owned, have significant financial, managerial, marketing and other resources, as well as experience in property and land development. Competition in the property development industry is intense and may result in, among other things, increased costs for the acquisition of land for development, oversupply of properties in certain parts of Mainland China, a decrease in property prices, a slowdown in the rate at which new property development projects will be approved and/or reviewed by the relevant government authorities, an increase in construction costs, and difficulty in obtaining high quality contractors and qualified employees.

The PRC central and local governments have implemented various measures to regulate the means by which property developers obtain land for property development. They control land supply through zoning, land usage regulations and other means. All these measures further intensify the competition for land in Mainland China among property developers. For example, subsequent re-zoning by the PRC government may adversely affect the Group's ability to obtain land use rights. If the Group fails to acquire sufficient land bank suitable for development in a timely manner and at acceptable prices, or at all, its prospects and competitive position may be adversely affected and its growth potential and performance may be materially and adversely affected.

The consequences of any such risks eventuating may adversely affect the Group's business, results of operations and financial position. In addition, the real estate market in Mainland China is rapidly changing. If the Group cannot respond to changes in market conditions more swiftly or effectively than its competitors, the Group's business, financial condition and results of operations will be adversely affected.

Policy initiatives in the financial sector to further tighten lending requirements for property developers may limit the Group's flexibility and ability to use bank loans or other forms of financing to finance the Group's development properties and therefore may require the Group to maintain a relatively high level of internally sourced cash

The Group's ability to arrange adequate financing for land acquisitions or development properties on favourable terms depends on a number of factors, many of which are beyond the Group's control. The PRC government has in recent years taken a number of policy initiatives in the financial sector to further tighten lending requirements for property developers, which, among other things:

- forbid PRC commercial banks from extending loans to property developers to finance land premiums;
- restrict PRC commercial banks from extending loans for the development of luxury residential properties;
- restrict the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- prohibit commercial banks from taking commodity properties that have been vacant for more than three years as security for mortgage loans;

- forbid property developers from using borrowings obtained from any local banks to fund property developments outside that local region; and
- increase the regulation of trust companies including the imposition of enlarged capital adequacy requirements.

The People's Bank of China ("**PBOC**") adjusts the reserve requirement ratio for commercial banks to curtail overheating of the property sector, or, as the case may be, in order to stimulate the PRC economy as necessary. The reserve requirement refers to the amount of funds that banks must hold in reserve with PBOC against deposits (including margin deposits such as acceptances, letters of credit and letters of guarantee) made by their customers. Further increases in the bank reserve requirement ratio may negatively impact the amount of funds available to lend to businesses, including to the Group, by commercial banks in Mainland China. The China Banking and Insurance Regulatory Commission also regulates the provision of 'shadow finance' in the form of wealth management products by banks and trust companies to curtail the overheating of the property sector and to protect investors. The regulations include limitations on the pooling of assets, on the proportion of wealth management products relative to other assets, on proprietary trading and on the disclosure associated with the marketing of wealth management products.

There can be no assurance that the PRC government will not introduce other initiatives which may limit the Group's access to capital resources. The foregoing and other initiatives introduced by the PRC government may limit the Group's flexibility and ability to use bank loans or other forms of financing to finance the Group's development properties and therefore may require the Group to maintain a relatively high level of internally sourced cash. As a result, the Group's business, financial condition and results of operations may be materially and adversely affected.

Mainland China inflationary pressure may result in increased construction and funding costs

Inflation in Mainland China may result in increased construction and funding costs for the Group. The PRC government uses various measures to control inflation, including increasing benchmark lending rates and reserve ratios on several occasions. As commercial banks in Mainland China link the interest rates on their loans to benchmark lending rates published by PBOC, any increase in such benchmark lending rates will increase the funding costs for the Group. The PRC government is expected to continue to manage liquidity, cool down the real estate market and use price controls when needed. The Group's business, financial condition and results of operations in Mainland China may be adversely affected by increased construction and funding costs.

The Group is exposed to foreign exchange risks

Part of the Group's revenue is denominated in Renminbi and may be converted into U.S. dollars or other foreign currencies to pay dividends or make other payments. Under the PRC's foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditure from trade, may be made in foreign currencies without prior approval, subject to certain procedural requirements. However, foreign exchange controls are imposed on capital account transactions, including repayment of loan principal and return of direct capital investments and investments in negotiable securities. In the past, there have been shortages of U.S. dollars or other foreign currency available for conversion of Renminbi in Mainland China, and it is possible such shortages could recur, or that restrictions on conversion could be re-imposed. A portion of the Group's revenue and associated operating costs are denominated in Renminbi. Any volatility of the Renminbi exchange rate in the future

may materially affect the Group's financial condition and results of operations and any devaluation of the Renminbi against foreign currencies will increase the amount of Renminbi the Group needs to service its obligations denominated in foreign currencies.

The relevant PRC tax authorities may challenge the basis on which the Group calculates its land appreciation tax (the "LAT") obligations

Under PRC tax laws and regulations, the Group's properties developed for sale or transfer are subject to LAT, which is collected by local tax authorities. All income from the sale or transfer of land use rights relating to state-owned land, buildings and their attached facilities in Mainland China is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value as defined by the relevant tax laws, with certain exceptions available for the sale of ordinary residential properties if the appreciation values do not exceed 20% of the total deductible items as defined in the relevant tax laws. On 28 December 2006, the State Administration of Taxation issued the Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises which came into effect on 1 February 2007 (the "**LAT Notice**"). Under the LAT Notice, local tax authorities can formulate their own implementation rules according to the notice and local situations. In the event that the local authorities governing cities in which the Group undertakes development projects promulgate implementation rules which require the Group to settle all unpaid LAT, it could adversely affect the Group.

The Group's management believes that it estimates and makes provision for the full amount of applicable LAT in accordance with the relevant PRC tax laws and regulations, but only pays a portion of such provision each year as required by the local tax authorities. Although the Group's management believes that such provisions are sufficient, there can be no assurance that the tax authorities will agree with the basis on which the Group calculates its LAT obligations. In the event that the local tax authorities believe a higher rate of LAT should be paid, the financial position and results of operations of the Group may be adversely affected.

Risks relating to the Notes issued under the Programme

The Notes may not be a suitable investment for all investors

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and

- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes may be complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to the purchaser's overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact such investment will have on the potential investor's overall investment portfolio.

Additionally, the investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its own legal advisers to determine whether and to what extent (1) the Notes are legal investments for it, (2) the Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase of any Notes. Financial institutions should consult their own legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The Notes are subject to modification and waivers

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. There is a risk that the decision of the majority Noteholders may be adverse to the interests of individual Noteholders. In addition, the Conditions may be amended, modified or varied in relation to any Notes by the terms of the relevant Pricing Supplement.

A change in English law which governs the Notes may adversely affect Noteholders

The Conditions of the Notes are governed by English law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of issue of the relevant Notes.

The Notes may be represented by Global Notes or Global Certificates and holders of a beneficial interest in a Global Note or a Global Certificate must rely on the procedures of the relevant Clearing System(s)

Notes issued under the Programme may be represented by one or more Global Notes or Global Certificates. Such Global Notes or Global Certificates may be deposited with a common depositary for Euroclear and Clearstream, Luxembourg or lodged with the CMU Service (each of Euroclear, Clearstream, Luxembourg and the CMU Service, a "***Clearing System***"). Except in the circumstances described in the relevant Global Note or Global Certificate, investors will not be entitled to receive Definitive Notes. The relevant Clearing System(s) will maintain records of the beneficial interests in the Global Notes or Global Certificates. While the Notes are represented by one or more Global Notes or Global Certificates, investors will be able to trade their beneficial interests only through the Clearing Systems.

While the Notes are represented by one or more Global Notes or Global Certificates, the relevant Issuer will discharge its payment obligations under the Notes by making payments to the common depositary for Euroclear and Clearstream, Luxembourg or, as the case may be, to the CMU Service, for distribution to their account holders. A holder of a beneficial interest in a Global Note or a Global

Certificate must rely on the procedures of the relevant Clearing System(s) to receive payments under the relevant Notes. The Issuers have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes or Global Certificates will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant Clearing System(s) to appoint appropriate proxies.

Noteholders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum denomination may be illiquid and difficult to trade

Notes may be issued with a minimum denomination. The Pricing Supplement of a Tranche of Notes may provide that, for so long as the Notes are represented by a Global Note or a Global Certificate and the relevant Clearing System(s) so permit, the Notes will be tradeable in nominal amounts (a) equal to, or integral multiples of, the minimum denomination, and (b) the minimum denomination plus integral multiples of an amount lower than the minimum denomination.

Definitive Notes will only be issued if, amongst others, the relevant Clearing System(s) is/are closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or does in fact do so. The Pricing Supplement may provide that, if Definitive Notes are issued, such Notes will be issued in respect of all holdings of Notes equal to or greater than the minimum denomination. However, Noteholders should be aware that Definitive Notes that have a denomination that is not an integral multiple of the minimum denomination may be illiquid and difficult to trade. Definitive Notes will in no circumstances be issued to any person holding Notes in an amount lower than the minimum denomination and such Notes will be cancelled and holders will have no rights against the relevant Issuer and the Guarantor, as the case may be, (including rights to receive principal or interest or to vote) in respect of such Notes.

Risks relating to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

Notes subject to optional redemption by the Issuers may have a lower market value than Notes that cannot be redeemed

Unless in the case of any particular Tranche of Notes the relevant Pricing Supplement specifies otherwise, in the event that the relevant Issuer or the Guarantor (as the case may be) would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by, within or on behalf of Hong Kong, the British Virgin Islands, as the case may be, or any political subdivision thereof or any authority therein or thereof having power to tax, such Issuer may redeem all outstanding Notes in accordance with the Conditions.

A particular Series of Notes may be subject to other redemption rights exercisable by the Issuer as specified in the relevant Pricing Supplement.

An optional redemption feature is likely to limit the market value of Notes. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to exercise its rights to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Risks relating to Notes which are linked to “benchmarks”

Interest rates and indices which are deemed to be or used as “benchmarks”, have been the subject of recent international regulatory guidance and proposals for reform. Some of these reforms are already effective while others have yet to be implemented. These reforms may cause such benchmarks to perform differently than in the past or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Note linked to or referencing such a benchmark.

