Workspaces

Customise your trading experience with personalised workspaces

WHAT ARE TABS?

In POEMS 2.0, trading functions and tools are organised by tabs. By default, you'll have a standard set of tabs.

WHAT ARE WORKSPACES?

Within each tab is a workspace which you can add in trading tools (we call them widgets), group and resize them to your preference

The screenshot displays the POEMS 2.0 trading platform interface. At the top, there are market indices: STI: 2510.750 (-4.490), * KLCI: 1473.250 (+15.750), * Hang Seng: 22961.470 (-171.290), and ASX 200: 2857.200 (-85.600). The time is 01:17:53 AM. The interface is divided into several tabs: Announcement, Acct Mgmt, Order Status, Prices (LP1), Trade (LP2), News & Research, Charts, Tools, Market Data & Rewards, Fundamental View, and Technical View. The 'Trade (LP2)' tab is active, showing a 'View Price' section with a watchlist of stocks and a 'Trade' section for SGX / S68 (SGX) with a bid of 7.740 and ask of 7.750. Below the watchlist is an 'Order Status' section with a table of orders. A large orange diagonal line labeled 'Workspace' is drawn across the interface, indicating the area where users can customize their trading tools and widgets.
