- (ii) “United States persons” (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as “**U.S. Taxpayers**”). Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organized in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer

under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Foreign Account Tax Compliance Act and Common Reporting Standard (“CRS”)

FATCA

FATCA was enacted in 2010 by the United States Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Fund to U.S. withholding tax on certain types of payments made to the Fund. Accordingly, it is intended that the Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee and/or other service providers of the Fund may be required to report and disclose information on certain investors in the Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development (OECD) and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“CAA”) to the Inland Revenue Authority of Singapore (IRAS). Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

* * *

You are required to:

- (a) provide such information, documents and assistance in connection with the above or any other tax or other information reporting regime as we and/or the Trustee may require from time to time; and
- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers to the Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above or pursuant to any other tax or other information reporting regime.

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (IRAS), which will in turn provide the information to the U.S. tax authorities.

* * *

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 20.2 of this Prospectus.

You may direct your enquiries in relation to the Fund to us or our authorised agents or distributors.

Different Classes may have different characteristics such as the Class currency, fee structure, minimum threshold amounts for subscription, holding and realisation, distribution policy, eligibility requirements, mode of investment, the availability of a RSP and whether the relevant Class is a Hedged Class. A separate NAV per Unit (in the relevant Class currency), which may differ as a consequence of such variable factors, will be calculated for each Class. - *Classes designated “A” are available for subscription by all investors.*
- *Classes designated “B” and “E” are only available for subscription by institutional clients and such other persons as we may from time to time determine in our sole discretion.*
- *“Dist” or “Acc” refers to whether the Class is a Distribution Class (which may make distributions) or Accumulation Class respectively.*
- *The currency stated in the name of a Class is its Class currency: e.g. the Class currency of “Class A USD Acc (Hedged)” is USD.*
- *If the Class name contains “(Hedged)” then it is a Hedged Class.*

We may at any time establish new Classes within the Fund. We may re-designate the Units in any existing Class so long as there is no prejudice to the existing Holders of such Class or the Fund as a whole. Subject to the foregoing, we may, with prior written notice to the Trustee, launch or delay the launch of any Class at any time.

The following Classes of Units have been established:

- Class A SGD Acc
- Class A SGD Dist
- Class A USD Acc (Hedged)
- Class A USD Dist (Hedged)
- Class B SGD Acc

- (c) You may inspect a copy of the Deed free of charge at our operating office during normal business hours, subject to such reasonable restrictions as we may impose. You may request for a copy at a charge not exceeding S\$25 per copy or such other amount as we may from time to time agree with the Trustee.

1.5 Accounts and reports

You may obtain copies of the latest semi-annual and annual reports, semi-annual and annual accounts, and the auditor’s report on the annual accounts of the Fund, at our operating office during normal business hours (subject to such reasonable restrictions as we may impose).

2. **THE MANAGERS, THEIR DIRECTORS AND KEY EXECUTIVES**

2.1 The Managers of the Fund

The Managers are UOB Asset Management Ltd (“**UOBAM**”).

UOBAM is a wholly-owned subsidiary of United Overseas Bank Limited (“**UOB**”). Established in 1986, UOBAM has been managing collective investment schemes and discretionary funds in Singapore for over 35 years. UOBAM is licensed and regulated by the Authority. UOBAM has an extensive presence in Asia with regional business and investment offices in Malaysia, Thailand, Brunei, Indonesia, Taiwan, Japan and Vietnam. UOBAM has a joint venture with Ping An Fund Management Company Limited. In addition, it also has strategic alliances with Wellington Management and UTI International (Singapore) Private Limited.

Through its network of offices, UOBAM offers global investment management expertise to institutions, corporations and individuals, through customised portfolio management services and unit trusts. As at 30 April 2022, UOBAM manages 59 unit trusts in Singapore. UOBAM is one of the largest unit trust managers in Singapore in terms of assets under management.

UOBAM’s investments team conducts independent and rigorous fundamental research within a proven investment process and framework. In equities, UOBAM’s team has acquired specialist skills in investment in global markets and major global sectors. It combines a disciplined research effort that aims to identify and invest in high performing businesses at the right price, with a systematic model portfolio construction process, to diversify sources of alpha to achieve more consistent performance over time. In fixed income, UOBAM’s coverage spans a wide spectrum comprising G10 government bonds, developed market corporate bonds, Asia sovereigns and corporates, emerging market bonds and Singapore fixed income. In addition to independent research to uncover relative value opportunities, UOBAM adopts diversified investment strategies including responsible investment practices combined with active risk management to generate sustainable total return for its portfolios.

Since 1996, UOBAM has won a total of 213 awards in Singapore. These awards recognise UOBAM’s investment performance across different markets and sectors.

As at 30 April 2022, UOBAM and its subsidiaries in the region have a staff strength of over 450 including about 43 investment professionals in Singapore.

We may delegate certain or all of our duties. Currently, we have delegated certain administration and valuation functions and certain transfer agency functions, in respect of the Fund, to the administrator, whose details are set out in [paragraph 3.3](#) below.

We maintain professional indemnity insurance coverage which complies with the requirements under applicable laws, regulations and guidelines, or as directed by the Authority.

See the Deed for details on our role and responsibilities as the managers of the Fund.

Environmental, social and governance (“ESG”) evaluation

UOBAM became a signatory to the United Nations-supported Principles for Responsible Investment (“PRI”) on 2 January 2020. As part of UOBAM’s firm-wide commitment to responsible investment, the Fund will incorporate ESG evaluation which serves to complement its existing fundamental analysis and investment approach. Through such ESG evaluation, inclusion of better and higher quality securities is achieved and this supports the investment objective of the Fund.

UOBAM will use data or other forms of ESG metrics including ratings provided by independent research vendors as well as any information obtained by UOBAM to assess whether any particular ESG factors may be material to a company and capture any positive or negative momentum around these factors.

With these inputs on the efficacy of a company’s ESG performance, UOBAM will employ its proprietary ESG evaluation model it has developed to consider the ESG impact of various actions of a company. The model also seeks to consider more current headline news to assess real-time ESG performance of the company. The model may also employ different inputs and weigh the significance of those inputs differently than any third party data sources that are used. UOBAM may also conduct adjustments as appropriate to its ESG evaluation of companies relative to a specific sector or across multiple sectors.

Our past performance is not necessarily indicative of our future performance.

Such investments may be made either directly or through other collective investment schemes, or both.

In relation to investments through collective investment schemes, a substantial portion of the assets of the Fund may from time to time be invested into the following Singapore-authorized open-ended collective investment schemes constituted and domiciled in Singapore which are also managed by us, namely:

- (a) United SGD Fund (a sub-fund under the umbrella fund known as the United Choice Portfolios II); and
- (b) United Asian High Yield Bond Fund (a sub-fund under the umbrella fund known as the United Choice Portfolios) (collectively, the "**Underlying Funds**").

The investment objective, focus and approach of each Underlying Fund are set out in the Appendices to this Prospectus.

FDIs may be used or invested in for the purposes of hedging existing positions, efficient portfolio management, or a combination of both purposes. The Fund may hold part of its assets in liquid investments or cash for liquidity purposes.