More broadly, any of the international reforms or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. For example, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including as a result of regulatory reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, the United Kingdom Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the “**FCA Announcement**”). The FCA Announcement indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. The potential elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require an adjustment to the terms and conditions, or result in other consequences, in respect of any Notes linked to such benchmark. Such factors may have the following effects on certain benchmarks: (i) discourage market participants from continuing to administer or contribute to the benchmark; (ii) trigger changes in the rules or methodologies used in the benchmark; or (iii) lead to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a benchmark.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the relevant Issuer to meet its obligations under the Floating Rate Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by any international reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

The value of, and return on, Floating Rate Notes linked to or referencing LIBOR may be adversely affected in the event of a permanent discontinuation of LIBOR

Where Screen Rate Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, and LIBOR has been selected as the Reference Rate, the Conditions provide that the Rate of Interest shall be determined by reference to the Relevant Screen Page (or its successor or replacement). In circumstances where LIBOR is discontinued, neither the Relevant Screen Page, nor any successor or replacement may be available.

Where the Relevant Screen Page is not available, and no successor or replacement for the Relevant Screen Page is available, the Conditions provide for the Rate of Interest to be determined by the Calculation Agent or the relevant Issuer by reference to quotations from banks communicated to the Calculation Agent or the relevant Issuer. Where such quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of LIBOR), the Rate of Interest may revert to the Rate of Interest applicable as at the last preceding Interest Determination Date before LIBOR was discontinued, and if LIBOR is discontinued permanently, the same Rate of Interest will continue to be the Rate of Interest for each successive Interest Period until the maturity of the Floating Rate Notes, so that the Floating Rate Notes will, in effect, become fixed rate notes utilising the last available LIBOR rate. Uncertainty as to the continuation of LIBOR, the availability of quotes from reference banks, and the rate that would be applicable if LIBOR is discontinued may adversely affect the value of, and return on, the Floating Rate Notes.

Where ISDA Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, the Conditions provide that the Rate of Interest in respect of the Notes shall be determined by reference to the relevant Floating Rate Option in the 2006 ISDA Definitions. Where the Floating Rate Option specified is a “LIBOR” Floating Rate Option, the Rate of Interest may be determined by reference to the relevant screen rate or the rate determined on the basis of quotations from certain banks. If LIBOR is permanently discontinued and the relevant screen rate or, failing that, quotations from banks are not available, the operation of these provisions may lead to uncertainty as to the Rate of Interest that would be applicable, and may, adversely affect the value of, and return on, the Floating Rate Notes.

Dual currency notes have features which are different from single currency issues

Each of the Issuers may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected; and
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero.

Failure by an investor to pay a subsequent instalment of partly-paid Notes may result in an investor losing all of its investment

Each of the Issuers may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent installments could result in an investor losing all of its investment.

The market price of variable rate Notes with a multiplier or other leverage factor may be volatile

Notes with variable interest rates can be volatile securities. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include such features.

Inverse Floating Rate Notes are typically more volatile than conventional floating rate debt

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Notes carrying an interest rate which may be converted from fixed to floating interest rates and vice-versa, may have lower market values than other Notes

Fixed/Floating Rate Notes may bear interest at a rate that an Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on the Notes.

The market prices of Notes issued at a substantial discount or premium tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Investors may lose part or all of their investment in any Index Linked Notes

If, in the case of a particular tranche of Notes, the relevant Pricing Supplement specifies that the Notes are Index-Linked Notes or variable redemption amount Notes, there is a risk that the investor may lose the value of its entire investment or part of it.

Risks Relating to Renminbi-denominated Notes

Notes denominated in RMB (“**RMB Notes**”) may be issued under the Programme. RMB Notes contain particular risks for potential investors.

Renminbi is not freely convertible; there are significant restrictions on remittance of Renminbi into and outside Mainland China which may adversely affect the liquidity of RMB Notes

Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the U.S. dollar, despite the significant reduction over the years by the PRC government of control over the import and export of goods and services as well as other routine foreign exchange transactions under current accounts. On the other hand, remittance of Renminbi by foreign investors into Mainland China for the settlement of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in Mainland China on the remittance of Renminbi into Mainland China for settlement of capital account items are still in the course of being developed.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016 and PBOC implemented policies further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies in 2018, there is no assurance that the PRC government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that any pilot schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in Mainland China will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside Mainland China. In the event that funds cannot be repatriated outside Mainland China in Renminbi, this may affect the overall availability of Renminbi outside Mainland China and the ability of the relevant Issuer or the Guarantor to source Renminbi to finance its obligations under the RMB Notes.

Holders of beneficial interests in the RMB Notes may be required to provide certifications and other information (including Renminbi account information) in order to allow such holder to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in Singapore, Hong Kong and Taiwan.

There is only limited availability of Renminbi outside Mainland China, which may affect the liquidity of RMB Notes and the Issuer’s ability to source Renminbi outside Mainland China to service such RMB Notes

As a result of the restrictions imposed by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside Mainland China is limited. While PBOC has entered into agreements on the clearing of Renminbi business with financial institution in a number of financial centres and cities (each, a “**Renminbi Clearing Bank**”) including but not limited to Hong Kong, and is in the process of establishing Renminbi clearing and settlement mechanisms (“**Settlement Arrangements**”) in several other jurisdictions, the current size of Renminbi-denominated financial assets outside Mainland China remains limited.

There are restrictions imposed by PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with enterprises in Mainland China. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from PBOC. The Renminbi Clearing Banks only have access to onshore liquidity support from PBOC for the purpose of squaring open positions of participating banks for limited types of

transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from outside Mainland China to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside Mainland China. The limited availability of Renminbi outside Mainland China may affect the liquidity of the RMB Notes. To the extent the relevant Issuer or the Guarantor is required to source Renminbi outside Mainland China to service the RMB Notes, there is no assurance that the relevant Issuer or the Guarantor will be able to source such Renminbi on satisfactory terms, if at all.

Investment in RMB Notes is subject to exchange rate risks

The value of Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by changes in Mainland China and international political and economic conditions and by many other factors. All payments of interest and principal will be made with respect to RMB Notes in Renminbi. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If an investor measures its investment returns by reference to a currency other than Renminbi, an investment in the RMB Notes entails foreign exchange related risks, including possible significant changes in the value of Renminbi relative to the currency by reference to which an investor measures its investment returns. Depreciation of Renminbi against such currency could cause a decrease in the effective yield of the RMB Notes below their stated coupon rate(s) and could result in a loss when the return on the RMB Notes is translated into such currency. Accordingly, the value of the investment made by a holder of the RMB Notes in that foreign currency will decline.

Investment in RMB Notes is subject to interest rate risks

The value of Renminbi payments under the RMB Notes, may be susceptible to interest rate fluctuations occurring within and outside Mainland China, including Mainland China Renminbi repo rates and/or the Shanghai inter-bank offered rate. The PRC government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside Mainland China may significantly deviate from the interest rate for Renminbi in Mainland China as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

As RMB Notes may carry a fixed interest rate, the trading price of the RMB Notes will consequently vary with the fluctuations in Renminbi interest rates. If holders of RMB Notes propose to sell their RMB Notes before their maturity, they may receive an offer lower than the amount they have invested.

Payments in respect of RMB Notes will only be made to investors in the manner specified in such RMB Notes

All payments to investors in respect of RMB Notes will be made solely: (i) for as long as RMB Notes are represented by global notes or certificates held in the CMU Service, by transfer to a Renminbi bank account maintained by or on behalf of the holder with a bank in Hong Kong in accordance with prevailing CMU Service rules and procedures; or (ii) for as long as RMB Notes are in definitive form, by transfer to a Renminbi bank account maintained by or on behalf of the holder with a bank in Hong Kong in accordance with prevailing rules and regulations. The relevant Issuer and the Guarantor (as the case may be) cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in Mainland China).

Gains on the transfer of RMB Notes may become subject to income taxes under PRC tax laws

In considering whether to invest in the RMB Notes, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situation as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the holder's investment in the RMB Notes may be materially and adversely affected if the holder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those RMB Notes.

Risks relating to the market generally

Set out below is a brief description of certain market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

Notes issued under the Programme have no current active trading market and may trade at a discount to their initial offering price and/or with limited liquidity

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and forms a single series with a Tranche of Notes which is already issued). In particular, one or more initial investors in the Notes may purchase a significant portion of the aggregate principal amount of the Notes pursuant to an offering. The existence of any such significant Noteholder(s) may reduce the liquidity of Notes in the secondary trading market. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Group. If the Notes are trading at a discount, investors may not be able to receive a favourable price for their Notes, and in some circumstances investors may not be able to sell their Notes at all or at their fair market value. Although an application may be made for the Notes issued under the Programme to be admitted to listing on Hong Kong Stock Exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. In addition, the market for investment grade and crossover grade debt has been subject to disruptions that have caused volatility in prices of securities similar to the Notes issued under the Programme. Accordingly, there is no assurance as to the development or liquidity of any trading market, or that disruptions will not occur, for any particular Tranche of Notes.

Exchange rate risks and exchange controls may result in investors receiving less interest or principal than expected

The relevant Issuer will pay principal and interest on the Notes in the currency specified in the relevant Pricing Supplement (the “***Specified Currency***”). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “***Investor's Currency***”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Changes in market interest rates may adversely affect the value of Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes.

The credit ratings assigned to the Notes may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to an issue of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

The liquidity and price of the Notes may be volatile

The price and trading volume of the Notes may be highly volatile. Factors such as variations in the revenues, earnings and cash flows of the relevant Issuer or the Group and proposals of new investments, strategic alliances and/or acquisitions, interest rates and fluctuations in prices for comparable companies could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the volume and price at which the Notes will trade. There can be no assurance that these developments will not occur in the future.

Developments in other markets may adversely affect the market price of the Notes

The market price of the Notes may be adversely affected by declines in the international financial markets and world economic conditions. The market for the Notes will, to varying degrees, be influenced by economic, political, social and market conditions in other markets, especially those in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can affect the securities markets and the securities of issuers in other countries, including Hong Kong and Mainland China. Since the global financial crisis of 2008 and 2009, the international financial markets have experienced significant volatility. In particular, the ongoing COVID-19 pandemic has caused stock markets worldwide to lose significant value since February 2020. If similar developments occur in the international financial markets in the future, the market price of the Notes could be adversely affected.

USE OF PROCEEDS

The net proceeds of any Notes issued under the Programme shall be used by the Group for general corporate purposes. If, in respect of any particular issue, there is a particular identified use of proceeds, this will be stated in the applicable Pricing Supplement.

MONTARA & GRAND MONTARA, the second development in the O'EAST portfolio comprised of two high-rise residential towers, was launched for presale in the second quarter of 2019. The presale achieved 100% sell-through rate, and 1,120 units were presold, achieving HK\$9.8 billion of sales, with an average selling price of HK\$15,200 per square foot.

Land Bank

During 2019, the Group continued to replenish its land bank in urban areas. A total of five Kai Tak sites with an attributable GFA of 1.6 million square feet were acquired in 2019. As at 31 December 2019, the Group's Hong Kong development properties land bank grew moderately to 6.6 million square feet from 6.3 million square feet as at 31 December 2018. Following a successful bid for Lohas Park Package 12 development, the Group's fourth development in its O'EAST portfolio, in February 2020, the Group's land bank further rose to 7.5 million square feet. As at 30 June 2020, the Group's land bank amounted to 7.0 million square feet. The Group strives to maintain an adequate level of land bank through selective replenishment. The Group's diverse land bank provides a wide variety of product offerings ranging from MTR residences and waterfront living, to suburban houses and the Peak collection (held by WHL).