Our research process is fundamental and valuation driven, and bottom-up in approach. We have credit analysts covering various areas including Singapore, Asia, emerging markets and developed markets. We conduct detailed credit analyses that evaluate industry outlook, businesses, financials, management expertise, strength of ownership and specific debt structures. This results in an implied rating score. Relative valuation will determine which fixed income or debt securities are selected.

5.3 Investment style and benchmark usage

The Fund is actively managed without reference to its benchmark (as stated in [paragraph 14.1](#)), which is used as a target for the Fund to beat.

² Non-investment grade fixed income or debt securities would include those with a long term credit rating of below "BBB-" by Standard and Poor's, "Baa3" by Moody's Investors Service, "BBB-" by Fitch Inc, or their equivalent.

5.4 Distribution policy

Distributions (if any) will only be made in respect of Distribution Classes.

The current distribution policy is to make regular monthly distributions of up to 4.25% per annum (or such other frequency or percentage as we may from time to time determine) of the initial issue price of the relevant Distribution Class or of the NAV per Unit of the relevant Distribution Class as at such date as we may from time to time determine. Distributions will commence only after a period of at least 3 months following the inception of the relevant Distribution Class (or at such other time as we may determine at our discretion).

In addition, we may make annual bonus distributions as at the last Business Day of December of each year of such amount as we may from time to time determine.

Distributions shall be based on the number of Units held by each Holder as at the relevant Distribution Date as evidenced by the Register. Distributions will be made to Holders within 30 Business Days from the relevant Distribution Date.

The making of distributions is at our absolute discretion and distributions are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions may be made out of income, capital gains or capital. The declaration or payment of distributions (whether out of capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may result in reduced future returns.

5.5 Product suitability

The Fund is only suitable for investors who:

- seek long term returns through capital appreciation and/or income; and
- are comfortable with the volatility and risks of a fixed income fund.

5.6 Authorised Investments

The authorised investments of the Fund (“**Authorised Investments**”) are as follows:

- (i) any Quoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (ii) any Investment in respect of which an application for listing or permission to deal has been made to a Recognised Market and the subscription for or purchase of which is either conditional upon such listing or permission to deal being granted within a specified period not exceeding 12 weeks (or such other period as may be agreed between the Trustee and us) or in respect of which we are satisfied that the subscriptions or other transactions will be cancelled if the application is refused;
- (iii) any Unquoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (iv) any Investment which is a unit in any unit trust scheme or a share or participation in an open-ended mutual fund or other collective investment scheme;
- (v) the currency of any country or any contract for the spot purchase or sale of any such currency or any forward contract of such currency;
- (vi) any Investment denominated in any currency;
- (vii) any Investment which is a future, option, forward, swap, collar, floor or other derivative; and
- (viii) any Investment which is not covered by sub-paragraphs (i) to (vii) above, as selected by us and approved by the Trustee in writing.

The above shall only be to the extent allowed under the CMP Regulations for the purposes of classifying Units of the Fund as Excluded Investment Products.

See the Deed for the full meaning of the terms **Quoted Investment, Recognised Market, Unquoted Investment and Investment.**

The Fund intends to use or invest in FDIs. Further information is set out in paragraph 5.8 of this Prospectus.

5.7 Investment restrictions

- (a) The investment guidelines and borrowing limits set out under Appendix 1 of the Code apply to the Fund.
- (b) Units of the Fund are Excluded Investment Products. Accordingly, the Fund will not invest in any product or engage in any transaction which may cause the Units of the Fund not to be regarded as Excluded Investment Products.
- (c) Currently, the Fund and the Underlying Funds do not intend to carry out securities lending or repurchase transactions but may do so in the future in accordance with the provisions of the Code. Accordingly, the Fund and/or the Underlying Funds may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code. The Managers shall not engage in securities lending or repurchase transactions for the Fund, except where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the NAV of the Fund.

5.8 Risk management procedures of the Managers on certain investments

- (a) Subject to the provisions on FDIs set out in the CMP Regulations for the purpose of classifying Units of the Fund as Excluded Investment Products, the Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, for efficient portfolio management or a combination of both purposes.
- (b) We will use the commitment approach to determine the Fund's global exposure to FDIs by converting its positions in the FDIs into equivalent positions in the FDIs' underlying assets. Such exposure will be calculated in accordance with the provisions of the Code. We will ensure that the global exposure of the Fund to FDIs or embedded FDIs will not exceed 100% of the Fund's NAV.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
 - (i) We will implement various procedures and controls to manage the risk of the Fund's assets. Our decision to invest in any particular security or instrument on behalf of the Fund will be based on our judgment of the benefit of such transactions to the Fund and will be consistent with the Fund's investment objective in terms of risk and return.
 - (ii) *Execution of trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of the Fund, and that best execution and fair allocation of trades are done. Our Governance and Compliance department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the Fund. If there is any non-compliance, our Governance and Compliance department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
 - (iii) *Liquidity.* If there are any unexpectedly large realisations of Units, it is possible that the assets of the Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid Recognised Markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of the Fund will be in liquid assets such as cash and cash-equivalents to meet expected realisations (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraphs 10.3 or 13. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units may be delayed.

- (iv) *Counterparty exposure.* The Fund may have credit exposure to counterparties by virtue of positions in FDIs and other financial instruments held by the Fund. To the extent that a counterparty defaults on its obligations and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets and in its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Fund's position with that counterparty as soon as practicable.
- (v) *Volatility.* To the extent that the Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case where the investment is made directly into the underlying security, the value of the Fund's assets will have a higher degree of volatility. The Fund may use FDIs for hedging purposes to reduce the overall volatility of the value of its assets. At the same time, we will ensure that the global exposure of the Fund to FDIs and embedded FDIs will not exceed the NAV of the Fund, as stated in sub-paragraph (b) above.
- (vi) *Valuation.* The Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted by us are adequate and have been implemented, and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Fund, but subject always to the requirements under the Code.
- (e) The Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.
- (f) Where the Fund uses or invests in FDIs on commodities, all such transactions shall be settled in cash at all times.
- (g) We apply the same risk management and compliance procedures and controls in respect of the Underlying Funds which are managed by us.

⁽²⁾ Transaction costs (which do not include the transaction fees mentioned below) include all expenses relating to the purchase and sale of financial instruments.

6.3 Any Subscription and Realisation Fees will be retained by us for our own benefit and will not form part of the Deposited Property. All or part of the Subscription Fee may also be paid to or retained by our authorised agents or distributors. We will also pay any other commission, remuneration or sum payable to such authorised agents or distributors in respect of the marketing of Units. Moreover, the authorised agents and distributors through whom you subscribe for Units may (depending on the specific nature of services provided) impose other fees and charges that are not disclosed in this Prospectus, and you should check with the relevant agent or distributor on such fees and charges, if any.

6.4 We may at any time differentiate between investors as to the amount of the Subscription Fee, Realisation Fee, Switching Fee and other charges (if any) payable to us upon the issue, realisation or switch of Units, or apply such discounts or waivers as we think fit (provided that such discounts will be borne by us and not by the Fund).

6.5 The costs of establishment of the Fund and each Class may be amortised over such period to be determined at our discretion.

6.6 The fees and charges of each Underlying Fund are set out in the relevant Appendix. The subscription fee, realisation fee and switching fee in respect of the Fund’s investments in each Underlying Fund will be waived. The management fee in respect of the Fund’s investments in each Underlying Fund will also be rebated back to the Fund.

6.7 Apart from the Underlying Funds, the Fund may also invest in other collective investment schemes from time to time. The amount of fees and charges incurred by the Fund in respect of any investment into such other collective investment schemes may be higher or lower than those indicated in respect of the Underlying Funds. Such fees and charges, which may include (but are not limited to) subscription fees, realisation fees and management fees, may in aggregate amount to or exceed 0.1% p.a. of the Fund’s NAV. As with the Underlying Funds, where the other collective investment schemes invested into are managed by us, the subscription fee and realisation fee imposed by the relevant collective investment scheme will be waived and the management fee in respect of the Fund’s investments in the relevant collective investment scheme will be rebated back to the Fund.

7. RISKS

7.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Fund.

Generally, some of the risk factors that you should consider are market risk, interest rate risk, foreign exchange risk, political risk, liquidity risk and derivatives risk. The degree to which these risks affect investments in the Fund varies depending on the Fund's investment objective, approach and focus, and you should also consider the risks specific to the Fund.

You should be aware that the price of Units and the income accruing from them may fall or rise and you may not get back your original investment. There is no guarantee that the investment objective of the Fund will be achieved.

Investment in the Fund is not meant to produce returns over the short term and you should not expect to obtain short-term gains from such investment.

The general and specific risks described in this paragraph 7 are not exhaustive and you should be aware that the Fund may be exposed to other risks of an exceptional nature from time to time.

The investments of an Underlying Fund may also be subject to the risks described below as well as other risks as disclosed in the relevant Appendix for the Underlying Fund and in the prospectus of the Underlying Fund.

7.2 Specific risks

(a) Market risk

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the value of Units to rise or fall.

Furthermore, some of the markets or exchanges on which the Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which the Fund may liquidate its positions to meet realisation requests.

(b) Fixed income and debt securities risk

The Fund's investments in fixed income and debt securities are subject to the risks that are typical of such instruments, such as interest rate risks and default risk. Interest rate risks will arise from unexpected changes in the term structure of interest rates, which in turn depend on general economic conditions. In general, the prices of debt securities are subject to interest rate fluctuations; prices of debt securities generally rise when interest rate falls, and generally fall when interest rate rises. The longer the term of a debt security, the more sensitive it will be to fluctuations in value from interest rate changes. In addition, such investments are subject to the specific ability of the issuers of such securities to meet their debt obligations and hence depend on the financial health of the issuers, which may change adversely over time due to their specific business conditions and general market conditions.

Investments in fixed income or debt securities are subject to adverse changes in the financial condition of the issuer, or in general economic conditions, or both, or an unanticipated rise in interest rates, which may impair the ability of the issuer to make payments of interest and principal especially if the issuer is highly leveraged. An issuer's ability to meet its debt obligations may also be adversely affected by specific corporate developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. An economic downturn or an increase in interest rates may increase the potential for default by an issuer. Also, a change in the credit rating of a debt security as a result of any of the above factors can affect that security's liquidity and therefore have an impact on the value of Units of the Fund. In general, lower-rated securities carry a greater degree of credit risk than higher-rated securities, and high yield or non-investment grade securities may have a higher credit and default risk.

(c) Interest rate risk

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention. Fluctuations in interest rates of the currencies in which investments of the Fund are denominated or fluctuations in interest rates of the currencies in which the underlying assets comprised in the investments of the Fund are denominated may affect the value of the Fund.

(d) Issuer specific risk

A security issued by a particular issuer may be impacted by factors that are unique to that issuer and thus may cause that security's return to differ from that of the market.

(e) Single country, sector and regional risk

Where the Fund's exposure is focused in a single country, sector or region, you should be aware that while such concentrated exposure may present greater opportunities and potential for capital appreciation, it may be subject to higher risks as there may be less diversification than a global portfolio.

(f) Emerging markets risk

Investments by the Fund in emerging markets may involve a high degree of risk and may be considered speculative. Such risks include (i) greater risk of expropriation, confiscatory taxation, nationalisation, and social, political and economic instability; (ii) the current small size of the markets for securities of emerging market issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility, (iii) certain national policies which may restrict the Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

(g) Foreign exchange and currency risk

General

The Fund currency is SGD while each Class is denominated in the relevant Class currency.

Where the Fund makes investments which are denominated in a currency (the "**Portfolio Currency**") that is different from the Fund currency or the relevant Class currency, fluctuations of the exchange rates between the Fund currency or Class currency and the Portfolio Currency may affect the value of the relevant Units.

In our management of the Fund, we may hedge the foreign currency exposure of the Fund or any Class and may adopt an active or passive currency management approach. However, the foreign currency exposure of the Fund or Class may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

Additionally, where a Class currency is different from the Fund currency, changes in the exchange rate between the Class currency and the Fund currency may adversely affect the value of the Units of such Class, as expressed in the Class currency. Subject to the same considerations in the sub-paragraph above, we may or may not mitigate the exchange rate risks to the extent of the value of the assets of the Fund attributed to such Class by hedging such exchange rate risks, and to the extent that we do not do so, investors will be exposed to exchange rate risks.

Although a financial instrument used to mitigate the exchange rate risks of a Class may not be used in relation to the other Classes of Units within the Fund, the financial instrument will comprise the assets (or liabilities) of the Fund as a whole. The gains (or losses) on and the costs of the relevant financial instruments will, however, accrue solely to the relevant Class of Units of the Fund.

Hedged Classes

For Hedged Classes, we currently adopt a passive hedging policy to hedge the currency in which the relevant Hedged Class is denominated (the “**Hedged Currency**”) against the Portfolio Currency. Notwithstanding the foregoing, we retain the discretion to adopt any other hedging policy as we may determine from time to time.

A Hedged Class allows us to use currency hedging transactions to reduce the effect of exchange rate fluctuations between the Portfolio Currency and the Hedged Currency. The effects of hedging will be reflected in the value of the Hedged Class.

The aim is that the Hedged Class should reflect the actual return of the Portfolio Currency within the Fund, as applicable, plus or minus the interest rate differential between the Hedged Currency and the Portfolio Currency. However, other factors may impact the return of the Hedged Class which means that the Hedged Class may not perfectly achieve this aim. These factors include, but are not limited to: (i) any unrealised profit/loss on the currency forward remaining un-invested until the hedge is rolled over and any profit or loss is crystallised; (ii) transaction costs; (iii) short-term interest rate changes; (iv) the timing of the market value hedge adjustments relative to the Fund’s or Hedged Class’ Valuation Point; and (v) intra-day volatility of the value of the Portfolio Currency in relation to the existing hedge.

The costs and expenses associated with the hedging transactions in respect of a Hedged Class and any benefits of the hedging transactions will accrue to Holders in that Hedged Class only.

Hedging transactions may be entered into whether the Hedged Currency is declining or increasing in value relative to the Portfolio Currency; consequently, where such hedging is undertaken, it may protect investors in the relevant Hedged Class against a decrease in the value of the currency being hedged but it may also preclude investors from benefiting from an increase in the value of such currency. Investors in a Hedged Class will still be exposed to the market risks that relate to the underlying investments in the Fund and any exchange rate risks that arise from the policy of the Fund that is not fully hedged. There is no guarantee that the hedging strategy applied in a Hedged Class will entirely eliminate the adverse effects of changes in exchange rates between the Portfolio Currency and the Hedged Currency.