Kowloon East

Covering seven residential sites under development (including one site held by WHL), the land bank in Kai Tak encompassed 2.2 million square feet on an attributable basis, of which the five harbour-front sites along the former airport runway are jointly developed through various joint ventures. The two sites which are wholly-owned by the Group, namely, NKIL 6564 and NKIL 6563, represent the last batch of residential developments in the future Kai Tak City Centre. The acquisition of the Kai Tak residential plot offers an opportunity to further expand Wheelock's property portfolio in the Kai Tak area and achieve synergy with existing projects in the vicinity.

The Kowloon East Waterfront Portfolio comprises the Kowloon Godown and Yau Tong Bay joint venture project held by WHL. For detailed information in relation to the Kowloon Godown and Yau Tong Bay joint venture project, please refer to "*The Wharf (Holdings) Limited — Hong Kong Properties — Kowloon East and Others*" in this Offering Circular.

Kowloon Tong Residential Project

A residential development site in Kowloon Tong was acquired by the WHL Group in a public tender in January 2018 for HK\$12.5 billion. With a total developable GFA of 436,000 square feet, the site is strategically located at the junction of Lion Rock Tunnel Road and Lung Cheung Road and adjacent to the traditional luxury residential area of Beacon Hill with a Kowloon Peninsula view. Situated along the coastline with a spectacular Victoria Harbour view, Kowloon Godown comprises a warehouse and an open yard with an existing operating GFA of one million square feet. The WHL Group is evaluating different options available for the re-development of Kowloon Godown. General building plans for a revitalisation scheme for the warehouse was approved in June 2018.

Properties held for investment purposes in Mainland China

The Wharf REIC Group's properties held for investment purposes in Mainland China are all held by HCDL and comprise (i) a hotel in Suzhou IFS, and (ii) the Marco Polo Changzhou hotel in Changzhou. In light of the rapidly changing business environment, the HCDL Group has been evaluating different business options and currently intends to divest its interests in these assets if appropriate offers with acceptable commercial terms from third parties are received.

Marco Polo Changzhou

Located in the Xinbei District in Changzhou, the Marco Polo Changzhou hotel has 302 rooms, with areas ranging from 452 square feet for a guestroom to 1,948 square feet for the Marco Polo Suite, and 4,446 square feet for the Presidential Suite. It features recreational and other facilities and amenities including a pillar-less grand ballroom, meeting rooms, a business centre, a fitness centre, outdoor venues for weddings, four restaurants and bars. It is managed by Wharf Hotels.

Development Properties in Mainland China

The Wharf REIC Group's development properties in Mainland China comprise four property development projects in Chongqing, Suzhou and Shanghai, of which two are held by subsidiaries of HCDL, and the remaining two are held through a joint venture and an associate, respectively. It is intended that all completed properties in these four projects will be sold. Most of the pre-sold properties had been delivered to the purchasers by the end of 2017. The Wharf REIC Group expects that (i) the Wharf REIC Group will not generate significant revenue from property development in Mainland China following such delivery, and (ii) the Shanghai South Station project (in which HCDL has a 27% interest and through which the Wharf REIC Group has a 19% attributable interest), which will contribute to the Wharf REIC Group's share of results after tax of its associate, will be completed in the first half of 2022. The HCDL Group has no other landbank for development and the Wharf REIC Group understands from the HCDL Group that it does not intend to replenish its landbank. The Wharf REIC Group does not intend to further engage in property development in Mainland China.

Suzhou IFS

Suzhou IFS is a mixed-use integrated complex under development, in which HCDL owns an 80% interest. Located in the new central business district in Suzhou, Suzhou IFS will be a 450-metre tower comprising Grade A offices, sky residences, serviced apartments and a premium boutique hotel, Niccolo Suzhou, with 216 rooms (which is intended to be managed by Wharf Hotels). Scheduled for phased completion, with full completion expected in 2021, Suzhou IFS will become one of the tallest buildings in Jiangsu Province. Pre-sale of the apartment units and office has commenced since late 2018 and Niccolo Suzhou is scheduled to open in 2021.

GROUP CORPORATE SOCIAL RESPONSIBILITY ("CSR") AND BUSINESS-IN-COMMUNITY ("BIC")

Community well-being is prioritised as a key consideration in the Group's business decision making. The Group supports a wide range of CSR programmes and initiatives spanning education, community, sustainable development and lifestyle.

Education

Project *WeCan*, the Group's key BIC initiative, aims to provide secondary school students who are disadvantaged in learning with support to broaden their horizons, equip them and unleash their potential for future careers. With the support of 68 partners, the programme has been benefitting over 70,000

students in 76 secondary schools in Hong Kong through various enrichment activities. In April 2020, a Career Exploration Online Platform was launched to support senior secondary school students in their career exploration during class suspension. The participating students were able to obtain insights on their career and life goal planning through watching career-related videos and “Star Talks” by industry leaders or through joining the live chat sessions hosted by guest speakers and *WeCan* partners.

Community

Since Hong Kong has been affected by the COVID-19 pandemic, the Group has devoted collective efforts in providing 76 *WeCan* schools with batches of anti-pandemic resources. Through collaboration with other *WeCan* partners, over 92,000 essential supplies, including face masks, hand sanitisers, disinfectant wipes and cleaning items were donated. The Group has also supported the community by donating personal protective equipment to more than 20 organisations.

Sustainable development

WPL remains committed to improving its environmental performance and minimising environmental impact of its buildings throughout their lifecycles. It continues to integrate green building standards and practices into all development projects. During six months ended 30 June 2020, 8 Bay East (which was subsequently renamed as NEO), an office development in Kowloon East, was awarded LEED and BEAM Plus Final Platinum certifications.

WPL was awarded as one of the Top 10 Developers in 2020 by BCI Asia, in recognition of its excellence in developing quality buildings. WPL also prides itself on being shortlisted in the Royal Institution of Chartered Surveyors (“*RICS*”) Awards Hong Kong 2020 in the following categories: CSR Project, Residential Team, Construction Project Management and Sustainability Achievement. The RICS awards, which are known as the property sector’s “Oscars,” showcase the outstanding developments and talents who create better spaces to live and work.

In February 2020, WPL signed the Low Carbon Charter launched by the Business Environment Council, committing to work towards carbon reduction in response to the goals of the United Nations Framework Convention on Climate Change’s Paris Agreement.

Lifestyle

National Geographic Wheelock Hong Kong Photo Contest 2019 – an annual worldwide competition co-organised with National Geographic – was concluded. Themed around “Hong Kong Story: Nature, City and People”, the competition received almost 3,000 submissions from 15 countries and territories. The Winners’ Exhibition was held at Gallery by the Harbour, showcasing the awe-inspiring works to reveal the best of the Oriental Pearl.

RECENT DEVELOPMENT

The ongoing COVID-19 pandemic has caused substantial disruptions in Hong Kong, Mainland China and international economies and markets as well as creating additional uncertainties in the Group’s businesses and operating environment. With the significant reduction of inbound tourism and weak local consumer sentiment caused by the ongoing COVID-19 pandemic, the Group’s investment properties and hotel business segments have been severely impacted. Office occupancy rates and rental levels are also under severe pressure. The Group has been closely monitoring the impact of the development of the COVID-19 pandemic on its businesses and will continue to review its proactive measures and risk management as the situation evolves.

The ongoing COVID-19 pandemic poses potential risks to the Group’s business, financial condition and results of operations. For further information, please see “*Risk Factors — The Group’s businesses are subject to the effects of global economic events*”, “*Risk Factors — Economic, political, social and legal developments in Hong Kong and Mainland China could negatively affect the Group’s business*” and “*Risk Factors — The Group’s prospects may be adversely affected by an outbreak, epidemic and/or pandemic of, infectious or contagious diseases, natural disasters, terrorist attacks, other acts of violence or war, or social instability*” in this Offering Circular.

Wheelock's Interim Financial Statements have been prepared by Wheelock in accordance with Hong Kong Accounting Standard ("*HKAS*") 34 "Interim Financial Reporting" ("*HKAS 34*") issued by the Hong Kong Institute of Certified Public Accountants ("*HKICPA*").

The preparation of Wheelock's Interim Financial Statements in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses on a year to date basis. The Group has not applied any new standards or interpretation that is not yet effective for the accounting period beginning on 1 January 2020.

Fair Value Measurement of Financial Instruments

Financial assets and liabilities carried at fair value

The Group's financial instruments carried at fair value are measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement ("**HKFRS 13**"). The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique. The levels are defined as follows:

Level 1 valuations:	Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
Level 2 valuations:	Fair value measured using only Level 2 inputs i.e. observable inputs which fail to meet Level 1 and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
Level 3 valuations:	Fair value measured using significant unobservable inputs.

Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of interest rate swaps and cross currency interest rate swaps in Level 2 is determined based on the amount that the Group would receive or pay to terminate the swaps at the end of the reporting period taking into account current interest rates and current creditworthiness of the swap counter-parties.

The fair value of forward exchange contracts in Level 2 is determined by using the forward exchange rates at the end of the reporting period and comparing them to the contractual rates.

The fair values of bank loans and other borrowings in Level 2 are determined based on cash flows discounted using the Group's current incremental borrowing rates for similar types of borrowings with maturities consistent with those remaining for the debt being valued.

The following table sets forth the consolidated capitalisation and indebtedness of the Group as at 30 June 2020 (unaudited) and should be read in conjunction with the Group's unaudited consolidated interim financial statements as at and for the six months ended 30 June 2020 which have not been audited or reviewed by KPMG or any other independent auditors.

- (i) such Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Registered Notes constitute loan capital (as defined in the *SDO*).

If stamp duty is payable in respect of the transfer of Registered Notes it will be payable at the rate of 0.2% (of which 0.1% is payable by the seller and 0.1% is payable by the purchaser) normally by reference to the consideration or its value, whichever is higher. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

PRC

If considering whether to invest in the Notes, potential purchasers should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdiction.

Pursuant to the New Enterprise Income Tax Law (the “*New EIT Law*”) and its implementation regulations, enterprises that are established under laws of foreign countries and regions (including Hong Kong, Macau and Taiwan) but whose “de facto management body” are within the territory of the PRC shall be PRC tax resident enterprises for the purpose of the New EIT Law and they shall pay enterprise income tax at the rate of 25% in respect of their income sourced from both within and outside the PRC. If relevant PRC tax authorities decide, in accordance with applicable tax rules and regulations, that the “de facto

management body” of an Issuer is within the territory of the PRC, that relevant Issuer may be held to be a PRC tax resident enterprise for the purpose of the New EIT Law and be subject to enterprise income tax at the rate of 25% for its income sourced from both within and outside the PRC.

As of the date of this Offering Circular, none of the Issuers have been notified or informed by the PRC tax authorities that they are considered as PRC tax resident enterprise for the purpose of the New EIT Law. However, there is no assurance that one or more of the Issuers will not be treated as PRC tax resident enterprises under the New EIT Law and related implementation regulations in the future. If the relevant Issuer is treated as a PRC tax resident enterprise, the interest payable by the Issuer may be considered as income sourced inside the PRC.

Pursuant to the New EIT Law and its implementation regulations, any non-resident enterprises without an establishment in the PRC or whose income has no actual connection to its establishment inside the PRC may be subject to enterprise income tax at the rate of 10% on the passive incomes including interest payable sourced inside the PRC. Such income tax shall be withheld at source by the PRC payer acting as the obligatory withholder, who shall withhold the tax amount from each payment or payment due. Accordingly, in the event an Issuer is deemed to be a PRC tax resident enterprise by the PRC tax authorities in the future, the relevant Issuer shall withhold income tax from the payments of interest in respect of the Notes for any non-PRC enterprise Noteholder. However, notwithstanding the potential withholding of PRC tax by the Issuers, the relevant Issuer has agreed to pay additional amounts to holders of the Notes so that holders of the Notes would receive the full amount of the scheduled payment, as further set out in the Terms and Conditions of the Notes. In addition, if any Issuer is treated as a PRC tax resident enterprise under the New EIT Law and related implementation regulations in the future, any gain realised by the non-resident enterprise Noteholders from the transfer of the Notes may be regarded as being derived from sources within the PRC and accordingly would be subject to up to 10% of PRC withholding tax.

FATCA Withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“*foreign passthru payments*”) to persons that fail to meet certain certification, reporting, or related requirements. The Issuers may be a foreign financial institution for these purposes. A number of jurisdictions (including Hong Kong and the British Virgin Islands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“*IGAs*”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register, and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining “foreign passthru payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). However, if additional notes (as described under “*Terms and Conditions — Further Issues*”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period

and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

British Virgin Islands

No estate, inheritance, succession or gift tax, rate, duty, levy or other charge is payable by persons who are not resident in the British Virgin Islands with respect to the Notes.

All instruments relating to transfers of property to or by WKBVI and all instruments relating to transactions in respect of the Notes and all instruments relating to other transactions relating to the business of WKBVI are exempt from payment of stamp duty in the British Virgin Islands. This assumes that WKBVI does not hold an interest in real estate in the British Virgin Islands.

There are currently no withholding taxes or exchange control regulations in the British Virgin Islands applicable to WKBVI or its members.

The British Virgin Islands enacted the Economic Substance (Companies and Limited Partnerships) Act, 2018 (the “*ES Act*”), which became effective on 1 January 2019, the Rules on Economic Substance in the Virgin Islands, containing rules and guidance relating to the interpretation of the ES Act and how the International Tax Authority (the “*ITA*”) will carry out its obligations, were released on 9 October 2019, and were further updated on 10 February 2020. WKBVI is required to report to the ITA on a periodic basis to enable the ITA to monitor compliance with the economic substance requirements, if it is carrying on one or more relevant activities. If this is the case, it may be required to adopt adequate economic substance in the British Virgin Islands.

PRC CURRENCY CONTROLS

The following is a general description of certain currency controls in the PRC and is based on the law and relevant interpretations thereof in effect as at the date of this Offering Circular, all of which are subject to change, and does not constitute legal advice. It does not purport to be a complete analysis of all applicable currency controls in the PRC relating to the Notes. Prospective holders of Notes who are in any doubt as to PRC currency controls are advised to consult their own professional advisers.

Remittance of Renminbi into and outside the PRC

Renminbi is not a freely convertible currency. The remittance of Renminbi into and outside the PRC is subject to controls imposed under PRC law.

Current Account Items

Under PRC foreign exchange control regulations, current account item payments include payments for imports and exports of goods and services, payments of income and current transfers into and outside the PRC.

Prior to July 2009, all current account items were required to be settled in foreign currencies with limited exceptions. Since July 2009, the PRC has commenced a scheme pursuant to which Renminbi may be used for settlement of imports and exports of goods between approved pilot enterprises in five designated cities in the PRC including Shanghai, Guangzhou, Dongguan, Shenzhen and Zhuhai and enterprises in designated offshore jurisdictions including Hong Kong and Macau. On 17 June 2010, 24 August 2011 and 3 February 2012 respectively, the PRC government promulgated the Circular on Issues concerning the Expansion of the Scope of the Pilot Programme of Renminbi Settlement of Cross-Border Trades (Yin Fa (2010) No. 186), the Circular on Expanding the Regions of Cross-border Trade Renminbi Settlement and the Notice on Matters Relevant to the Administration of Enterprises Engaged in Renminbi Settlement of Export Trade in Goods (together, the “**Circulars**”). Pursuant to these Circulars, (i) Renminbi settlement of imports and exports of goods and of services and other current account items became permissible, (ii) the list of designated pilot districts was expanded to cover all provinces and cities in the PRC, (iii) the restriction on designated offshore districts was lifted, and (iv) any enterprise qualified for the export and import business is permitted to use Renminbi as settlement currency for exports of goods without obtaining the approval as previously required, provided that the relevant provincial government has submitted to PBOC and five other PRC authorities (the “**Six Authorities**”) a list of key enterprises subject to supervision and the Six Authorities have verified and signed off such list (the “**Supervision List**”). On 12 June 2012, the PBoC issued a notice stating that the Six Authorities had jointly verified and announced a Supervision List and as a result any enterprise qualified for the export and import business is permitted to use Renminbi as a settlement currency for exports.

On 5 July 2013, PBOC promulgated the Circular on Policies related to Simplifying and Improving Cross-border Renminbi Business Procedures (關於簡化跨境人民幣業務流程和完善有關政策的通知) (the “**2013 PBOC Circular**”) which simplified the procedures for cross-border Renminbi trade settlement under current account items. On 1 November 2014, PBOC introduced a cash pooling arrangement for qualified multinational enterprise group companies, under which a multinational enterprise group can process cross-border Renminbi payments and receipts for current account items on a collective basis for eligible member companies in the group. On 5 September 2015, PBOC promulgated the Circular on Further Facilitating the Cross-Border Bi-directional Renminbi Cash Pooling Business by Multinational Enterprise Groups (關於進一步便利跨國企業集團開展跨境雙向人民幣資金池業務的通知) (the “**2015 PBOC Circular**”), which, among others, have lowered the eligibility requirements for multinational enterprise groups and increased the cap for net cash inflow. The 2015 PBOC Circular also provides that

enterprises in the China (Shanghai) Free Trade Pilot Zone (“*Shanghai FTZ*”) may establish an additional cash pool in the local scheme in the Shanghai FTZ, but each onshore company within the group may only elect to participate in one cash pool.

The regulations referred to above are subject to interpretation and application by the relevant PRC authorities. Local authorities may adopt different practices in applying these regulations and impose conditions for settlement of current account items. Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the use of Renminbi for payment of transactions categorised as current account items, then such settlement will need to be made subject to the specific requirements or restrictions set out in such rules.

Capital Account Items

Under PRC foreign exchange control regulations, capital account items include cross-border transfers of capital, direct investments, securities investments, derivative products and loans. Capital account payments are generally subject to approval of, and/or registration or filing with, the relevant PRC authorities.

Prior to October 2011, capital account items of foreign invested entities were generally required to be made in foreign currencies. For instance, foreign investors (including any Hong Kong investors) were generally required to make any capital contribution to foreign invested enterprises in a foreign currency in accordance with the terms set out in the relevant joint venture contracts and/or articles of association as approved by the relevant authorities. Foreign invested enterprises or any other relevant PRC parties were also generally required to make capital item payments, including proceeds from liquidation, transfer of shares, reduction of capital, interest and principal repayment to a foreign investor in a foreign currency.

On 10 May 2013, the State Administration of Foreign Exchange of the PRC (“*SAFE*”) promulgated the “Provisions on the Foreign Exchange Administration of Domestic Direct Investment by Foreign Investors” (the “*SAFE Provisions*”), which became effective on 13 May 2013. According to the *SAFE Provisions*, foreign investors can use cross-border Renminbi (including Renminbi inside and outside the PRC held in the capital accounts of non-PRC residents) to make a contribution to an onshore enterprise or make a payment for the transfer of an equity interest of an onshore enterprise by a PRC resident within the total investment amount approved by the competent authorities (for example, MOFCOM and/or its local counterparts as well as financial regulators). Capital account transactions in Renminbi must generally follow the current foreign exchange control regime applicable to foreign currencies.

On 13 February 2015, the *SAFE* promulgated the Notice of the State Administration of Foreign Exchange on Further Simplifying and Improving the Policies of Foreign Exchange Administration Applicable to Direct Investment (the “*13 Notice*”), which became effective on 1 June 2015. According to the *13 Notice*, two administrative examination and approval items, such as the verification and approval of foreign exchange registration under domestic direct investment, and verification and approval of foreign exchange registration under overseas direct investment, shall be abolished. The *13 Notice* also simplifies the procedures for handling certain foreign exchange services under direct investment.

On 30 March 2015, the *SAFE* promulgated the Notice of the State Administration of Foreign Exchange on Reforming the Administrative Approach Regarding the Settlement of the Foreign Exchange Capitals of Foreign-invested Enterprises (the “*19 Notice*”), which became effective on 1 July 2015. According to the *19 Notice*, foreign-invested enterprises shall be allowed to settle their foreign exchange capitals on a discretionary basis, which means that foreign-invested enterprise may, according to its actual

business needs, settle with a bank the portion of the foreign exchange capital in its capital account for which the relevant foreign exchange bureau has confirmed monetary contribution rights and interests (or for which the bank has registered the account-crediting of monetary contribution).