(h) Political, regulatory and legal risk

The value and price of the Fund’s investments may be adversely affected by international political developments, changes in exchange controls, taxation policies, monetary and fiscal policies, foreign investment policies, government policies, restrictions on repatriation of investments and other changes in the laws, regulations, restrictions and controls in the relevant countries.

(i) Small and medium capitalisation companies risk

The Fund may invest in small and medium capitalisation companies which generally carry greater risk than is customarily associated with larger capitalisation companies. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the prices of securities of such companies.

(j) Derivatives risk

As the Fund may use or invest in FDIs, it will be subject to risks associated with such FDIs. FDIs include, but are not limited to, foreign exchange forward contracts. An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Fund. See [paragraph 5.8](#) for more information on our risk management procedures on certain investments.

(k) Counterparty risk

The Fund is exposed to the risk that a counterparty may default on its obligations to perform under a particular contract. If a counterparty becomes bankrupt or insolvent, the Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a

decline in the value of the investment during the period in which the Fund seeks to enforce its rights. The Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

(l) Exceptional market conditions risk

Under certain market conditions such as during volatile markets or crisis situations or where trading on the relevant stock exchange is suspended, restricted or otherwise impaired, it may be difficult or impossible to liquidate or rebalance positions. During such times, the Fund may be unable to dispose of certain assets due to thin trading or lack of a market or buyers. Placing a stop-loss order may not necessarily limit the Fund's losses to intended amounts as market conditions may make it impossible to execute such order at the ideal price. In addition, such circumstances may force the Fund to dispose of assets at reduced prices, thereby adversely affecting the Fund's performance. Investments may also be difficult to value with any degree of accuracy or certainty. The dumping of securities in the market could further deflate prices. If the Fund incurs substantial trading losses, the need for liquidity could rise sharply at the same time that access to liquidity is impaired. Further, in a market downturn, the financial conditions of the Fund's counterparties could be weakened, thereby increasing the Fund's credit risk.

(m) Risk of using rating agencies and other third parties

Credit ratings represent rating agencies' and/or our opinion regarding the credit quality of the relevant instrument or institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

(n) Actions of institutional investors

The Fund may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Fund. While these institutional investors will not have any control over the investment decisions for the Fund, the actions of such investors may have a material effect on the Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the Fund's assets at a time and in a manner which does not provide maximum economic advantage to the Fund and which could therefore adversely affect the value of the Fund's assets.

(o) Liquidity risk of investments

Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity which are inherent characteristics of these markets.

(p) Broker risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in our transactions with them, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for the Fund may encounter financial difficulties that may impair the Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

(q) Investment management risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

(r) Risks relating to distributions

Where the Fund makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities (including the Underlying Funds) suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may also result in reduced future returns to you.

(s) Risk relating to investments in Underlying Funds

The Fund may from time to time have a large concentration of investments in each of the Underlying Funds and could consequently be subject to significant losses where any Underlying Fund declines in value or is otherwise adversely affected. The Fund will be subject to different levels and combinations of risks based on its allocation among the Underlying Funds and the potential impact that the losses and risks of an Underlying Fund may have on the Fund would depend on the size of the Fund's allocation to it. The key risks in relation to each Underlying Fund are set out in the relevant Appendix.

The number of Units you will receive with an investment of S\$1,000.00 will be calculated as follows:

S\$1,000.00	-	S\$50.00	=	S\$950.00
Gross Investment Amount		Subscription Fee (5%)*		Net Investment Amount
S\$950.00	÷	S\$1.000*	=	950.00**
Net Investment Amount		Issue price		Number of Units allotted

* Based on an issue price of S\$1.000 and a Subscription Fee of 5%. This example is a hypothetical and is not indicative of any future issue price. The actual issue price after the initial offer period of a Class will fluctuate according to the NAV of that Class. Units in some Classes may not be denominated in SGD.

** The number of Units to be issued will be truncated to 2 decimal places. We may use another method of calculation and adjustment or number of decimal places with the approval of the Trustee.

1,000 Units	x	S\$0.900*	=	S\$900.00
Your realisation request		Realisation price		Gross Realisation Proceeds
S\$900.00	-	S\$0.00	=	S\$900.00

Such limitation will be applied proportionately to all Holders who have validly requested realisations on such Dealing Day and to us.

Any Units which are not realised or cancelled will be realised or cancelled on the next Dealing Day, provided that if the number of Units to be realised or cancelled still exceeds such limit, we may continue to carry forward the realisation/cancellation requests in the same manner, until such time as the total number of Units to be realised or cancelled on a Dealing Day falls within such limit.

If realisation requests are so carried forward and you are affected, we will notify you within 7 Business Days. Realisation requests which have been carried forward from an earlier Dealing Day shall be dealt with in priority to later requests.

How switches are carried out:	<p>A switch of Units will be effected as follows:</p> <p>(a) your Units will be realised at the realisation price calculated under <u>paragraph 10</u>;</p> <p>(b) the net realisation proceeds shall then be used (after deducting any Switching Fee payable) to subscribe for new units at the prevailing issue price of such new units. 13. SUSPENSION OF DEALINGS

13.1 Subject to the provisions of the Code, we or the Trustee may, with the prior written approval of the other, suspend the issue and realisation of Units of the Fund or any Class during:

- any period when the Recognised Market on which any Authorised Investments forming part of the Deposited Property of the Fund for the time being are listed, quoted or dealt in is closed (otherwise than for public holidays) or during which dealings are restricted or suspended;
- the existence of any state of affairs which, in the Trustee's and our opinion, might seriously prejudice the interests of the Holders in relation to the Fund or Class as a whole or of the Deposited Property of the Fund;
- any period when a state of emergency prevents a practicable disposal of such Authorised Investments by or on behalf of the Trustee;
- any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments, or the current price on the relevant Recognised Market, or when for any reason the prices of any of such Authorised Investments, or the amount of any of our liability and/or the liability of the Trustee for the account of the Fund, cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);

- (e) any period when remittance of moneys which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments for the time being constituting the Deposited Property is not possible or cannot, in the Trustee's and our opinion, be carried out at normal rates of exchange;

- (k) any period when dealings in any one or more of the underlying entities in which the Fund has invested a substantial portion of its assets are suspended; or
- (l) exceptional circumstances, where we have determined that such suspension is in the best interest of the Holders; or
- (m) such other circumstances as may be required under the provisions of the Code.

13.2 Without prejudice to paragraph 13.1 above, the Trustee may, with the prior approval of the Authority, suspend the issue and realisation of Units of the Fund or any Class if:

- (b) a receiver or trustee is appointed of the whole or of any substantial part of our assets or undertaking; or

13.3 Subject to the provisions of the Code, we and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the Deed, including suspending the realisation of Units for such reasonable period as may be necessary to effect an orderly redemption of investments in accordance with Clause 16.8 of the Deed.

13.4 Subject to the provisions of the Code, any such suspension will take effect upon our written declaration to the Trustee (or vice versa, as the case may be) and will end as soon as practicable when the condition giving rise to the suspension no longer exists and no other condition under which suspension is authorised under this paragraph 13 or the applicable provisions of the Deed exists upon our (or, as the case may be, the Trustee's) written declaration of the same and in any event, within such period as may be prescribed by the Code. The period of suspension may be extended in accordance with the Code. - (2) Calculated on a NAV-to-NAV basis as at 31 March 2022, taking into account the Subscription Fee and Realisation Fee (if any), with all dividends and distributions reinvested (net of reinvestment charges). Figures for one year show the percentage change, while figures for more than one year show the average annual compounded return.
- (3) The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "IMAS Guidelines") and is based on the Fund's latest audited accounts for the financial year ended 31 December 2021. The following expenses (where applicable) as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:
- (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
 - (b) foreign exchange gains and losses, whether realised or unrealised;
 - (c) front-end loads, back-end loads and other costs arising on the purchase or sale of other funds;
 - (d) tax deducted at source or arising on income received, including withholding tax;
 - (e) interest expense; and
 - (f) dividends and other distributions paid to the Holders.
- (4) **You should note that such benchmark is merely a performance measurement standard. There is no guarantee that the Fund will outperform such benchmark or achieve a positive return and such benchmark should not be construed as a prediction, projection or forecast as to the future or likely performance of the Fund.**
- (5) Class A USD Dist (Hedged) was fully redeemed on 24 February 2019 and a new subscription was made on 12 February 2020. There was no NAV computation for the period of 25 February 2019 to 11 February 2020 as there were no investors in Class A USD Dist (Hedged) during that period. Performance figures do not take into account the impact that may arise from the lack of NAV computation during the period from 25 February 2019 to 11 February 2020 where there were no investors in the Class. Performance figures in relation to periods that start or end within the time where there are no investors in the Class will not be available. If the period from 25 February 2019 to 11 February 2020 is taken into account, the performance figures may be lower.

The past performance of the Fund is not necessarily indicative of its future performance.

14.2 Turnover ratio

The turnover ratio of the Fund for the financial year ended 31 December 2021 is 334.84%.

The turnover ratio is calculated based on the lesser of purchases or sales of the Fund's underlying investments expressed as a percentage of the daily average NAV of the Fund.

14.3 Turnover ratios of the Underlying Funds

The turnover ratio of each Underlying Fund is set out in the relevant Appendix. The turnover ratio is calculated based on the lesser of purchases or sales expressed as a percentage over the daily average NAV of the relevant Underlying Fund.

15. SOFT DOLLAR COMMISSIONS/ARRANGEMENTS

Subject to the provisions of the Code, we may from time to time receive or enter into soft dollar commissions/arrangements in our management of the Fund and the Underlying Funds. We will comply with applicable regulatory and industry standards on soft dollars. The soft dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of, any investments, research and advisory services, economic and

political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft dollar commissions/arrangements unless (a) such soft dollar commissions/arrangements can reasonably be expected to assist us in the management of the Fund, (b) best execution is carried out for the transactions, and (c) no unnecessary trades are entered into in order to qualify for such soft dollar commissions/arrangements.

We do not, and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Fund.

16. CONFLICTS OF INTEREST

16.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("**CFA Institute**") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units in the Fund for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Fund and, in particular, our obligation to act in the best interests of the Fund and its Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Fund in the securities of any of our related corporations;
- (ii) invest monies of the Fund in other collective investment schemes managed by us or our related corporations; and
- (iii) deposit monies of the Fund in the ordinary course of business of the Fund with our related corporations which are banks licensed under the Banking Act 1970, finance companies licensed under the Finance Companies Act 1967, merchant banks approved as financial institutions under Section 28 of the Monetary Authority of Singapore Act 1970 or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Fund.

16.2 Trustee's conflicts of interest disclosures

The Trustee shall conduct all transactions with or for the Fund on an arm's length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

The services of the Trustee provided to the Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund) so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or the Managers and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or the Managers, where entered into, will be on an arm's length basis. In particular:

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at the discretion of the Managers, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services; and
- (b) Where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively "**foreign exchange transactions**"), are entered into for or on behalf of the Fund with an affiliate of the Trustee (a "**State Street counterparty**"), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, the Managers or the Fund

and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Fund with counterparties other than a State Street counterparty.

19. OTHER MATERIAL INFORMATION

19.1 Market timing

The Fund is not designed and managed to support short term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the interests of other investors.

In addition, short-term trading in Units increases the total transaction costs of the Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Fund, which may disrupt the investment strategies to the detriment of other investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to the Fund (as provided in the Code), we will inform Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the interests of investors in the Fund.

19.2 Information on investments

At the end of each quarter, you will receive a statement showing the value of your investments in the Fund. If you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

19.3 Indemnities

We and the Trustee are entitled to be indemnified out of or have recourse to the Deposited Property in accordance with the terms of the Deed. See the Deed for further details.

19.4 Liquidation of the Managers, the Trustee or custodians

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the Fund may be terminated. See the Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Custodial risk

There are risks involved in dealing with the custodian who holds the Fund's investments or settles the Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of the custodian, the Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Fund with the custodian will be readily recoverable by the Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in those situations in which the Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Fund have been entrusted to such non-U.S. sub-custodians.

20. PROVISIONS OF THE DEED

Some of the provisions of the Deed are set out below. *See the Deed for the full terms and conditions of the Fund.*

20.1 Valuation

Except where otherwise expressly stated in the Deed and subject always to the provisions of the Code, the value of the assets comprised in the Deposited Property with reference to any Authorised Investment which is:

- (a) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price (or, with the prior approval of the Trustee, the last bid price) as at the last official close on the relevant Recognised Market (or at such other time as the Managers may from time to time determine after consultation with the Trustee). Where such Quoted Investment is listed, dealt or traded in more than one Recognised Market, the Managers (or such person as the Managers may appoint for the purpose) may in their absolute discretion select any one of such Recognised Markets for the foregoing purposes and, if there is no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the last available prices quoted by responsible firms, corporations or associations on a Recognised Market at the time of calculation (or at such other time as the Managers may from time to time determine after consultation with the Trustee), and where there is no Recognised Market, the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker, then such market maker as the Managers shall designate);
- (b) an Unquoted Investment, shall be calculated by reference to, where applicable: (i) the initial value thereof being the amount expended in the acquisition thereof; (ii) the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker, then such market maker as the Managers may designate), as may be determined by the Managers to represent the fair value of such Investment; or (iii) the sale prices of recent public or private transactions in the same or similar Investments, valuations of comparable companies or discounted cash

flow analysis, as may be determined to represent the fair value of such Investment. In the valuation of such Investment, the Managers may take into account relevant factors including, without limitation, significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;

- (c) cash, deposits and similar assets shall be valued (by a person approved by the Trustee as qualified to value such cash, deposits and similar assets) at their face value (together with accrued interest) unless, in the opinion of the Managers (after consultation with the Trustee), any adjustment should be made to reflect the value thereof;
- (d) a unit or share in a unit trust scheme or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price; and
- (e) an Investment other than as described above, shall be valued by a person approved by the Trustee as qualified to value such an Investment in such manner and at such time as the Managers shall from time to time determine after consultation with the Trustee,

provided that, if the quotations referred to in paragraphs 20.1(a) to 20.1(e) above are not available, or if the value of the Authorised Investment determined in the manner described in paragraphs 20.1(a) to 20.1(e) above is determined by the Managers with due care and in good faith to not be representative of the value of such Authorised Investment, then the value shall be such value as the Managers may with due care and in good faith consider in the circumstance to be the fair value and is approved by the Trustee. The Managers shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the “**fair value**” shall be determined by the Managers in consultation with a stockbroker or an approved valuer and with the approval of the Trustee in accordance with the Code. Where the fair value of a material portion of the Deposited Property of the Fund cannot be determined, the Managers shall, subject to the provisions of the Code, suspend valuation and dealing in the Units of the Fund.