On 26 January 2017, the SAFE issued the *Notice on Further Promoting the Reform of Foreign Exchange Administration and Improving the Examination of Authenticity and Compliance* (國家外匯管理局關於進一步推進外匯管理改革完善真實合規性審核的通知) (匯發[2017]3號) to further advance the reform of foreign exchange administration, such as:

- settlement of domestic foreign exchange loans are allowed for export trade in goods. A domestic institution shall repay loans with the foreign exchange funds received from export trade in goods, rather than, in principle, purchased foreign exchange;
- a debtor may directly or indirectly repatriate the funds under guarantee and use them domestically by, among others, granting loans and making equity investment domestically. Where a bank performs its guarantee obligation under overseas loans with domestic guarantee, relevant foreign exchange settlement and sale shall be managed as the bank's own foreign exchange settlement and sale;
- the deposits absorbed by a domestic bank through its principal international foreign exchange account and allowed to be used domestically are no more than 100% of the average daily deposit balance in the previous six months as opposed to the former 50%; and the funds used domestically are not included in the bank's outstanding short-term external debt quota;
- allowing foreign exchange settlement in the domestic foreign exchange accounts of overseas institutions within pilot free trade zones: where funds are repatriated and used domestically after settlement, a domestic bank shall, under the relevant provisions on cross-border transactions, handle such funds by examining the valid commercial documents and vouchers of domestic institutions and domestic individuals; and
- where a domestic institution grants overseas loans, the total of the balance of overseas loans granted in domestic currency and the balance of overseas loans granted in foreign currency shall not exceed 30% of owner's equity in the audited financial statements of the previous year.

The foregoing circulars, notices and measures will be subject to interpretation and application by the relevant PRC authorities. There is no assurance that approval of such remittances, borrowing or provision of external guarantee in Renminbi will continue to be granted or will not be revoked in the future. Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in the relevant rules or provisions administered by the SAFE.

CLEARANCE AND SETTLEMENT

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear, Clearstream, Luxembourg or the CMU Service (together, the “Clearing Systems”) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that Wheelock, WKFL and WKBVI believe to be reliable, but neither Wheelock, WKFL, WKBVI nor any Dealer or the Arranger takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. Neither Wheelock, WKFL, WKBVI nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to, or payments made on account of, such beneficial ownership interests.

The relevant Pricing Supplement will specify the Clearing System(s) applicable for each Series.

The Clearing Systems

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear or Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg participant, either directly or indirectly.

Distributions of principal with respect to book-entry interests in the Notes held through Euroclear or Clearstream, Luxembourg will be credited, to the extent received by the Paying Agent, to the cash accounts of Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system’s rules and procedures.

CMU Service

The CMU Service is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the members of this service (“**CMU Members**”) of capital markets instruments (“**CMU Instruments**”) which are specified in the CMU Service Reference Manual as capable of being held within the CMU Service.

The CMU Service is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. Membership of the CMU Service is open to all members of the Asia Capital Markets Association and “authorised institutions” under the Banking Ordinance (Cap. 155) of Hong Kong.

Compared to clearing services provided by Euroclear and Clearstream, Luxembourg, the standard custody and clearing service provided by the CMU Service is limited. In particular (and unlike the European clearing systems), the HKMA does not as part of this service provide any facilities for the dissemination to the relevant CMU Members of payments (of interest or principal) under, or notices pursuant to the notice provisions of, the CMU Instruments. Instead, the HKMA advises the lodging CMU Member (or a designated paying agent) of the identities of the CMU Service Members to whose accounts payments in respect of the relevant CMU Instruments are credited, whereupon the lodging CMU Member (or the designated paying agent) will make the necessary payments of interest or principal or send notices directly to the relevant CMU Members. Similarly, the HKMA will not obtain certificates of non-U.S. beneficial ownership from CMU Members or provide any such certificates on behalf of CMU Members. The CMU Lodging Agent will collect such certificates from the relevant CMU Members identified from an instrument position report obtained by request from the HKMA for this purpose.

An investor holding an interest through an account with either Euroclear or Clearstream, Luxembourg in any Notes held in the CMU Service will hold that interest through the respective accounts which Euroclear and Clearstream, Luxembourg each have with the CMU Service.

Book-Entry Ownership

Bearer Notes

Each Issuer has made applications to Euroclear and Clearstream, Luxembourg for acceptance in their respective book-entry systems in respect of any Series of Bearer Notes. The relevant Issuer may also apply to have Bearer Notes accepted for clearance through the CMU Service. In respect of Bearer Notes, a temporary Global Note and/or a permanent Global Note will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg or a sub-custodian for the CMU Service. Transfers of interests in a temporary Global Note or a permanent Global Note will be made in accordance with the normal market debt securities operating procedures of the CMU Service, Euroclear and Clearstream, Luxembourg. Each Global Note will, where applicable, have an International Securities Identification Number (“*ISIN*”) and/or a Common Code or a CMU Instrument Number. Investors in Bearer Notes of such Series may hold their interests in a Global Note only through Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be.

Registered Notes

Each Issuer has made applications to Euroclear and Clearstream, Luxembourg for acceptance in their respective book-entry systems in respect of the Registered Notes to be represented by a Global Certificate. Each Issuer may also apply to have the Registered Notes represented by a Global Certificate accepted for clearance through the CMU Service. Each Global Certificate deposited with a common depositary for Euroclear and/or Clearstream Luxembourg will, where applicable, have an ISIN and/or a Common Code or, if lodged with a sub-custodian for the CMU Service, will have a CMU Instrument Number. Investors in Registered Notes of such Series may hold their interests in a Global Certificate only through Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be.

Individual Definitive Certificates

Registration or title to Registered Notes in a name other than a depositary for Euroclear and Clearstream, Luxembourg or a sub-custodian for the CMU Service will not be permitted unless (i) in the case of Registered Notes deposited with a common depositary for Euroclear and Clearstream, Luxembourg, or lodged with a sub-custodian for the CMU Service, Euroclear or Clearstream, Luxembourg or the CMU Service is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so. In such circumstances, the Issuer will cause sufficient individual Definitive Certificates to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Noteholder(s). A person having an interest in a Global Certificate must provide the Registrar with a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Certificates.

SUBSCRIPTION AND SALE

Summary of Dealer Agreement

Subject to the terms and on the conditions contained in the amended and restated dealer agreement dated 19 October 2020 (and as may be further amended, supplemented, replaced and/or restated from time to time, the “**Dealer Agreement**”) between Wheelock, WKFL, WKBVI, the Permanent Dealers and the Arranger, the Notes may be offered by the Issuers to the Permanent Dealers. However, each of WKFL and WKBVI has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the relevant Issuer through the Dealers, acting as agents of the relevant Issuer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are underwritten by two or more Dealers.

The relevant Issuer will pay each relevant Dealer a commission (if any) as agreed between them in respect of Notes subscribed by it. Each of WKFL and WKBVI, failing whom the Guarantor, has agreed to reimburse the Arranger for certain of its expenses incurred in connection with the update of the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions (if any) in respect of an issue of Notes on a syndicated basis will be stated in the relevant Pricing Supplement.

Each of WKFL and WKBVI, failing whom the Guarantor, has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the relevant Issuer.

The Dealers and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities (“**Banking Services**” or “**Transactions**”). The Dealers and their respective affiliates may have, from time to time, performed, and may in the future perform, various Banking Services and/or Transactions with Wheelock, WKFL, WKBVI and/or their respective affiliates for which they have received, or will receive, fees and expenses.

In connection with the offering of the Notes issued under the Programme, the Dealers and/or their respective affiliates, or affiliates of Wheelock, WKFL or WKBVI, may act as investors and place orders, receive allocations and trade the Notes for their own account and such orders, allocations or trade of the Notes may be material. Such entities may hold or sell such Notes or purchase further Notes for their own account in the secondary market or deal in any other securities of Wheelock, WKFL, WKBVI and/or their respective affiliates, and therefore, they may offer or sell the Notes or other securities otherwise than in connection with the offering of the Notes. Accordingly, references herein to the offering of the Notes should be read as including any offering of the Notes to the Dealers and/or their respective affiliates, or affiliates of Wheelock, WKFL or WKBVI as investors for their own account. Such entities are not expected to disclose such transactions or the extent of any such investment, otherwise than in accordance with any applicable legal or regulatory obligation to do so. If such transactions occur, the trading price and liquidity of the Notes may be impacted. Furthermore, it is possible that a significant proportion of the Notes may be initially allocated to, and subsequently held by, a limited number of investors. If this is the case, the trading price and liquidity of trading in the Notes may be constrained (see “*Risk Factors — Notes issued under the Programme have no current active trading market and may trade at a discount to their initial offering price and/or with limited liquidity*”). Wheelock, WKFL, WKBVI and/or their respective affiliates and the Dealers are under no obligation to disclose the extent of the distribution of the Notes amongst individual investors, otherwise than in accordance with any applicable legal or regulatory requirements.

Some of the Dealers and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with Wheelock, WKFL, WKBVI and/or their respective affiliates. The Dealers have received, or may in the future receive, customary fees and commissions for these transactions.

In the ordinary course of their various business activities, the Dealers and their respective affiliates make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of Wheelock, WKFL and/or WKBVI, including the Notes. Certain of the Dealers or their affiliates that have a lending relationship with Wheelock, WKFL and/or WKBVI routinely hedge their credit exposure to Wheelock, WKFL and/or WKBVI consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in Wheelock's, WKFL's and/or WKBVI's securities, including potentially the Notes offered hereby. Any such short positions could adversely affect the trading prices and liquidity of the Notes offered hereby. The Dealers and their affiliates may make investment recommendations and/or publish or express independent research views (positive or negative) in respect of the Notes or other financial instruments of Wheelock, WKFL or WKBVI, and may recommend to their clients that they acquire long and/or short positions in the Notes or other financial instruments.

In connection with any Tranche of Notes, the Dealer or Dealers (if any) named as the stabilisation manager(s) in the applicable Pricing Supplement (the “**Stabilisation Manager(s)**”) or any person acting on behalf of any Stabilisation Manager(s) may over-allot the Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that any Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by any Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

Selling Restrictions

United States

The Notes and the Guarantee have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act. Terms used in this paragraph have the meaning given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder.

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that, except as permitted by the Dealer Agreement, it will not offer or sell or, in the case of Notes in bearer form, deliver the Notes of any identifiable Tranche, (i) as part of their distribution at any time

or (ii) otherwise until 40 days after completion of the distribution of such Tranche as determined, and certified to the Issuer and the Fiscal Agent by each Dealer, or in the case of Notes issued on a syndicated basis, the Lead Manager, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S under the Securities Act.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of any identifiable Tranche of Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering of such Tranche of Notes) may violate the registration requirements of the Securities Act.

This Offering Circular has been prepared by the Issuers for use in connection with the offer and sale of the Notes outside the United States. The Issuers and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Offering Circular does not constitute an offer to any person in the United States. Distribution of this Offering Circular by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States is unauthorised and any disclosure without the prior written consent of the Issuer of any of its contents to any such U.S. person or other person within the United States is prohibited.

PRC

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that the Notes are not being offered or sold and may not be offered or sold, directly or indirectly, in the PRC (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan), except as permitted by the securities laws of the PRC.

Hong Kong

In relation to each Tranche of Notes issued by the relevant Issuer, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that:

- (i) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes except for Notes which are a “structured product” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the “SFO”) other than (a) to “**professional investors**” as defined in the SFO and any rules made under the SFO; or (b) in other circumstances which do not result in the document being a “**prospectus**” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the “**C(WUMP)O**”) or which do not constitute an offer to the public within the meaning of the C(WUMP)O; and
- (ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “**professional investors**” as defined in the SFO and any rules made under the SFO.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the “*Financial Instruments and Exchange Act*”). European Economic Area — Prohibition of Sales to EEA and UK Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies the “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the EEA or in the UK. For the purposes of this provision:

- (i) the expression “retail investor” means a person who is one (or more) of the following:
 - (a) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended “**MiFID II**”); or
 - (b) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (c) not a qualified investor as defined in the Prospectus Regulation; and
- (ii) the expression an “offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

Public Offer Selling Restrictions under the Prospectus Regulation

If the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, in relation to each Member State of the EEA and the UK (each, a “**Relevant State**”), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (i) if the Pricing Supplement in relation to the Notes specifies that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such

Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Pricing Supplement contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or pricing supplement, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (iii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iv) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation, or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129.

General

These selling restrictions may be modified by the agreement of the relevant Issuer and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in the Pricing Supplement issued in respect of the issue of Notes to which it relates or in a supplement to this Offering Circular.

No representation is made that any action has been taken or will be taken in any jurisdiction that would permit a public offering of any of the Notes, or possession or distribution of this Offering Circular or any other offering material or any Pricing Supplement, in any country or jurisdiction where action for that purpose is required.

If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Dealers or any affiliate of the Dealers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Dealers or such affiliate on behalf of the Issuers in such jurisdiction.

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it will, to the best of its knowledge, comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes this Offering Circular, any other offering material or any Pricing Supplement, in all cases at its own expense, and none of Wheelock, WKFL, WKBVI nor any other Dealer shall have responsibility therefor.

FORM OF PRICING SUPPLEMENT

The form of Pricing Supplement that will be issued in respect of each Tranche, subject only to the deletion of non-applicable provisions, is set out below:

[MiFID II product governance/Professional investors and ECPs only target market — Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “**MiFID II**”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.]

[PRIIPs REGULATION — PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS — The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “**EEA**”) or in the United Kingdom (the “**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); (ii) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II[./]/; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”).]⁽¹⁾ Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.]

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELOCK FINANCE LIMITED
(Incorporated in Hong Kong with limited liability)

Opinion

We have audited the financial statements of Wheelock Finance Limited ("the company") set out on pages 8 to 31, which comprise the statement of financial position as at 31 December 2019, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the company as at 31 December 2019 and of its financial performance and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELOCK FINANCE LIMITED (CONTINUED)**
(Incorporated in Hong Kong with limited liability)

Key audit matters (continued)

Recoverability of loans to and amounts due from fellow subsidiaries	
<i>Refer to notes 1(e), 7 and 8 to the financial statements.</i>	
The Key Audit Matter	How the matter was addressed in our audit
<p>The company's principal activity is the arrangement of funds through the drawdown of bank loans and the issue of guaranteed notes to external parties and the lending of funds raised to its fellow subsidiaries. The loans to and amounts due from fellow subsidiaries are not secured by any assets of the fellow subsidiaries.</p> <p>We identified the recoverability of loans to and amounts due from the fellow subsidiaries as a key audit matter because the ability of the company to meet its financial obligations as and when they fall due in respect of the bank loans and the guaranteed notes it has issued is dependent on the fellow subsidiaries' timely repayment of the loans to and amounts due.</p>	<p>Our audit procedures to assess the recoverability of loans to and amounts due from the fellow subsidiaries included the following:</p> <ul style="list-style-type: none"> • comparing the loans and the outstanding amounts due as recorded by the company as at 31 December 2019 with the financial records of the fellow subsidiaries; • comparing, on a sample basis, payments to and receipts from fellow subsidiaries during the year ended 31 December 2019 and subsequent to the financial year end with bank statements, bank advices and other relevant underlying documentation; and • assessing the appropriateness of loss allowance estimates of loans to and amounts due from fellow subsidiaries by examining the information used by the company to form such judgements, including considering the historical default data and evaluating whether the historical loss rates are appropriately adjusted based on current economic conditions and forward-looking information.

Information other than the financial statements and auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELLOCK FINANCE LIMITED (CONTINUED)
(Incorporated in Hong Kong with limited liability)**

Information other than the financial statements and auditor's report thereon (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELOCK FINANCE LIMITED (CONTINUED)**
(Incorporated in Hong Kong with limited liability)

Auditor's responsibilities for the audit of the financial statements (continued)

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELLOCK FINANCE LIMITED (CONTINUED)
(Incorporated in Hong Kong with limited liability)**

Auditor's responsibilities for the audit of the financial statements (continued)

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cheung Wing Han, Ivy.

Notes to the financial statements

(Expressed in Hong Kong dollars)

1. Principal accounting policies

(a) Statement of compliance

- (i) These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the requirements of the Hong Kong Companies Ordinance. Significant accounting policies adopted by the company are disclosed below.
- (ii) The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the company. None of these developments have had a material effect on the company’s results and financial position for the current or prior periods reflected in these financial statements.

The company has not adopted any new standard or interpretation that is not yet effective for the current accounting period (note 15).

(b) Basis of preparation of the financial statements

- (i) The measurement basis used in the preparation of the financial statements is the historical cost basis except where stated otherwise in the accounting policies set out below.
- (ii) The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(c) Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

A financial asset (unless it is a debtor without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A debtor without a significant financing component is initially measured at the transaction price.

(i) Classification and measurement of financial assets

On initial recognition, financial assets of the company are classified as measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

(Expressed in Hong Kong dollars)

(c) Financial instruments (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, “principal” is defined as the fair value of the financial asset on initial recognition. “Interest” is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

(ii) Derecognition of financial assets

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The company enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In such cases, the transferred assets are not derecognised.

(c) Financial instruments (continued)

(iii) Classification and measurement of financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is held-for-trading, it is a derivative or it is designated as such on initial recognition. Interest-bearing borrowings for which there is a hedging relationship with a derivative financial instrument but does not qualify for hedge accounting are designated as FVTPL financial instruments.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

Financial liabilities classified as measured at amortised cost are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(iv) Derecognition of financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under HKFRSs, or for gains and losses arising from a group of similar transactions.

(d) *Cash and cash equivalents*

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the company's cash management are also included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Cash and cash equivalents are assessed for expected credit losses ("ECLs") in accordance with the policy set out in note 1(e).

(e) *Impairment of financial assets*

The company recognises loss allowances for ECL on the financial assets measured at amortised cost. The company measures loss allowances at an amount equal to 12-month ECLs unless there has been a significant increase in credit risk of financial instrument since initial recognition, in which the ECLs are measured at an amount equal to lifetime ECLs. For trade receivables, the company applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which requires the use of the lifetime expected losses provision for all trade receivables.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the company's historical experience and informed credit assessment and including forward-looking information.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument which the ECL model applies.

12-month ECLs are the portion of ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date or a shorter period if the expected life of the instrument is less than 12 months.

In all cases, the maximum period considered when estimating ECLs is the maximum contractual period over which the company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the company expects to receive).

(e) *Impairment of financial assets (continued)*

Credit-impaired financial assets

At each reporting date, the company assesses on a forward looking basis whether financial assets carried at amortised cost are credit-impaired. A financial asset is “credit-impaired” when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the company on terms that the company would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the company’s procedures for recovery of amounts due.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(f) *Recognition of revenue*

Interest income is recognised in the statement of profit or loss and other comprehensive income as it accrues using the effective interest method.

(g) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessary takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

(h) Income tax

- (i) Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in the statement of profit or loss and other comprehensive income except to the extent that they relate to items recognised directly in equity, in which case the relevant amounts of tax are recognised directly in equity.
- (ii) Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of reporting period, and any adjustment to tax payable in respect of previous years.
- (iii) Deferred tax assets and liabilities arise from deductible and taxable temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax bases, respectively. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from differences which also arise on initial recognition of assets and liabilities, all deferred tax assets, to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at each reporting date and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

- (iv) Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if, and only if, the company has the legally enforceable right to set off current tax assets against current tax liabilities.

Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

In accordance with section 135 of the Hong Kong Companies Ordinance, the ordinary shares of the company do not have a par value.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the company. All ordinary shares rank equally with regard to the company's residual assets.

(b) Capital management

The company's primary objectives when managing capital are to safeguard the company's ability to continue as a going concern to meet its financial obligations and continue to provide returns for shareholders and benefits for other stakeholders.

The company is a wholly-owned subsidiary of Wheelock and Company Limited ("Wheelock"), and its sources of capital and policy of capital management may be affected with due regard to Wheelock's group policy for capital management. As such, the company defines "capital" as shareholders' equity.

The company actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in Wheelock's capital management policy and economic conditions. The company is not subject to externally imposed capital requirements.

There has been no change in the company's capital management practices as compared to the prior year.

Notes to the financial statements (Continued)

13. Financial risk management and fair values

The company is exposed to financial risks related to interest rate, liquidity and credit in the normal course of business. To manage these risk exposures, the company develops, maintains and monitors the company's financial policies as described below to mitigate the exposure to these risks.

(a) *Interest rate risk*

The company's interest rate risk arises primarily from the company's debt obligations with its fellow subsidiaries and various banks which are mainly denominated in Hong Kong and Singaporean dollars. Interest rates on borrowings are determined based on prevailing market rates. The company partially uses derivative financial instrument to hedge interest rate risks.

Based on the sensitivity analysis performed as at 31 December 2019, it was estimated that a general increase/decrease of 1% in interest rates, with all other variables held constant, would have no material impact on the post-tax profit and total equity of the company as the finance costs are fully recharged to group companies.

The sensitivity analysis above indicates the instantaneous change in the company's post-tax profit and total equity that would have arisen assuming that the change in interest rates had occurred at the end of the reporting period. The analysis has been performed on the same basis as for 2018.

(b) *Liquidity risk*

13. Financial risk management and fair values (continued)

(c) Credit risk

The company's credit risk is primarily attributable to loans to fellow subsidiaries, amounts due from fellow subsidiaries, interest receivables and cash at banks. The company has a credit policy in place and the exposures to credit risks are monitored on an ongoing basis. The company does not have a significant concentration of credit risk.

Impairment on loans to fellow subsidiaries, amounts due from fellow subsidiaries, interest receivables and cash at banks has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The company considers that these exposures have low credit risk based on the external credit ratings of the counterparties.

The company considers the probability of default to be close to zero. Accordingly, no loss allowance has been recognised during the years ended 31 December 2018 and 31 December 2019.

(d) Fair values of assets and liabilities

(i) Fair value estimation

The carrying value of debtors, prepayments, creditors and accruals, certain bank loans and other borrowings and inter-company balances carried at cost or amortised cost are not materially different from their fair values as at 31 December 2018 and 31 December 2019. Amounts due from/to group companies are unsecured, interest free and recoverable/repayable on demand.