20.2 Compulsory realisations

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Fund held by:

- (a) any Holder:
 - (i) whose subscription for or holding of Units, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance of the Managers or the Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings, in the opinion of the Managers:
 - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (ii) may cause the offer of the Units of the Fund, the Fund, this Prospectus, the Deed, the Managers or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any Holder whose holdings, in the opinion of the Managers:
 - (i) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
 - (ii) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or Holders might not otherwise have incurred or suffered; or

- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by the Managers and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder (or the Holder has failed to provide the same) in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Managers and/or the Trustee pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives implemented as part of any IGA entered into between the U.S. and Singapore in connection with FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (f) any Holder who does not consent, or withdraws his consent, for the Managers or the Trustee to collect, use and/or disclose information or data relating to the Holder, where (in the opinion of the Managers or the Trustee) such information or data is necessary or desirable for the Managers, the Trustee, their respective related corporations and/or other service providers to perform their respective services and/or duties to or in respect of the Fund and/or the Holder.

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the Realisation Price determined under, the applicable provisions on realisations in the Deed.

If the Managers and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units held by a Holder, the Managers (in consultation with the Trustee) shall be entitled, at any time with prior notice to that Holder, to realise such number of Units held by that Holder as may be necessary to discharge the liability arising. The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

The Managers, the Trustee and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, Trustee and/or any of their respective delegates, agents or associates under this [paragraph 20.2](#).

20.3 Custody of Deposited Property

- (a) The Trustee shall be responsible for the safe custody of the Deposited Property. Any Authorised Investments forming part of the Deposited Property shall, whether in bearer or registered form, be paid or transferred to or to the order of the Trustee forthwith on receipt by the Managers and be dealt with as the Trustee may think proper for the purpose of providing for the safe custody thereof. The Trustee may act as custodian itself or may appoint such persons (including any Associate of the Trustee) as custodian or joint custodians (with the Trustee if acting as custodian or with any other custodian appointed by the Trustee) of the whole or any part of the Deposited Property and (where the Trustee is custodian) may appoint or (where the Trustee appoints a custodian) may empower such custodian or joint custodian (as the case may be) to appoint with prior consent in writing of the Trustee, sub-custodians. The fees and expenses of any such custodian, joint custodian or sub-custodian shall be paid out of the Deposited Property. The Trustee may at any time procure that:
 - (i) the Trustee;
 - (ii) any officer of the Trustee jointly with the Trustee;
 - (iii) any agent or nominee appointed by the Trustee;
 - (iv) any such agent or nominee and the Trustee;
 - (v) any custodian, joint custodian or sub-custodian (or, in each case its nominee) appointed;
 - (vi) any company operating a depository or recognised clearing system (including its nominee) in respect of the Deposited Property of the Fund; or

- (vii) any broker, financial institution or other person (or in each case, its nominee, its custodian or its custodian's nominee) with whom the same is deposited in order to satisfy any requirement to deposit margin or security,

takes delivery of and retains and/or is registered as proprietor of any Authorised Investment in registered form held upon the trusts of the Deed.

- (b) Subject always to the applicable laws, regulations, guidelines and directions, the Trustee shall not be liable:
 - (i) for any loss, damage, claim, cost or expense resulting from or caused by the liquidation, bankruptcy, insolvency, administration or other equivalent process in relation to any central securities depository or clearing system or settlement system or clearing system depository with which any Authorised Investments and other property or assets acquired in relation to the Fund are deposited;
 - (ii) for any loss, damage, claim, cost or expense resulting from or caused by the act or omission of, any central securities depository or clearing system or settlement system or clearing system depository or any other person with which any Authorised Investments and other property or assets acquired in relation to the Fund are deposited;
 - (iii) for any loss, damage, claim, cost or expense resulting from or caused by the Authorised Investments and other property or assets acquired in relation to the Fund which have been placed with any portfolio managers, futures commission merchants, bankers, lenders, agents, nominees, brokers or other intermediaries upon the instructions of the Managers or the Managers' delegates;
 - (iv) for any loss, damage, claim, cost or expense resulting from or caused by the Authorised Investments and other property or assets acquired in relation to the Fund not registered in the name of the Trustee or its nominee;
 - (v) for any loss, damage, claim, cost or expense caused by any central securities depository or clearing system or settlement system or clearing system depository;
 - (vi) in respect of nor shall the Trustee be responsible for (i) any loss, damage, claim, cost or expense resulting from or caused by the insolvency of any nominee, custodian, joint custodian or sub-custodian appointed by the Trustee except where such appointee is a related corporation of the Trustee or (ii) any act or omission of any nominee, custodian, joint custodian or sub-custodian appointed by the Trustee except where the loss caused by such act or omission is a direct result of fraud or wilful default of the Trustee;
 - (vii) for any loss, damage, claim, cost or expense caused by the act or omission of any sub-custodian not appointed by it (but for the avoidance of doubt is appointed pursuant to the Deed) except where (i) such sub-custodian is a related corporation of the Trustee and (ii) had the Trustee carried out such act or omission in place of the sub-custodian, the Trustee would be liable taking into account the attendant facts and circumstances.

20.4 Additional indemnity

- (a) Any indemnity expressly given to the Managers or the Trustee in the Deed is in addition to and without prejudice to any indemnity allowed by law and all the powers, privileges, rights and immunities expressly given to the Managers or the Trustee are in addition to and without prejudice to any power, privileges, rights and immunities granted to the Managers or the Trustee by law; and
- (b) subject to the other provisions of the Deed (including Clause 38.1 of the Deed), any indemnity given to the Managers or the Trustee in the Deed shall survive the retirement or removal of the Managers or the Trustee (as the case may be) only insofar as the benefit of such survival relates to the acts or omissions of the Managers or the Trustee prior to its retirement or removal (as the case may be),

provided that no provision in the Deed shall in any case where the Trustee or the Managers have failed to show the degree of care and diligence required of them as trustee or manager (as the case may be) of the Fund, exempt them or indemnify them against any liability for breach of trust.