(ii) Financial instrument carried at fair value

The following table presents the fair value of the company's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1 and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

	<u>(2,019,047,911)</u>	<u>(2,971,274,733)</u>

Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of IRSs and CCSs in Level 2 is determined based on the amount that the company would receive or pay to terminate the swaps at the end of the reporting period taking into account current interest rates and the current creditworthiness of the swap counter-parties.

The fair values of bank loans and other borrowings in Level 2 are determined based on cash flows discounted using the company's current incremental borrowing rates for similar types of borrowings with maturities consistent with those remaining for the debt being valued.

During the years ended 31 December 2018 and 2019, there were no transfers among Level 1 and Level 2 or transfer into or out of Level 3.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELLOCK FINANCE LIMITED**

(incorporated in Hong Kong with limited liability)

Opinion

We have audited the financial statements of Wheelock Finance Limited ("the company") set out on pages 7 to 24, which comprise the statement of financial position as at 31 December 2018, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the company as at 31 December 2018 and of its financial performance and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters (continued)

Recoverability of loans to and amounts due from fellow subsidiaries	
<i>Refer to notes 1(e), 7 and 8 to the financial statements.</i>	
The key audit matter	How the matter was addressed in our audit
<p>The company's principal activity is the arrangement of funds through the drawdown of bank loans and the issue of guaranteed notes to external parties and the lending of the funds raised to its fellow subsidiaries. The loans to and amounts due from fellow subsidiaries are not secured by any assets of the fellow subsidiaries.</p> <p>We identified the recoverability of loans to and amounts due from the fellow subsidiaries as a key audit matter because the ability of the company to meet its financial obligations as and when they fall due in respect of bank loans and the guaranteed notes it has issued is dependent on the fellow subsidiaries' timely repayment of the loans to and amounts due.</p>	<p>Our audit procedures to assess the recoverability of loans to and amounts due from the fellow subsidiaries included the following:</p> <ul style="list-style-type: none"> • comparing the loans and the outstanding amounts due as recorded by the company as at 31 December 2018 with the financial records of the fellow subsidiaries; • comparing, on a sample basis, payments to and receipts from the fellow subsidiaries during the year ended 31 December 2018 and subsequent to the financial year end with bank statements, bank advices and other relevant underlying documentation; and • assessing if there was any indication that the fellow subsidiaries may not be able to settle the amounts due to the company as and when they fall due by evaluating the financial position of the borrowers with reference to their latest available management accounts.

Information other than the financial statements and auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELLOCK FINANCE LIMITED (CONTINUED)**
(incorporated in Hong Kong with limited liability)

Responsibilities of the directors for the financial statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
WHEELOCK FINANCE LIMITED (CONTINUED)**
(incorporated in Hong Kong with limited liability)

Auditor's responsibilities for the audit of the financial statements (continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements for the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cheung Wing Han, Ivy.

NOTES TO THE FINANCIAL STATEMENTS

(Expressed in Hong Kong dollars)

I. PRINCIPAL ACCOUNTING POLICIES

(a) Statement of compliance

- (i) These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the requirements of the Hong Kong Companies Ordinance. Significant accounting policies adopted by the company are disclosed below.
- (ii) The HKICPA has issued a number of new HKFRSs and amendments to HKFRSs that are first effective for the current accounting period of the company. Of these, the following developments are relevant to the company's financial statements:

HKFRS 9, Financial instruments

HKFRS 15, Revenue from contracts with customers

HK(IFRIC) 22, Foreign currency transactions and advance consideration

The company has early adopted HKFRS 9 since the financial year ended 31 December 2016, and none of these other developments has had a material effect on the company's results and financial position for the current or prior periods have been prepared or presented in these financial statements.

The company has not applied any new standards or interpretation that is not yet effective for the current accounting period.

(b) Basis of preparation of the financial statements

- (i) Notwithstanding the net deficit in shareholders' funds, the financial statements have been prepared on a going concern basis as the immediate holding company of the company has confirmed that it will continue to provide sufficient financial support to the company as is necessary to maintain the company as a going concern and to enable it to meet its liabilities as and when they fall due for the foreseeable future.
- (ii) The measurement basis used in the preparation of the financial statements is the historical cost basis except where stated otherwise in the accounting policies set out below.
- (iii) The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(c) Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

A financial asset or financial liability (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Classification and measurement of financial assets

On initial recognition, financial assets of the company are either classified as measured at amortised cost or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

WHEELLOCK FINANCE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(Expressed in Hong Kong dollars)

Financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

(ii) Derecognition of financial assets

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The company enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In such cases, the transferred assets are not derecognised.

(iii) Classification and measurement of financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is held-for-trading, it is a derivative or it is designated as such on initial recognition. Interest-bearing borrowings for which there is a hedging relationship with a derivative financial instrument but does not qualify for hedge accounting are designated as FVTPL financial instruments.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

Financial liabilities classified as measured at amortised cost are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(iv) Derecognition of financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

WHEELLOCK FINANCE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(Expressed in Hong Kong dollars)

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under HKFRSs, or for gains and losses arising from a group of similar transactions.

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the company's cash management are also included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Cash and cash equivalents are assessed for expected credit losses ("ECL") in accordance with the policy set out in note 1(e).

(e) Impairment of assets

The company recognises loss allowances for expected credit loss ("ECL") on the financial assets measured at amortised cost. The company measures loss allowances at an amount equal to lifetime ECL. For trade receivables, the company applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which requires the use of the lifetime expected losses provision for all trade receivables.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the company's historical experience and informed credit assessment and including forward-looking information.

Life ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date or a shorter period if the expected life of the instrument is less than 12 months.

In all cases, the maximum period considered when estimating ECLs is the maximum contractual period over which the company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the company expects to receive).

Credit-impaired financial assets

At each reporting date, the company assesses on a forward looking basis whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

WHEELOCK FINANCE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(Expressed in Hong Kong dollars)

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the company on terms that the company would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the company's procedures for recovery of amounts due.

(f) Recognition of revenue

Interest income is recognised in the statement of profit or loss and other comprehensive income as it accrues using the effective interest method.

(g) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

(h) Income tax

- (i) Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in the statement of profit or loss and other comprehensive income except to the extent that they relate to items recognised directly in equity, in which case the relevant amounts of tax are recognised directly in equity.
- (ii) Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

WHEELLOCK FINANCE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(Expressed in Hong Kong dollars)

- (iii) Deferred tax assets and liabilities arise from deductible and taxable temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax bases respectively. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from differences which also arise on initial recognition of assets and liabilities, all deferred tax liabilities and all deferred tax assets, to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

- (iv) Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if, and only if, the company has the legally enforceable right to set off current tax assets against current tax liabilities.

(i) Related parties

For the purpose of these financial statements, parties are considered to be related to the company as follows:

- (I) A person, or a close member of that person's family, is related to the company if that person (i) has control or joint control over the company; (ii) has significant influence over the company; or (iii) is a member of the key management personnel of the company or the company's parent.
- (II) An entity is considered related to the company if the company has the ability, directly or indirectly, to control the entity or exercise significant influence over the entity in making financial and operating decisions, or vice versa, or where the entity is subject to at least significant influence by a party which has control or joint control over the company. Related entities also include entities where a person identified in (I)(i) has at least significant influence over the entity or a member of the key management personnel of the entity (or of a parent of the entity) has control or joint control over the company.

(j) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the company. All ordinary shares rank equally with regard to the company's residual assets.

13. FINANCIAL RISK MANAGEMENT AND FAIR VALUES

The company is exposed to financial risks related to interest rate, liquidity and credit in the normal course of business. To manage these risk exposures, the company develops, maintains and monitors the company's financial policies as described below to mitigate the exposure to these risks.

(a) Interest rate risk

The company's interest rate risk arises primarily from the company's debt obligations with its fellow subsidiaries and various banks which are mainly denominated in Hong Kong, Australian, Singaporean and United States dollars. Interest rates on borrowings are determined based on prevailing market rates. The company partially uses derivative financial instrument to hedge interest rate risks.

Based on the sensitivity analysis performed as at 31 December 2018, it was estimated that a general increase/decrease of 1% in interest rates, with all other variables held constant, would have no material impact on the post-tax loss and equity deficiencies of the company as the finance costs are fully recharged to group companies.

The sensitivity analysis above indicates the instantaneous change in the company's post-tax loss and equity deficiencies that would have arisen assuming that the change in interest rates had occurred at the end of the reporting period. The analysis has been performed on the same basis as for 2017.

(b) Liquidity risk

The company's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and funding from its ultimate holding company in the short and longer term.

(c) Credit risk

The company's credit risk is primarily attributable to loans to fellow subsidiaries, amounts due from fellow subsidiaries, interest receivables and cash at banks. The company has a credit policy in place and the exposures to credit risk are monitored on an ongoing basis. The company does not have significant concentration of credit risk.

Impairment on loans to fellow subsidiaries, amounts due from fellow subsidiaries, interest receivables and cash at bank has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The company considers that these exposures have low credit risk based on the external credit ratings of the counterparties.

The company considers the probability of default to be close to zero. Accordingly, no loss allowance has been recognised during the years ended 31 December 2017 and 31 December 2018.

(d) Fair value of assets and liabilities

(i) Fair value estimation

The carrying values of loans to group companies, interest receivables, prepayments, cash at banks and other liquid funds, creditors and accruals, bank loans and other borrowings, provisions and inter-company balances carried at cost or amortised cost are not materially different from their fair values as at 31 December 2017 and 31 December 2018.

(ii) Financial instrument carried at fair value

The following table presents the fair value of the company's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1 and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

Financial instruments carried at fair value

The fair value measurement information for financial instruments in accordance with HKFRS 13 is given below:

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(Expressed in Hong Kong dollars)

Valuation techniques and inputs used in level 2 fair value measurements

The fair value of IRSs and CCSs in level 2 is determined based on the amount that the company would receive or pay to terminate the swaps at the end of the reporting period taking into account current interest rates and the current creditworthiness of the swap counter-parties.

The fair values of bank loans and other borrowings in Level 2 are determined based on cash flows discounted using the company's current incremental borrowing rates for similar types of borrowings with maturities consistent with those remaining for the debt being valued.

During the years ended 31 December 2017 and 2018, there were no transfers among Level 1 and Level 2 or transfer into or out of Level 3.

(e) Capital management

The company's primary objectives when managing capital are to safeguard the company's ability to continue as a going concern to meet its financial obligations and continue to provide returns for shareholders and benefits for other stakeholders.

The company is a wholly-owned subsidiary of Wheelock and Company Limited ("Wheelock"), and its sources of capital and policy of capital management may be affected with due regard to Wheelock's group policy for capital management. As such, the company defines "capital" as shareholders' equity.