20.5 Termination of the Fund

- (a) The Fund is of indeterminate duration and may be terminated as provided in this paragraph 20.5.
- (b) The Managers may in their absolute discretion terminate the Fund at any time by giving not less than 1 month's prior written notice to the Trustee.
- (c) The Trustee may terminate the Fund by giving not less than 1 month's prior written notice to the Managers, given at least 3 years after the close of the initial offer period of the Fund.
- (d) Termination by the Trustee:
 - (i) Notwithstanding paragraphs 20.5(b) and 20.5(c), the Fund may be terminated by the Trustee if:
 - (1) any law is passed or any direction is given by the relevant authority which renders it illegal or in the opinion of the Trustee impracticable or inadvisable to continue the Fund;
 - (2) the Authority revokes or withdraws the authorisation of the Fund under Section 288 of the SFA;
 - (3) within the period of 3 months after the date on which the Trustee gave notice in writing to the Managers that it wishes to retire pursuant to Clause 38.2 of the Deed, a new trustee has not been appointed in accordance with that Clause;
 - (4) new managers have not been appointed in accordance with Clause 37.3 of the Deed, within the period of 3 months after the date on which the Trustee gave notice in writing to the Managers pursuant to Clause 37.1 of the Deed; or
 - (5) within the period of 3 months from the date of the Managers giving notice of intent to retire (or such longer period as the Managers and the Trustee may mutually agree in writing), new managers have not been appointed in accordance with the terms of Clause 37.3 of the Deed.

The decision of the Trustee in any of the events specified in this paragraph 20.5(d)(i) shall be final and binding upon the Managers and the Holders but the Trustee shall be under no liability on account of any failure to terminate the Fund pursuant to this paragraph 20.5(d)(i) or otherwise.

- (e) Termination by the Managers:
 - (i) Notwithstanding paragraphs 20.5(b) and 20.5(c), the Fund may be terminated by the Managers:
 - (1) on any date if on such date the value of the Deposited Property of the Fund is less than S\$5,000,000;

 - (5) in the event of the amalgamation, reconstruction, reorganisation, dissolution, liquidation, merger or consolidation of any underlying entity corresponding to the Fund, or a change in the managers or investment adviser of any such underlying entity;
 - (6) if in the reasonable opinion of the Managers, with the Trustee's prior approval, it becomes impractical, uneconomic, inadvisable or contrary to the interests of the Holders to continue the Fund; or
 - (7) upon notice to the Trustee, where all outstanding Units of the Fund have been realised whether through optional or compulsory realisation.

Subject to paragraph 20.5(e)(i)(6) the decision of the Managers in any of the events specified in paragraph 20.5(e)(i) shall be final and binding upon the Trustee and the Holders but the Managers shall be under no liability on account of any failure to terminate the Fund pursuant to paragraph 20.5(e)(i) or otherwise.

- (f) Notice of termination: The party terminating the Fund in accordance with paragraph 20.5 (other than any termination pursuant to paragraphs 20.5(e)(i)(7) and 20.5(g)) shall give notice in writing of such termination to the Holders and by such notice fix the date at which such termination is to take effect which date shall not be less than 1 month or such other period as may be determined by the Managers with the Trustee's approval after the service of such notice (or such other date as may be necessary to comply with any law or directions given by the Authority).
- (g) Extraordinary Resolution: The Fund may at any time be terminated by the Holders of the Fund by Extraordinary Resolution and such termination shall take effect on the date on which the Extraordinary Resolution is passed or on such later date (if any) as the Extraordinary Resolution may provide.
- (h) The Managers shall give written notice of the termination of the Fund to the Authority at least 7 days before termination of the Fund (or such other number of days as may be permitted by the Authority).
- (i) Provided that the Holders of Units of the Fund or the relevant Class have been circulated with the particulars of a scheme of reconstruction or amalgamation to be entered into with the managers and the trustee of some other unit trust scheme or open-ended investment company and an Extraordinary Resolution of such Holders of Units of the Fund or Class has been duly passed authorising and directing the Managers and the Trustee to enter into the said scheme, then the said scheme shall take effect upon the passing of such Extraordinary Resolution or upon such later date as the scheme may provide, whereupon (i) the Deed shall, to the extent inconsistent with the scheme, be amended by the terms of the scheme, and (ii) the terms of such scheme shall be binding upon all the Holders of Units of the Fund or Class who shall be bound to give effect thereto accordingly and the Managers and the Trustee shall do all such acts and things as may be necessary for the implementation thereof.

20.6 Termination of a Class

- (a) Any Class established shall be of indeterminate duration unless otherwise provided for in the Deed or terminated in accordance with this paragraph 20.6. This paragraph 20.6 applies only where more than one Class is established.
- (b) The Managers may in their absolute discretion terminate any Class at any time by giving not less than 1 month's prior written notice to the Trustee.
- (c) The Trustee may terminate a Class by giving not less than 1 month's prior written notice to the Managers, given at least 3 years after the close of the initial offer period of the relevant Class.
- (d) A Class may be terminated by the Trustee if any law is passed or any direction is given by the relevant authority which renders it illegal or in the opinion of the Trustee impracticable or inadvisable to continue that Class. The decision of the Trustee in such event shall be final and binding upon the Managers and the Holders of that Class but the Trustee shall be under no liability on account of any failure to terminate the Class pursuant to this paragraph 20.6(d) or otherwise.
- (e) A Class may be terminated by the Managers:
 - (i) if the Units of that Class in issue fall below a number to be determined by the Managers;
 - (ii) if any law is passed or any direction is given by the relevant authority which renders it illegal or in the reasonable opinion of the Managers impracticable or inadvisable to continue the Class;
 - (iii) if in the reasonable opinion of the Managers, with the Trustee's prior approval, it becomes impractical, uneconomic, inadvisable or contrary to the interests of the Holders to continue that Class; or
 - (iv) upon notice to the Trustee, where all outstanding Units of the Class have been realised whether through optional or compulsory realisation.

Subject to paragraph 20.6(e)(iii), the decision of the Managers in any of the events specified in this paragraph 20.6(e) shall be final and binding upon the Trustee and the Holders of the Class but the Managers shall be under no liability on account of any failure to terminate the Class pursuant to this paragraph 20.6(e) or otherwise.

- (f) Notice of termination: The party terminating the Class in accordance with paragraph 20.6 (other than any termination pursuant to paragraphs 20.6(e)(iv) and 20.6(g)) shall give notice in writing of such termination to the Holders of the Class and by such notice fix the date at which such termination is to take effect which date shall not be less than 1 month after the service of such notice (or such other date as may be necessary to comply with any law or directions given by the Authority).
- (g) Extraordinary Resolution: A Class may at any time be terminated by the Holders of that Class by Extraordinary Resolution and such termination shall take effect on the date on which the Extraordinary Resolution is passed or on such later date (if any) as the Extraordinary Resolution may provide.