There has been no change in the company's capital management practices as compared to the prior year.

14. MATERIAL RELATED PARTY TRANSACTIONS

In addition to transactions with the group companies and balances outstanding as at 31 December 2017 and 31 December 2018 as disclosed in notes 5, 7 and 8 to the financial statements, the following material related party transactions have been entered into by the company in the normal course of the company's business.

Principal Accounting Policies and Basis of Preparation

The summary financial information as at 31 December 2018 and 2019 and for the years then ended has been extracted from Wheelock's published audited financial statements for each of its financial years ended 31 December 2018 and 2019.

The summary financial information as at and for the six months ended 30 June 2019 has been extracted from Wheelock's published unaudited interim financial statements as at and for the six months ended 30 June 2019.

The summary financial information as at and for the six months ended 30 June 2020 has been extracted from the 2020 Interim Financial Statements which have been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410. The 2020 Interim Financial

Statements have been prepared by Wheelock in accordance with Hong Kong Accounting Standard (“**HKAS**”) 34 “Interim Financial Reporting” (“**HKAS 34**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”).

The preparation of the 2020 Interim Financial Statements in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The 2020 Interim Financial Statements have been subject to internal control policies of the Group which have been reviewed by the Risk Management and Internal Control Committee of the Group.

The accounting policies and methods of computation used in the preparation of the 2020 Interim Financial Statements are consistent with those used in the annual financial statements for the year ended 31 December 2019 except for the changes mentioned below.

With effect from 1 January 2020, the Group has applied the following amendments to HKFRSs issued by the HKICPA to the 2020 Interim Financial Statements:

Amendments to HKFRS 3	Definition of a business
Amendments to HKAS 1 and HKAS 8	Definition of material

The Group has assessed the impact of the adoption of the above amendments and considered that there was no significant impact on the Group’s results and financial position or any substantial changes in the Group’s accounting policies.

The Group has not applied any new standards or interpretation that is not yet effective for the accounting period beginning on 1 January 2020.

Fair Value Measurement of Financial Instruments

Financial assets and liabilities carried at fair value

The Group’s financial instruments carried at fair value are measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement (“**HKFRS 13**”). The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique. The levels are defined as follows:

Level 1 valuations:	Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
Level 2 valuations:	Fair value measured using only Level 2 inputs i.e. observable inputs which fail to meet Level 1 and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
Level 3 valuations:	Fair value measured using significant unobservable inputs.

Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of interest rate swaps and cross currency interest rate swaps in Level 2 is determined based on the amount that the Group would receive or pay to terminate the swaps at the end of the reporting period taking into account current interest rates and current creditworthiness of the swap counter-parties.

The fair value of forward exchange contracts in Level 2 is determined by using the forward exchange rates at the end of the reporting period and comparing them to the contractual rates.

The fair values of bank loans and other borrowings in Level 2 are determined based on cash flows discounted using the Group's current incremental borrowing rates for similar types of borrowings with maturities consistent with those remaining for the debt being valued."

The following replaces the section headed “Capitalisation and Indebtedness” included on page 99 of the Offering Circular in its entirety:

3. Additional Risk Factor

Prospective investors should carefully take into account the following additional risk factor, in addition to the other risk factors and information contained in the Offering Circular, before investing in the Notes.

Historical consolidated financial information of Wheelock is not indicative of the Group's current or future results of operations

Following completion of the privatisation of Wheelock by way of a scheme of arrangement under section 673 of the Companies Ordinance in July 2020, Wheelock's effective interests in WHL and Wharf REIC has been adjusted and Wharf REIC ceased to be a subsidiary of the Group and is accounted for as an associate thereafter under the equity method of accounting. As such, the historical consolidated financial information of Wheelock included in the Offering Circular and this Pricing Supplement does not reflect the Group's financial position post-privatisation and is not indicative of the Group's current or future financial condition or results of operations. In addition, such financial information is not intended to represent or predict the Group's results of operations of any future periods. No pro forma financial information reflecting the effect of the privatisation has been included in the Offering Circular or this Pricing Supplement. Potential investors must therefore exercise caution when using such historical financial information to evaluate the Group's current or future financial condition and results of operations. Please also refer to the Wheelock Announcements and the 2020 Interim Financial Statements (including, without limitation, note 9 and note 18 to the 2020 Interim Financial Statements) for further details.

In addition, the Group may acquire businesses or companies and/or dispose of subsidiaries, associates or assets and/or undergo certain organisational restructuring from time to time in accordance with its business objectives. The Group's future financial condition and results of operations may also be affected by various reasons, including factors beyond the Group's control, such as changes in economic environment, laws and regulations and the competitive landscape of the industries in which the Group operates. There can be no assurance that any future acquisition, disposal and/or organisational restructuring or changes in shareholding structure will not have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

4. Other information

As at 31 December 2020, Wheelock owned a total of approximately 54.9% of WHL's issued share capital. As at 31 December 2020, Wheelock owned a total of approximately 49.0% of Wharf REIC's issued share capital.

5. The 2020 Interim Financial Statements

This Pricing Supplement contains the 2020 Interim Financial Statements, which were prepared in conformity with HKFRS issued by the Hong Kong Institute of Certified Public Accountants and have been reviewed by KPMG. The 2020 Interim Financial Statements have not been audited by KPMG or any other independent auditors. Consequently, the 2020 Interim Financial Statements should not be relied upon by potential investors to provide the same quality of information associated with information that has been subject to an audit by an independent auditor or accountant. None of the Managers or any of their respective affiliates, directors, officers or advisers makes any representation or warranty, express or implied, regarding the accuracy or sufficiency of such unaudited financial statements for an assessment of, and potential investors must exercise caution when using such data to evaluate Wheelock's or the Group's financial condition and results of operations. The 2020 Interim Financial Statements should not be taken as an indication of the expected financial condition or results of operations of Wheelock or the Group for the full financial year ended 31 December 2020.

The financial information contained in this Pricing Supplement does not constitute specified financial statements (as defined in the Companies Ordinance) in relation to Wheelock. Wheelock has delivered its specified financial statements for the years ended 31 December 2018 and 31 December 2019 to the Registrar of Companies of Hong Kong. Wheelock's auditors have reported on the specified financial statements in relation to Wheelock for the years ended 31 December 2018 and 31 December 2019. Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim consolidated financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Review report to the board of directors of
Wheelock and Company Limited (continued)**
(Incorporated in Hong Kong with limited liability)

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim consolidated financial statements as at 30 June 2020 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

The unaudited interim consolidated financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

The accounting policies and methods of computation used in the preparation of the unaudited interim consolidated financial statements are consistent with those used in the annual consolidated financial statements for the year ended 31 December 2019 except for the changes mentioned below.

With effect from 1 January 2020, the Group has applied the following amendments to HKFRSs issued by the HKICPA to these unaudited interim consolidated financial statements for the current accounting period:

2. SEGMENT INFORMATION

The Group manages its diversified businesses according to the nature of services and products provided. Management has determined four reportable operating segments for measuring performance and allocating resources. The segments are investment property, development property, hotels and logistics. No operating segments have been aggregated to form the reportable segments.

Investment property segment primarily includes property leasing operations. Currently, the Group's properties portfolio, which mainly consists of retail, office and serviced apartments, is primarily located in Hong Kong, Mainland China and Singapore.

Development property segment encompasses activities relating to the acquisition, development, design, construction, sales and marketing of the Group's trading properties, which are primarily in Hong Kong, Mainland China and Singapore.

Hotels segment includes hotel operations in the Asia Pacific region which are operated by The Wharf (Holdings) Limited ("WHL") and Wharf Real Estate Investment Company Limited ("Wharf REIC").

Logistics segment mainly includes the container terminal operations in Hong Kong and Mainland China undertaken by Modern Terminals Limited ("Modern Terminals"), Hong Kong Air Cargo Terminals Limited and other public transport operations.

Management evaluates performance primarily based on operating profit/loss as well as the equity share of results of associates and joint ventures of each segment. Inter-segment pricing is generally determined on an arm's length basis.

Segment business assets principally comprise all tangible assets, intangible assets and current assets directly attributable to each segment with the exception of bank deposits and cash, certain other long term investments, deferred tax assets and other derivative financial assets.

Revenue and expenses are allocated with reference to sales generated by those segments and expenses incurred by those segments or which arise from the depreciation of assets attributable to those segments.

14. FAIR VALUES MEASUREMENT OF FINANCIAL INSTRUMENTS

(a) Financial assets and liabilities carried at fair value

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement ("HKFRS 13"). The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique. The levels are defined as follows:

- | | |
|---------------------|--|
| Level 1 valuations: | Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. |
| Level 2 valuations: | Fair value measured using only Level 2 inputs i.e. observable inputs which fail to meet Level 1 and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available. |
| Level 3 valuations: | Fair value measured using significant unobservable inputs. |

During the six months ended 30 June 2020 and 2019, there were no transfers of financial instruments between Level 1 and Level 2, or transfers into or out of Level 3.

The Group's policy is to recognise transfers between levels of fair value hierarchy levels as at the end of the reporting period in which they occur.

Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of interest rate swaps and cross currency interest rate swaps in Level 2 is determined based on the amount that the Group would receive or pay to terminate the swaps at the end of the reporting period taking into account current interest rates and current creditworthiness of the swap counter-parties.

The fair value of forward exchange contracts in Level 2 is determined by using the forward exchange rates at the end of the reporting period and comparing them to the contractual rates.

The fair values of bank loans and other borrowings in Level 2 are determined based on cash flows discounted using the Group's current incremental borrowing rates for similar types of borrowings with maturities consistent with those remaining for the debt being valued.

Valuation techniques and inputs used in Level 3 fair value measurements

The Group's unlisted investments measured at categorised in Level 3 comprise private equity funds. These private equity funds were managed by unrelated asset managers who applied various investment strategies to accomplish their respective investment objectives. The fair value of these funds is recorded based on valuations supplied by the fund managers. These valuations are measured by the percentage of ownership of the private equity's net asset value, which is an unobservable input. The fund managers estimated the fair value of underlying investments based on direct market quote for Level 1 financial instruments. For other investments, the fund managers apply appropriate valuation techniques such as latest transaction price, discounted cash flow, or a forward price/earnings multiple arrived at by comparison with publicly-traded comparable companies and after applying a liquidity discount. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instruments or based on any available observable market data.

The movement during the period in the balance of these Level 3 fair value measurement are as follows:

	30 June 2020 HK\$ Million
At 1 January	2,361
Payment for purchases	622
Net unrealised gains recognised in consolidated income statement during the period	132
As at 30 June	<u>3,115</u>

Any gain or loss arising from the remeasurement of the Group's unlisted investments are recognised in the other net (charge)/income in the consolidated income statement.