20.7 Automatic switching upon termination

Notwithstanding any other provision of the Deed, the Managers may, instead of selling all Investments and distributing the net proceeds to the relevant Holders in accordance with Clause 41 of the Deed upon the Fund or a Class being terminated, determine at their discretion (acting in consultation with the Trustee) to use all or part of the Investments and cash comprising the Deposited Property of the Fund or that attributable to the relevant Class to acquire units or shares of an open-ended collective investment scheme (the “**Target Fund**”) which is managed by, or whose investment manager or investment adviser is, the Managers or any of its Associates (including without limitation, any other Class) for the relevant Holders (“**automatic switching**”), in the following manner:

- (a) upon the Fund or the relevant Class being terminated, the Managers or the Trustee shall, subject to such orders (if any) as may be made by any court of competent jurisdiction pursuant to the Securities and Futures Act, sell such portion (as the Managers or the Trustee may at their discretion determine) of the Investments then comprising the Deposited Property of the Fund or that attributable to the relevant Class and other assets then remaining in its hands and repay any borrowing effected pursuant to Clause 20 of the Deed for the time being outstanding (together with any interest accrued thereon but remaining unpaid), and such sales shall be carried out and completed in such manner and within such period after the termination of the Fund or the relevant Class (as the case may be) as the Managers or the Trustee (as relevant) thinks advisable;
- (b) the amount available for distribution pursuant to paragraph (c) below shall not include any amount which the Trustee considers necessary to retain out of any monies or other property in its hands as part of the Deposited Property of the Fund or the relevant Class as full provision for all costs, charges, expenses, taxation, claims and demands incurred, made or apprehended by the Trustee in connection with or arising out of the termination of the Fund or the relevant Class or otherwise properly payable out of the Deposited Property in accordance with the Deed or law and out of the monies and/or other property so retained to be indemnified and saved harmless against any such costs, charges, expenses, taxation, claims and demands;
- (c) following the sale referred to in paragraph (a), the Trustee shall determine the amount of cash and assets available (after deducting such amount as the Trustee is entitled to retain under paragraph (b) above) for distribution to each Holder in proportion to their respective interests in the Deposited Property of the Fund or that attributable to the relevant Class, whereupon the Trustee shall transfer such cash and assets to the Target Fund to acquire units or shares in the Target Fund in the relevant Holder’s name; and
- (d) For the avoidance of doubt, the relevant Holder shall not be liable for any Subscription Fee, Realisation Fee and Switching Fee pursuant to such automatic switching.

Notwithstanding the foregoing, the Managers and the Trustee may, in consultation with each other, take any additional or other actions as they deem fit to effect such automatic switching.

20.8 Voting

Subject to the relevant provisions of the Deed, the Managers shall exercise or refrain from exercising any rights of voting conferred by any part of the Deposited Property in what they may consider to be the best interests of the Holders.

However, notwithstanding the above, in respect of voting rights where the Managers may face conflicts of interests, the Managers shall cause such voting rights to be exercised in consultation with the Trustee.

APPENDIX 1 – DETAILS OF UNDERLYING FUND: UNITED SGD FUND

This Appendix sets out the details of United SGD Fund (“USF”), a sub-fund of United Choice Portfolios II.

1. Investment objective, focus and approach

(a) Investment objective and focus

The investment focus of USF is to invest substantially all its assets in money market and short term interest bearing debt instruments and bank deposits with the objective of achieving a yield enhancement over Singapore dollar deposits.

(b) Investment approach

Our research process is fundamental and valuation driven, and bottom-up in approach. We have a team of credit analysts for both Singapore fixed income issuers and high grade corporate issuers in the developed markets. This benefits our Singapore credit research efforts as many high grade foreign issuers have issued Singapore-dollar denominated securities.

For Singapore, Asia and emerging markets, our team of credit analysts conducts a detailed credit analysis that evaluates industry outlook, business review, financial review, management expertise, strength of ownership and specific debt structure. This results in an implied rating score. Relative valuation will determine corporate credit selection.

For rated issuers, mainly US/Europe high grade issuers, to supplement the fundamental analysis by their G10 credit team, we have implemented a quantitative credit risk approach based from the KMV model. This model uses the Merton option framework to calculate the implied asset volatility or the Expected Default Frequency (EDF) of any corporate bond issue. Other inputs include an asset correlation database, which is generated from a proprietary risk management system. Together, the model will calculate the return-expected loss trade off for any corporate bond issue.

(c) Investment style and benchmark usage

USF is actively managed without reference to its benchmark (6M Compounded SORA), which is used as a target for USF to beat.

2. Risks

Some of the key risks for USF are market risk in the global markets, credit and default risks, liquidity risk, interest rate risks, political risk, derivatives risk, foreign exchange and currency risk and risk relating to distributions.

APPENDIX 2 – DETAILS OF UNDERLYING FUND: UNITED ASIAN HIGH YIELD BOND FUND

This Appendix sets out the details of United Asian High Yield Bond Fund (“UAHYBF”), a sub-fund of United Choice Portfolios.

1. Investment objective, focus and approach

(a) Investment objective

UAHYBF seeks to achieve a total return consisting of high income and capital appreciation by investing primarily in high yield fixed income or debt securities (including money market instruments) issued by Asian corporations, financial institutions, governments and their agencies.

(b) Investment focus and approach

UAHYBF aims to achieve its investment objective by investing in a diversified portfolio of Asian fixed income or debt securities, which primarily comprises of high yield fixed income or debt securities that may be non-investment grade and/or unrated. Notwithstanding the foregoing, UAHYBF may from time to time invest in Asian investment grade fixed income or debt securities if Asian high yield fixed income or debt securities are not available at acceptable prices or volume.

Non-investment grade fixed income or debt securities would include those securities with a long term credit rating of below “BBB-” by Standard and Poor’s, “Baa3” by Moody’s Investors Service, “BBB-” by Fitch Inc, or their equivalent.

The geographic regions in which UAHYBF will invest include but are not limited to Singapore, Malaysia, Thailand, Indonesia, Philippines, Hong Kong SAR, South Korea, Taiwan, China, Australia, New Zealand and Japan.

UAHYBF will invest in a broad range of fixed income or debt securities which may or may not be listed and which may be denominated in any currency.

UAHYBF will be actively managed with a focus on yield at an acceptable risk premium. There is no bias towards sovereign or corporate bonds. The emphasis is on the credit spread as the main source of incremental return.

Credit analysis and credit diversification by us are important as a source of added value and in helping to reduce unsystematic risks inherent in such investments, respectively.

Our investment style is based on the credit fundamentals of the relevant company and the extent to which the pricing has been reflected in the credit in question. UAHYBF’s portfolio of investments will be reviewed regularly so as to enable UAHYBF to switch out of overvalued securities to undervalued securities.

A long-term view is taken when assessing an investment opportunity. At the same time, we recognise that Asian markets are subject to greater volatility than developed markets and may therefore require a greater level of trading than originally envisaged. Our policy is to have UAHYBF fully invested save where there is overwhelming evidence to suggest that the markets are excessively overvalued.

(c) Investment style and benchmark usage

UAHYBF is actively managed with reference to its benchmark (J.P. Morgan Asia Credit Index (JACI) Non-Investment Grade Total Return Index), which is used for performance comparison purposes. The benchmark is neither used as a constraint on how UAHYBF’s portfolio is to be constructed nor set as a target for UAHYBF’s performance to beat.

However, the majority of UAHYBF’s holdings could likely be components of its benchmark. As an actively managed fund, we have absolute discretion over UAHYBF’s portfolio construction in terms of following the benchmark weight and investing in securities not included in the benchmark. As a result, it is expected that the risk-return characteristics of UAHYBF may deviate from its benchmark over time.

2. Risks

Some of the key risks for UAHYBF are market risk, liquidity risk, political risk, derivatives risk, foreign exchange and currency risk, risk relating to distributions and debt securities risk.
